FERDINAND'S TRIUMPHAL ENTRY INTO HIS CAPITAL

His Cabinet Would Rather go to War Than Have Bulgaria's Independence Questioned—There are no Less Than 110,000 Men Under Arms—Great Enthusiasm.

Sofia, Oct. 12.—The "Czar of Bulgaria" made his triumphal entry into the capital this afternoon and was given a demonstrative reception by all classes of the population. Prince Ferdinand entered the city on horseback, accompanied by a brilliant staff, amid salutes from artillery.

INTERRUPTED ELOPEMENT

John Montague's Dream of Bliss Shattered by His Wife's Arrival on the Scene.

An unexpected development to the elopement occurred in the depot at the arrival of the Halifax express at half past five last evening. John Montague, approximately forty years of age, accompanied by his wife and family, leaving his home on the line of the New Brunswick Coal and Railway on Saturday and eloping with a woman, who was residing at North with a family. The duo have been in the city since Saturday and after purchasing tickets for Boston and with an impatient desire to be able to conceal the departure of the train that would convey them to a possible haven of refuge.

TWO BROTHERS FIGURE IN DISGRACEFUL STREET FIGHT

Five prisoners comprised the docket at the police court this morning, and of this quintette, two were brothers who reversed the usual order of affairs by engaging in a fist encounter. William White, aged 28, a former local baseballist of some note, was charged with fighting on Rockland Road, and was resisting the police, which appears to be a bid with him, and with intention. Terrence White, aged 25, contradicted the charge of fighting only. A plea of not guilty was entered to every allegation. Policeman Smith, of the North End division, testified that shortly after midnight, as he was patrolling Rockland Road, he heard a terrific uproar in the dwelling occupied by the White family, and presently Terrence White issued from the house in negligé attire, followed by William White. On the street Terrence squared off and immediately both brothers clinched and pummelled each other viciously. Eventually while entangled in a true brotherly manner the belligerents fell to the ground and rolled over to the right, until the witness and Special Officer William McCauley, who resided in the neighborhood separated them and arrested William, who was evidently the aggressor. On the way to the North End police station, which fortunately was in close proximity, the prisoner resisted continually and lacerated the witness on the chest and other parts of the body until finally lodged in a cell. Some time afterwards the officer returned to the scene of the fray and encountered Terrence on the street wearing vengeance on his brother and also the police and for fifteen minutes he had been smug and for neighbors with an exhibition of

MAYES AFFIDAVIT LED ABOUT THE RATE OF THAT NOTE FOR TWO THOUSAND

It was Dated 1905 and not 1907, and was a Payment for Professional Services—Long Before Dr. Pugsley Entered Parliament. Baxter's Telegram Shows That Two Weeks ago They Were Still Trying to Force Pugsley to Buy the Dredge.

STATEMENT BY HON. DR. PUGSLEY

"The statement contained in the Standard this morning in which they purport to give a copy of the affidavit of Mr. Mayes that he in October 1907 gave me a note for \$2,000 would, if true, damn me forever as a public man and it would be my duty as a public man to resign my seat in the government. "The statement is intended solely to destroy my reputation. "The note to which he refers was given in 1905 and was made two years before I became a member of parliament and of the government, and I was acting as Mr. Mayes' counsel and advisor. "I can only hope that every fair minded citizen of Canada will recognize the dastardly attempts of Premier Hazen and the members of the Conservative party to use any means, no matter how unfair or dishonorable, to destroy me politically."

MR. TEED'S LETTER

St. John, N. B., Oct. 9th, 1908. Hon. William Pugsley, St. John, N. B. Dear Sir—I have been instructed by Mr. S. Mayes, Esq., to write you respecting an amount of \$2,000.00 paid by him to or for you as he claims, without any consideration whatever, the same having been in the form of a note made by him in your favor in October, 1905, and paid by him at the bank in February following. I am instructed on his behalf to ask the return of these moneys and to say that in case of failure to do so, proceedings will be taken in the Courts for the recovery of the same. Please favor me with an immediate reply. Yours truly, (Sgd.) M. G. TEED.

