### BRITISH ASSOCIATION

London, Aug. 28.—The British Association has adjourned after a season of unwonted activity. There were two important discussions. One of these debates was in the zoological section, where Professor Karl Pearson made a fierce onslaught upon Mendel's "Laws of Heredity," and Professor Bateman vigorously reaffirmed the current views in regard to natural selection. The other was the discussion regarding the radio-activity of matter, in which there was a substantial agreement that radium does not derive energy from outside sources. The most practical subject debated was that of the cotton growing resources of the empire. The next year's meetings at Cape Town, with George Darwin as president, will open the way for a journey to Australia in the course of a few years.

# CURE MEN!

NO PAY TILL CURED.

This is for the man who has spent hundreds of dollars trying to remove the burden that is taking all the pleasure out of his life—the weakening drain upon his vitality which is destroying his strength. I can cure you, and if you will secure me for my money when you are well you need not pay a cent till cured. I don't want money that I don't earn. I don't need it, and I am not after it. But I am after the dollars that are now

going wrong in the quest of health. Look at all these poor wrecks of humanity that are spending all they earn on drugs—dope that is paralyzing their vital organs—that have spent all they have earned for years without gaining a pound of strength for the hundreds of dollars wasted.

That is the money I am after, because for every dollar I take I can give a thousand per cent. interest, and I don't want it at all until I have cured you if you will secure me. I have cured so many cases right here that I can prove my claims to you.

Just lately I have received letters of praise from these men:—

"It is beyond my expectation; back is much stronger; no fagged out feeling, no pain in the scrotum or back, and sleep perfect."—E. C. HANSEL, Bridgedburg, Ont.

"My varicoccle has greatly diminished, which is a source of great staffaction to me, and otherwise I feel better too."—CHARLES NEWLOVE, Bracebridge, Ont. "It is thirty days since I began using your Belt, and it has cured my troubles."—MRS. ROBERT MOFFAT, Blackheath, Ont.

Wherever you are, I think I can give you the name of a man in your town that I have cured. Just send me your address and let me try. This is my twenty-fourth year in the business of pumping new vim into wornout humanity, and I've got cures in nearly every town on the map. Come and see me if you can and I'll fix you up and you can pay me afterwards, or, if you can't call, write to me and I'll do the same. I've got a nice book on men that I'll sen! sealed, free.
