GAS CO. REPORT TO BE CONSIDERED BY COMMITTEE TODAY

Auditors Decide That Increase Some of the Men Have Gone of \$120,000 Per Year Is Required.

WHOLE REPORT PUBLIC

The City Officials Recommend That Advance Be Effective Only Six Months.

The special gas committee of the city council will meet today to consider the strike is still in full force. Both sides claim to be getting along quite satisfactorily and there is no indication of any inclination of either to The special gas committee of the city Screaton, on the City Gas Company which was completed last week. Although under procedure rules of the council reports of this nature are not usually made public until presented to the committee this one was given out the committee this one was given out the default. According to the auditors are Richard Hill, A. Steele, A. Johnston, Scott Murray and T. O. Martin, detail. in detail. According to the auditors tin These contractors have taken their a total of \$120,000 in the yearly revenue of the gas company is required which could be furnished by a 40-cent into Detroit, Windsor, Hamilton and could be furnished by a 40-cent inbe only of six months' duration at the most owing to the condition of the oil and coal markets, which are on a state

No provision is made for interest on pital invested or depreciation charges.
While the report will be of general while the report will be of general interest it remains to be seen what benefit the citizens will derive from it through the actions of the special comthrough the actions of the special committee. So far the council has accepted the ruling of the city solicitor that only the Legislature can grant an increase in the price of gas. If this is upheld the committee will be unable do anything, even if it admits that the company needs the increase.

The service charge of 85 cents per

th per customer becomes effective month per customer becomes elective this month. The special committee asked the city auditors to examine the gas company's books in order to have a basis for discussing the matter with the company to see if a more equitable arrangement could be made. Auditors' Report.

The report presented by the auditors was as follows: To the Chairman and Members of the

Special Gas Committee. Gentlemen: Following your instruc-tion "to report on the financial stand-ing of the City Gas Company to deter-mine the amount necessary to keep the company in operation, under present conditions," we beg to report as follows:
We have examined the books, statements and accounts of the company
from the year 1914 to the present time, facility being afforded us in our

The principal reasons for asking for an advance at this time are the condi-tions of the coal and oil markets. The state of the coal market, owing to the strikes of last fall and this to the strikes of last fall and this spring, the shortage in transportation, and the foreign demand, renders it very difficult to determine a settled price. One half of the quantity used has been contracted for, the balance must be secured in the open market.

The advance in price on the amount contracted for is \$1.29 per ton, on that to be purchased at the market price, \$7.92 per ton. These prices are as \$7.93 per ton. These prices are as furnished by the company and as veri-fied by their books and correspondence. eW have made outside confidential inquiries from independent sources and find the situation warrants this in-crease, and even an advance in the quantity not contracted for. The same conditions prevail in the Structure is Now Being Transferred cents per gallon, we find, after the same investigation from reliable, independent sources, to be more than this amount at the present time, with prospects of a further increase.

NAGES ACCOUNT.

The amount roll. oil market, the supply not keeping pace with the demand. The advance,

The amount paid for wages during e year 1920 will be \$15,000 more than the year 1920 will be \$15,000 more than in 1919. Taxes paid in 1920 are \$3,066 more than in 1919. There has been a loss in operation for the months of ders on additions to Victoria April, May and June, of \$5,-These are provided for in our There is an estimated increase in the price of necessary repairs to keep the plant in operation of \$7,000. The renewal of "Benches" operating a number of retorts has been delayed on account of shortage of funds. The costs of renewal of the Three of these must be renewed this year at a cost of \$9,000, but we think year at a cost of \$9,000, but we think the cost should be spread over the life of a bench—four years—and have allowed \$5,250 for this purpose.

A summary of the increase required to keep the company in operation shows from the foregoing advances to keep. from the foregoing advances, to be as

A. SCREATON,

City Auditors.

TIE GAME AT EMBRO. Embro, July 5.-The regular baseball game of the North Oxford League be-

BOTH SIDES ARE STANDING FIRM IN HODCARRIERS' STRIKE

To Windsor and Hamilton.

SEVENTY CENTS AN HOUR

Several Contractors Have Come To an Arrangement With Men.

Contrary to anticipations, no steps towards a settlement of the hodear-riers' walkout materialized today, and weaken. Altogether the strikers' committee crease in the price of gas placing it at \$1.30 per 1,000 cubic feet. The auditors recommend that such an increase should be only of six months' duration at the most owing to the condition of the oil and coal markets, which are on a state strike headquarters.

strike headquarters.

Builders Opposed.

At the meeting of the Builders' Exchange held Saturday evening, the majority of the members were opposed to offering any further concessions to the strikers. The larger contractors claimed to be only every slightly inconvenienced, or affected by the tractors claimed to be only very slightly inconvenienced or affected by the strike. Some of the smaller contractors admitted they were handicapped to a considerable extent, but the big contractors swayed the meeting, and there appears little, if any possibility, of the builders and contractors as a body through the exchange accepting the men's demands. The probability is that more contractors will meet the wage demands of the workers individually, one firm at a time, until the strike gradufirm at a time, until the strike gradually ends by the strikers either securing other employment or gradually returning to work as the smaller firms meet their demands. In the long run, the strikers believe that the big contractor prov. working, with populuion tractors now working with non-unior men, will have to pay increased wages, and a fair average increase will be gained for both union and non-union

Likely to Continue.

It is quite possible that the strike will continue until the end of the week. That will mean two weeks' holidays in all for some of the men, and it is thought practically all will have returned to work at the wages asked, or changed their occupation by the end of the week. Rather than return to work at the old scale of wages, the men are practically unanimous in saying they will turn to other lines of work. Although work is not overly plentiful just how, a hundred or so men can be as slimilated easily enough, and the probability is that there will be few hoders, they work at the Labor Temple, immediately east of the either who will need to return at the old wages. The strike headquarters is now, a hundred or the the bricklayers' assistants. The strikers claim that a man is just as much a hodcarrier if he carries plaster up a ladder or stairway.