BAXTER'S TELEGRAM

St. John, N. B., Sept. 29th, 1908. Hon. William Pugsley, Minister of Public Works, Ottawa. Client impatient at not receiving word from you in respect of your purchase and payment for dredge. Industry by Order-in-Council, as sufficient precedent for buying the dredge with complete equipment ready for instant work at smaller price. Points out that the fund for the purchase is not exhausted and arrangement could be made similar British Columbia purchase. Advise act immediately and give definite as client insists on prompt decision.

DR. PUGSLEY'S REPLY

St. John, N. B., Oct. 7, 1908. Dear Sir—I am in receipt of your telegram of the 30th ult., in regard to dredge "Beaver," which was recently examined by me. I regret to say that his estimate of the value of the spars is very much less than the estimate given by Mr. Mayes, and upon his report it would be impossible for me to recommend the purchase of the dredge at the price Mr. Mayes puts upon it. Yours truly, (Sgd.) WILLIAM PUGSLEY. J. B. M. Baxter, Esq., Barrister, Etc., St. John, N. B.

PREDICT LIBERAL SUCCESS IN ONTARIO AND NOVA SCOTIA

H. J. Logan, who is to be one of the speakers at the big Liberal rally at the Opera House tonight, came in from Ontario on today's Montreal train. Of the Liberal prospects in Ontario, Mr. Logan will make great gains there he says. Not in 20 years has the party been in such fighting shape. They are particularly strong in having strong candidates in every riding. The tour of Sir Wilfrid and Hon. W. S. Fielding has been highly successful and will bear great fruit. Then Hon. G. P. Graham is meeting with magnificent receptions on all hands. All in all the Liberals will come out of Ontario with flying colors. With reference to the situation in his own province, Mr. Logan says that it looks like a solid eighteen. In his own county of Cumberland, J. Laxton Ralston will be confidently predicted, defeat Rhodes his Conservative opponent. He pointed to the fact that at the last Dominion election he had come out of Cumberland with a 700 majority, and could see no reason why Ralston should not have an equally large majority. In Hon. Mr. Fielding's riding, Queens-Shelburne, Mr. Logan says that the Finance minister will win, according to latest figures from 400 to 700 majority. In Cape Breton (South) great efforts are being centred for the defeat of Alex. Johnston, but the latter will win out with a substantial majority. In Halifax R. L. Borden will surely go down to defeat, and it now looks as if he will be thrown at Crosby. In the famed Colchester, Hill looks like a sure winner over John Stanfield. The Bayne affair will lose the Conservative candidate a lot of votes. Senator F. E. Frost, of Smith's Falls, Ontario, was a passenger to the city on today's Montreal train. The Liberal party in Ontario are making wonderful headway, "and," said the senator, "we look to split even." Foster, he further asserted, was having the light of his life in North Toronto.

EXCITEMENT OVER BASE BALL INCREASES LIST OF DEATHS

Astonishing Result of the Sporting Madness of the People—Today's Great Game in Detroit Has Fine Weather—A Growl About the Ticket Speculators.

New York, Oct. 13.—Deaths from heart disease increased last week, due to the health department physicians say, to the acute baseball situation. Last week the deaths were 154, as compared with 129 for the corresponding week in 1907. In Manhattan the deaths were 70, as compared with 58, showing in the opinion of physicians that the interest in the game had spread throughout the city, whereas for the week of Oct. 3, before a final decision regarding the disputed game with Chicago had been made and when hope of ultimate victory was still high, the deaths were 111 as compared with 123 a year ago. Detroit, Oct. 13.—The champion baseball team of major leagues returned here from Chicago today and found the local "fans" hugging to their hearts the possibility of a Detroit victory this afternoon which would make the world's championship series a tie, with two games apiece. While Chicago players and rooters found plenty of comfort in the memory of their team's triumph over Detroit last year and its advantage of two victories to one in the series, the local enthusiasts gleefully contemplated yesterday's score and declared that Cobb, Crawford and Rossman had only just found their world's series stride. Contagious with last Saturday's feverish expectancy, when the series opened, conditions are fairly normal today. With ideal baseball weather predicted "clear and sunny" with the Detroit ticket speculation practically eliminated by their heavy losses on the opening day and a fair prospect of desirable seats to meet all demands and with the two clubs having taken the pressure of each other's strength in these hard battles to date, early indications suggested the absence of hysteria in the presentation of a thrilling contest. Summers and Brown will probably be the opposing pitchers today with Donovan

BALLOON TEST IN THE NORTH SEA

Berlin, Oct. 13.—A wireless message received today from Aurore, the conductor of the St. Louis balloon in the Gordon-Bennett case, says: "Lost everything in the North Sea last night." Another despatch received here says that the St. Louis sank in the North Sea and that its occupants were rescued by a schooner.

