Official Announcement by Sir George Foster in House of Commons.

### STANDARD TIME STAYS

Ottawa, April 9.—(By Canadian Press.)-Two important announcements by the government featured what was otherwise a dull day in the house of commons. The first of these was the statement by Acting Premier Sir George Foster, shortly after the opening at 3 o'clock, that the government had not changed its mind in regard to the granting of a cash bonus to returned soldiers, and that it did not consider it a wise measure of reestablishment to place a lump sum of money in the hands of each returned

The second announcement, also from The second announcement, also from the acting premier, in answer to a question by Mr. J. E. Armstrong (Lambton) was to the effect that the government had no daylight saving bill under contemplation at the present time. Daylight saving, Sir George said, was entirely a matter for the towns and villages which wished to

In announcing the policy with reard to the cash gratuity, Sir George stated that the opinion of the govern-ment had been fairly expressed at the last session of parliament after a long and careful examination into the whole subject of readjustment, reconstitution and relief by a committee of the house. At that time it was intimated that the government was not in favor of a cash bonus or gratuity. Since then additional consideration had been given to the matter, and the govern-ment had decided that it could not change its mind with reference to the principle of a cash gratuity.

try, said Sir George, as well as other considerations, would not justify the government in acceding to a request for a gratuity. The indeterminate amount, running anywhere from four hundred million to a billion dollars, formed the most essential factor in the government's conclusion, and the government was not of the opi and never has been, that the best way to re-establish the soldier was by put-ting a sum of money in his hands, over which there would be no government supervision.

Sir George stated that the pensions committee established this session would take the question of re-establishment into consideration, and that the government would, as in the past, have the benefit of its advice and

To Continue Re-establishment.
The methods of re-establishment now in force, such as land settlement and vocational training, had the support of the government and would be continued.

Sir George first referred to the rep-esentations in favor of a tash bonus, made by delegates from the G.W.V.A., and later by the seven soldier organizations, whose delegates saw the cab-inet last Monday. Both of the delegations, Sir George said, contemplated the payment of the cash bonus or gratuity to all returned soldiers. Altho ount of honus requested and the basis upon which the amounts were reached, yet they were both inherently the same in the fact that they asked for a cash gratuity to be paid to the

Forms of Relief in Force.

Since the armistice and demobilization. Continued Sir George, the government has not been remiss in giving its most careful consideration to the re-establishment of the soldier. The result of this consideration had been certain conclusions the government had not hesitated to put into forms of relief. It proposed to continue Going this. In the past the government had been given the benefit of advice from a pensions committee of the whole house. This committee had agrain been appointed during the present session end to it had been assigned the task of taking up the methods which had already been adopted for relieving the soldier and suggesting what amendangents were necessary to these. In so far as the relief of wounded or incompactiated soldiers, or of their dependents was concerned, the government would go its utmost to aid them.

### Furnishings of Charm in our Model Suite

There is a growing interest on the part of the general public on the subject of better homes and a keener appreciation of good home furnishings. This is manifested every day by the numbers that come to see the handsomely furnished suite of rooms on the fourth floor.

flouring flowers of the fourth floor.

Here a discriminating sense of selection has brought together a delightful living-room in chintz with furniture of walnut and cane, a handsome dining-room in blue with Italian renaissance furniture, and a bedroom in mulberry colorings, and a "Queen Anne" motif suite, all producing a distinctive harmonious unity.

Mulberry and white striped paper with pink and recenery, yellow roses cover the walls of the bedroom, while the traperies and chair covers are of not berry repp, with applique of braid. Curtains of fine marquisette drape the windows. Most artistic are the lighting fixtures. The centre light in brass finish has the spindle effect, hung with silk rope and tassels. There is a lasting charm about a "Queen Anne" bedroom suite in satin-finished walnut. It is always pleasing, for the workmanship, material and design are of the type that endures. The bed has rounded head and very low foot board, the handsome dresser has a curved wall mirror suspended by heavy silk cords. The dressing table has a single mirror delicately carved, and the bench is cushioned in mulberry repp as is the straight chair. Quite unusual is the arrangement of shelves and drawers of the chiffonier. It is specially designed for a man's use. This, with the deinty night table comprise the suite. A filet lace 'bedspread completes an altogether lovely room.

Sir George stated that the government Iroposed to continue its present forms of relief under the soldiers' land settlement bill and the department of settlement bill and the department of system of vocational training. For this, the government had the greatest sympathy. He did not know that it was necessary to say anything further on the matter. The question was such an important one that it seemed impossible of dispose of it at a single session of

Marking of Ballots.

W. F. Cockshutt (Brantford), on a subsequent clause, raised the point of bailot papers being marked with a black lead pencil. The clause refers specifically to the provision in polling booths of "suitable black lead pencils which shall be kept properly sharpened thruout the hours of polling." In these days of fountain pens, Mr. Cockshutt continued, it was not unusual for a voter to mark his ballot in ink. Yet, there were cases when such ballots had been rejected. Was a voter, Mr. Cockshutt asked, to be disfranchised because he used a fountain pen, or a blue pencil.

Mr. Guthrie agreed that there was shething in the objection, and on his suggestion the clause stood over for further consideration.
