THE LIBERALS AND THE TARIFF.

Canadians who have their eyes open
these days ought to get a very clear
idea of what the attitude of the Liberal
party is on the tariff issue, or to put it
more exactly, what the attitude of the
Liberal leaders is on this important
question. We find in an interview, evi-
dently prepared with great care and
given out by the Hon. Mr. Sifton at
Ottawa, that he and his colleagues in
the Laurier government repudiate the
alleged protectionist speeches recently
made by their colleagues, Hon. Mr.
Tarte, Minister of Public Works. Mr.
Sifton says that the government are
against any increase in the tariff, that
they are really not in favor of a pro-
tectionist tariff, and that they are in
favor of the consumer as against the man-
ufacturer every time. We direct the
attention of the public to this state-
ment of Mr. Sifton, as published in an-
other column. Mr. Sifton, like all Lib-
erals of his stripe, takes the Agglutina-
tionist position in a state of confusion.
But it must be clear to all capable of
understanding the Canadian situation
that a tariff which builds up the in-
dustries of the country builds up the
whole nation. The prosperity which the
protection brings to the producer ex-
tends largely likewise to the consumer.

Mr. Sifton further asserted that the
Liberals "have certainly no intention
of supporting an attempt to saddle our-
selves with the discredited 'Tory' policy
which kept the country in a state of
stagnation for fifteen years."
Again Mr. Sifton either does not un-
derstand or deliberately overlooks the
fact that it was the National Policy of
the Conservative party carried out for
years, despite the strenuous opposition
of the Liberals, that laid the true founda-
tion of the present era of national
growth and prosperity.

Concurrent with this expression of
opinion by Mr. Sifton is the attitude
of Sir Wilfrid Laurier, now in Europe.
According to cable despatches, the Pre-
mier is negotiating for new trade rela-
tions with France—such new relations
to be based upon a lowering of the
Canadian tariff towards that country.

It seems to us that there may be ob-
jections to the part of Mr. Sifton's
statement to further tariff concessions to
France. The French Republic got much
the better of the last treaty Canada
made with her, for under it French
imports to Canada have increased three-
fold, while Canadian exports to France
have increased only two-fold.

But Canadians are likely to find fault
with any fresh concessions to France on
other grounds. Under Imperial treaty
arrangements, all such concessions to
France must also be extended to Swed-
en, Sweden, Russia, Salvador, Mus-
cat, Bolivia, Colombia, Austro-Hungary
and the Argentine Republic. Canada,
if she lowers her tariff against France
on specific articles, must let in the
same classes of goods from these other
countries.

In short, Sir Wilfrid Laurier, by strik-
ing the proposed bargain with France,
will be knocking down as far as a great
part of the world is concerned, the bar-
riers which this nation has built up for
itself for the purpose of protecting its
own industries. In short, such trade
concessions as Sir Wilfrid is said to
have proposed would take away from
the effectiveness of the British prefer-
ence and constitute an unwarranted
and destruction, under the enforcement
of protection, under the enforcement of
which Canada has in the past made
such commercial headway.

If Canada is going to make further
trade concessions to anyone, let her
make them in favor of her own kind
and kin, rather than toward foreigners.
As Sir Edmund Barton says, charity
begins at home—that is within the British
family circle, and if the members
of that family are going to make con-
cessions at all, let them make these in
favor of each other.

Mr. Sifton and Sir Wilfrid are work-
ing and talking against the National
Policy, which built up Canada. That is
the thing to be remembered.
And while the Minister of the In-
terior is denouncing the National Policy,
the Minister of Finance is working against
protection, the attitude of some of the Liberal
newspapers is interesting. The Winnipeg
Free Press comes out with a fiery edi-
torial, which, considering Mr. Sifton's
Ottawa utterance, is to say the least
exceedingly opportune. The article,
which is two columns long, and bears
evidence of having been dictated by
Mr. Sifton before he came east, de-
clares that the Liberal policy looks to
the maintenance of the existing or of
a lower tariff. One of the most strik-
ing paragraphs in the deliverance
literally throws down a challenge to
the manufacturers of Canada, and in
so many words asks them to prove
peace or war, and predicts that if they
choose the latter they will get the
worst of it.

