

# COBALT---Nipissing Stock Again Resumes its Leadership ---COBALT

## Nipissing Leads the Markets In the Forward Movement

Premier Cobalter Advances Quickly and Has a Good Influence on Other Stocks.

World Office,  
Tuesday Evening, Nov. 3.

The market for Cobalts experienced further expansion to-day and nearly every issue on the floor advanced.

With the steady advance in prices came a perfect deluge of orders, that in some cases overwhelmed the brokers, who oftentimes were at a loss to know just where to secure holdings for a turnover.

While a great amount of sales were transacted, it was noticeable that offerings were sometimes scarce, owing to the general impression that the gradual rise will continue and bigger profits be realized later on.

It is believed that the gains are only commencing in view of the fact that the New York curb is preparing for a rush after the election turmoil settles down.

Perhaps the most sensational advance to-day was made by Nipissing, which made a gain of over \$2 a share. At \$12 over 230 shares were dealt in on the Toronto Exchange.

Among the lower priced stocks Rochester jumped 9 points to 43. Beaver was called for at the opening and advanced 6 points to 57.

La Crown Reserve was strong at further advance and good buying of Coniagas brought a good rally in these shares.

Silver Leaf went up to 20 1/2 and Nova Scotia to 80.

Little Nipissing sold to-day for 67, with an average of 65. A pool is reported to have been formed to advance the price further.

Ottise was one of the features of the afternoon and sold up to 58 and 59 and at 60 cents off the floor.

Chambers-Ferland remained firm throughout the sessions and the report that the control had been obtained by English capitalists rather served to strengthen its position. Amalgamated was in good demand all day and big orders are still in hands of brokers for the shares. A sharp rise in Watts was due to small offerings of these shares. Only a small amount of business came from the States to-day owing to the elections, but it had no appreciable effect on the volume of business done.

## FOR IMMEDIATE PURCHASE BUY CROWN JEWEL MINES, LIMITED

50 CENTS PER SHARE, PAR VALUE \$1.00

This will be a second Crown Reserve. We advised our clients to buy Crown Reserve when it was selling at 20c. Now it is selling at \$2.60, and will go much higher.

**THE CROWN JEWEL MINES, LIMITED**, have a group of properties situated in the Montreal River and Nett Lake district, comprising, in all, 150 acres. The Montreal River silver district is to-day what Cobalt was three years ago, and, from indications, bids well to prove more valuable.

There is only a small block of this stock for sale at 50c. This should all be sold this week, and I advise my clients and friends to wire or phone their orders without delay. Orders will be filled as received.