NO TRACE OF OVERDUE SCHR. EARL OF ABERDEEN

Norfolk, Va., Oct. 12.—The wrecking steamer Rescue returned to port Monday after an unsuccessful search for the disabled three masted British schooner, Earl of Aberdeen, Captain Pubboover, which is helpless somewhere off the Carolina coast with her rudder gone. The Aberdeen is 14 days out from Turin's island with salt provisions, R. I. The Rescue will probably return to sea to resume her search.

MONTREAL STOCKS

Montreal, Que., Oct. 13.—(Special)—The stock market generally dull this morning. Richieu and Mexica had good advances. Richieu rose from 73 1/4 to 75, and Mexican from 74 1/4 to 76. Montreal Power was steady at 100, and Dom. Steel was exchanged at 10 1/2.

THE ISLAND OF NASSAU SWEEP BY A HURRICANE

Nassau, Oct. 7.—Another hurricane, the second in the last twenty-eight days swept over this island on October 1 and the wind, which blew from the southeast and south with a force of eighty miles or more an hour, was accompanied with torrential rains. The whole island is still practically under water, over seven inches having fallen in the two days after the storm. The damage done to house property was slight, only some small houses and outbuildings being destroyed, this immensity being due to the fact that the storm was of short duration. The loss to shipping, however, was very severe, several large schooners having been blown to sea where they foundered. It would appear that the storm of which Nassau had several days warning from Washington came up from the neighborhood of Porto Rico and split into two separate storms or that another hurricane developed at the same time in these waters for the steamer Seneca passed through the centre of the storm some fifteen miles northwest of Nassau on October 1, and at the same time the Island of Eleuthera, lying to the east and northeast of Nassau was devastated. Several of the islands which were devastated by the storm of September 11 and 14, were struck and there now are only the islands of Andros to the northeast and the Grand Bahama to the northwest out of the whole group that have not suffered damage. The destruction of trees and gardens here is very great many of the finest gardens in the place being practically destroyed. The magnificent gardens of the Colonial Hotel which have been the admiration of so many American visitors are badly wrecked as are also the grounds of the governor's residence. The orange and grape-fruit crops of the islands are very nearly totally destroyed and the seed crop, on which so many persons depend for a living is so badly injured that it will be a year at least before anything can be got from the plantations. These two hurricanes following so close on each other have done damage of an unprecedented nature and there is likely to be hard times in the colony for some time to come. The local government will have to feed a very large number of persons for several months.

NEWS FROM FREDERICTON

Fredericton, Oct. 3 (Special).—Emack Bros., taxidermists, have already received upwards of fifty mooseheads, a majority of which have been secured by non-resident sportsmen. Surveyor Grammer does not think that the receipts from the sale of game licenses will be as great as last year. At a meeting of the hospital trustees yesterday, a letter was received from the Bureau Club, of Kinardine, enclosing the sum of \$41 as a donation to the institution. Dr. McLean has been appointed secretary of the hospital medical staff in succession to Dr. Weaver, and Dr. G. J. McNally has been added to the trustees board.

THIS CANADIAN WAS MURDERED

Chicago, Oct. 13.—The body of a young man, apparently murdered and thrown into the drainage canal, was found floating at Lemont, Ill., yesterday by the police. A Chicago bank deposit book and a memorandum book, both bearing the name of Cornelius Brussaard, Trenton, Canada, were found in the pockets. The man was apparently 22 years of age. A fracture of the skull evidently caused death. The body apparently had been in the water a week, and the police believe the man was murdered in Chicago and the body floated down the canal.

A LIBERAL CANDIDATE

Prescott, Ont., Oct. 13 (Special).—The Liberals of Dundas county at convention at Winchester Springs have elected W. B. Wainwright, of Chateaufort.

Will St. John Endorse a Party that Receives the Slanderer and Blackmailer with Open Arms?