Besides thus declaring itself on the
tariff question Mr. Sifton's organ pays
its respects to Mr. Tarte personally,
and is followed up along the same line
by The Toronto Star. The Free Press
practically accuses the Minister of
Public Works of "publicly controvert-
ing and criticizing the policy resolved
upon by his colleagues," and hints that
he is "laying up for himself future
barricades," and apparently sug-
gesting the possibility of it becoming
necessary for him to recede from the
party. The Toronto Star directly takes
the question as to whether he will
have to leave the government, or not.
It is evident that Mr. Sifton and his
organs have little use for Mr. Tarte
and his protection ideas, and it is also
evident that, judging from Sir Wilfrid
Laurier's negotiations in France, he

will, on his return to Canada, side with
the Minister of the Interior.

HURRAH FOR ONTARIO!

While the people of Ontario have
been naturally and sympathetically
exultant over the abundant crops be-
ing harvested in Manitoba and the
Northwest, and all that the unex-
pected western grain yield means for
Canada, they have perhaps failed to
fully appreciate the fact that agri-
cultural Ontario itself has this year
made a new and marvelous record.
Engaged in glouting over the ad-
ventured success of their sons in the
west, they have partially failed to
realize that they have a good deal of
reason to do some glouting on their
own account. Many great harvests
have been reaped in the banner pro-
vince, but we doubt if any previous
Ontario crop has approached this year's.
Other years have seen big
yields in particular lines of farm pro-
duce, but this has been a good all-
round season with excellent results in
almost every department of agricul-
ture. Two crops of hay, 40 and 50
bushels of wheat, 40 bushels of bar-
ley, 75 and 80 bushels of oats to the
acre, are not uncommon for 1902, and
there are, besides, despite local vari-
ance in some districts, immense crops
of turnips, mangels, carrots and en-
silage corn, to say nothing of the fruit
crop, which is heavy. And if we wish-
ed to particularize we could name a
well-authenticated instance of almost
incredible crops of wheat, oats and
barley.

In Bulletin No. 80, issued last month,
the Ontario Department of Agriculture
gave what is called a "crop forecast"
of the harvest of 1902. A final
crop return is issued after threshing
takes place, and previous years' records
show that the field forecast accurately
approximates the final return. We
may, therefore, repeat the figures given
in Bulletin No. 80, as a reliable esti-
mate of this year's Ontario crop. This
return shows the estimates for 1902
and the final returns for 1901 as fol-
lows:

	Year	Acres	Bushels
Fall wheat	1902	748,502	19,356,056
Fall wheat	1901	911,587	15,043,229
Spring wheat	1902	1,042,830	26,820,830
Spring wheat	1901	1,042,830	26,820,830
Barley	1902	681,022	5,498,751
Barley	1901	681,022	5,498,751
Oats	1902	1,042,830	10,540,510
Oats	1901	1,042,830	10,540,510
Rye	1902	180,218	3,680,476
Rye	1901	180,218	3,680,476
Peas	1902	2,508,264	2,545,268
Peas	1901	2,508,264	2,545,268
Beans	1902	1,042,830	10,080,173
Beans	1901	1,042,830	10,080,173

Hay, clover, 1902 2,646,202 4,955,498
Hay, clover, 1901 2,646,202 4,955,498
The above figures are based on the
latest bulletin estimates. The average
fall wheat yield per acre at about 26
bushels, spring wheat 20 bushels, barley
22 bushels and oats 42 bushels, but
reliable private information received
later than the government return esti-
mates the fall wheat yield per acre at
30 bushels and oats at 60 bushels. The
government return is, therefore, prob-
ably a very conservative one on the
whole.

Further, Bulletin No. 80 gives the
following acreage under crops for
which no estimates are yet attempted
as to yield for 1902:

	1902	1901
Corn for husking	37,150	32,223
Corn for silo	2,208,889	197,932
Buckwheat	10,324	88,298
Potatoes	154,134	154,134
Mangel-wurzel	70,533	61,065
Marrows	8,023	8,023
Turnips	139,725	145,300

The area of cleared land devoted to
pasture is 2,570,967 acres. The area in
red clover for seed is put down at
105,000 acres, this crop is generally
speaking a failure, and in 1902, 54,
135. Rape is grown to the extent of
40,573 acres as compared with 41,093
in 1901. There are 7101 acres in flax,
2237 acres in hops and 2901 acres in
tobacco. The area in ornamental
gardens is 336,251 acres, while vine-
yards take up 14,028 acres. Apples
have an estimated yield of 41,174,552
bushels from 7,024,890 trees of bearing
age. This is three times the yield of
1901.

