From 800 to 1,000 Expected—There are Special Features This Year.

Between 800 and 1,000 are expected to be present at the fifth annual Armistice Ball in the Armory under the auspices of the Garrison Sergeants Mess on next Monday night, according to Major A. G. One of the features of the dance programme will be two moonlight waltzes, the electricians having arranged a surprise for the dancers in these numbers.

Supper will be served in the shooting gallery and during the supper hour, the orchestra extras will be played by prominent members of the mess. These arrangements are in the hands of Captain H. A. Campbell, while Major G. G. Anglin, M. C. is chairman of the music and dance committee. The music will be furnished by an orchestra under the direction of Sgt. W. H. Jones. Major F. J. Nisbet is handling the ticket sale and reported this morning quite a heavy demand. Tickets have been placed on sale at various points throughout the city. Arrangements also have been completed for street cars to take the patrons home in the early hours of Tuesday morning.

Benjamin Logan Sentenced in Auto Case Following Smash-up.

Seven days in jail was a sentence meted out to Benjamin Logan of Loch Lomond road by Magistrate Henderson in the police court this morning when he appeared before him charged with operating an automobile in Thorne avenue last night while under the influence of liquor. The defendant pleaded guilty. He was represented by Paul C. Quinn. The arrest was made by Policeman Bettle as a result of an accident, which happened in Thorne avenue. APPLY FOR SUITES IN BEATTY HOTEL

Early Indication of Business—Work on Another Story Begins.

With the outer structure of the Admiral Beatty Hotel hardly completed yet comes the announcement that already suites of rooms have been engaged for occupation when the hotel opens. This will be read with interest by citizens, hundreds of whom watch daily the rapid progress that is being made on the building. This afternoon, the contractors expect to finish the fifth story, and have started on the next. Progress has been marked due largely to warm weather. The weather of recent weeks has been all that could be desired. The aim of the contractors is to complete the roof by Christmas and this seems well within reach of accomplishment now.

The laying of ornamental stone has reached the second floor—while brick-laying on the south side, is up to the fifth floor and has been completed for the power house. The three boilers are now being set, while plumbers are at work fixing the pipes.

GOOD MARKET FOR THANKSGIVING

Turkey Sold at 45 Cents—Easy to Pick Out Dinner.

The market was well supplied with everything that goes to make for a real "old fashioned" Thanksgiving dinner the housewife had a good variety to choose from in picking out the ingredients for the feast. Turkeys were on sale in large quantities and the quality of the birds offered was good. The price was low, comparable with the last few years, the price for the best stock being 45 cents a pound. Chickens were quoted at 35 to 40 cents a pound, fowl at 25 to 30 cents per pound and duck at 35 cents. The shelves were piled high with squash, pumpkin, beets and cranberries for the pies and jelly which accompany the dinner on this festive occasion.

As Hiram Sees It

"Well," said Mr. Hiram Hornbeam to The Times reporter, "I see you folks has been givin' away your birthright agin'—'I dunno' just get you," said the reporter. "Been handin' your harbor over to them steamship fellers—'haist you?' said Hiram. "Is that your view?" asked the reporter. "I can't say it's mine," said Hiram. "But I hear some folks talkin' that way." "What do you think about it yourself?" asked the reporter. "Well," said Hiram, "I figger it out about this way—if the ships don't come you lose both the revenue and the wages for the 'longshore fellers' and you still hev to keep up your harbor. If you lose some of the revenue but git the ships you hev the wages and the money the ships spend to help out. That looks to me like hoss-sense. I callate the farmers that takes sixty or seventy cents a bushel for potatoes has more sense than if they let 'em rot in the sular—yes, sir."
