## Important Auction Sale of SIX NEW SOLID **BRICK HOUSES**

A grand opportunity to secure a lovely home or a fine rentable property for investment.

The houses to be sold are Nos. 36, 38, 40, 43, 44, 46 Wolfrey Avenue. This street runs east from the head of Broadview Avenue. The location is magnificent, overlooking Riverdale Park.

The elevation being high, the air is bracing and healthful; as one resident has said, "it's grand here." Near to schools, a minute's walk from cars, 11 minutes to Queen and Yonge Streets.

The houses are newly built and ready for occupation; they have six rooms, all modern conveniences, such as gas and electric lights, three-piece nickel-plated plumbing, clothes closets, summer porches, good pantries, sideboard built in from kitchen to dining room, a great convenience; large verandahs, improved furnaces, divided concrete cellars, side entrances, concrete walks to front. These houses are well and substantially built and located in a fine residential section.

They were built to suit the requirements of the man who desired a first-class home with all improvements at a low price. If you are looking for a home it will pay you to come and examine these houses. If you are investors, this is an opportunity for you, being new houses, no repairs will be required for ten years. Terms easy.

This is an unusual opportunity to purchase first-class property.

DON'T MISS IT.

Bad Weather Prevented Ascent of Mount Robson-Progress of the G.T.P.

Prof. A. P. Coleman, professor of geology in Toronto University, arrived home yesterday from a vacation trip of very great interest, and with a report upon the advance of the new great transcontinental railway line, the Grand Trunk Pacific, of considerable importance.

Prof. Coleman last evening gave The World a graphic account of a re- meadow lands." markable trip into an almost unknown part of the great Rockies. Prof. Coleman left Toronto about

four months ago, going at first to make explorations in northern Ontario, for This the Ontario bureau of mines. work consisted of tracing certain veins of iron ore in the Nepigon region. The results were however of only geological value. These explorations he left. with his associate, Mr. Moore, and party, about the middle of August, and Edmonton, party of four to make an exploration of Mount Robson from the north side. This was the sequel to an expedition