Taking current market prices the
wheat, barley and oat crops alone would
yield the Ontario farmer, speaking
roughly:

Fall wheat	\$12,000,000
Spring wheat	2,000,000
Barley	8,400,000
Oats	21,000,000

Fifty-five million dollars for the
four of Ontario's large crops is an en-
couraging indication of what the
total agricultural revenue of the pro-
vince will be when the various de-
partments of the industry are included
in the final accounts. The Ontario
twenty-five years ago, Manitoba and
the Territories depend for the most
part on one crop, but Ontario has
learned that it is safer to have several
branches of farming to depend on.
It is with no desire to steal Mani-
toba's laurels that we assert that On-
tario in her mixed farming is as yet
more secure and stable than the
younger province.

LIGHTING THE CITY HALL CLOCK.

Editor World.—Our city fathers seem
to be having trouble in lighting their
expensive clock. Surely the members of
the many costly deputations visiting
Ottawa in recent years must have had
their mouths open instead of their eyes,
or they would have noticed the manner
in which the clock is lighted on the
postoffice and parliament buildings in
that city. It is outside the outside,
not from within.

Senor Pereda in Charge.

Granda Hermanos S. C., cigar manu-
facturers of Montreal, have secured
the services of Manuel Pereda, a well-
known former of Henry Clay, Brock &
Co., Limited, of Havana, the largest
cigar manufacturers in the world. Senor
Pereda, who spent the last two months
of his life in the city of Havana, has
reached Montreal, and assumed his
duties as responsible manager. Re-
siding at the Hotel de Ville, he is
in keeping with the usual expectation
shown by this large Canadian concern.

Residential Property Sold.

The valuable residential property at
the corner of Isabella and Sherbourne streets
has been bought by Lever Bros. Limited,
of the Sun Oil Co., for \$14,000. The
property was sold by the late Mr. W. H.
Waller, who was asked to sell it for
use for other than residential purposes,
said that it was with this view it had
been bought and it was hardly possible
that it would be used otherwise.

HIGHWAYMEN ARE ABOARD

Toronto Detectives Actively Looking
for the Authors of Attempted
Hold-Ups These Nights.

REPORT LAMBE THE LATEST VICTIM

Says He Was Attacked By Three
Men Who Tried to
Rob Him.

Highwaymen are abroad these nights in
Toronto.
Several cases of attempted holdups have
been reported to the police during the past
few days. The city detectives are usually
very alert as a result and are making a
concerted effort to locate the authors of the
crimes. The probabilities are that the
work is being done by outside crooks, who
have slipped into Toronto during the festi-
val and are to slip out and avoid capture.
The last case reported took place on
Wednesday night. Report Lambe says he
was riding on a car at Jarvis and Ontario
streets about 10 o'clock and was waving
to the house where he lives, when he met
three men who were passing on the
other side of the car. They tried to get
into his pockets, but failed, and as he
raised an outcry they fled. This was not
the first case of the kind that has been
reported to the police within the past few
days.

The police are puzzled to know whether
all the cases reported are real or faked.
The Toronto detectives have been advised
by the American police for their work in
handling the "Baltimore" case, as a result
of their operations in Toronto, and the ex-
pectations are that they will be able to
give a reliable report on the matter. The
police are rather sure that the holdups
are the work of the same party, and are
convinced that the holdups are the work
of a single party, and are not the result
of a concerted action on the part of a
number of parties. The police are now
making a careful search of the city for
the authors of the crimes.

Mr. Sifton's reply was very explic-
it: "Any attempt to increase the
tariff is a mistake. The tariff is a
question of the government, and the
government is not in a position to in-
crease the tariff. The tariff is a ques-
tion of the government, and the govern-
ment is not in a position to increase the
tariff. The tariff is a question of the
government, and the government is not in
a position to increase the tariff. The tariff
is a question of the government, and the
government is not in a position to in-
crease the tariff. The tariff is a ques-
tion of the government, and the govern-
ment is not in a position to increase the
tariff. The tariff is a question of the
government, and the government is not in
a position to increase the tariff. The tariff
is a question of the government, and the
government is not in a position to in-
crease the tariff. The tariff is a ques-
tion of the government, and the govern-
ment is not in a position to increase the
tariff. The tariff is a question of the
government, and the government is not in
