WANT MORE SPRUCE TO MAKE AIRPLANES

(American Lumberman). There is a decided willingness to buy spruce in the east, but as stocks that are offered are small, broken and varied in nature the total volume of business transacted is less than the demand would bring about under normal conditions. Eastern producers are scheduled for a conference with the government this week to try to arrange for the greater use of eastern spruce in airplane construction. As the government wants every stick of suitable spruce that it is possible to obtain there is every reason to believe that orders will be placed in the east. On the Pacific coast the government promptly helped the spruce producers out in getting a plentiful supply of labor, and perhaps this policy will be followed in the east. Should this be done the production of side lumber would be greatly increased, but the market is simply to absorb any amount that can be cut. On the Pacific coast the aircraft spruce specifications have once more been revised and the prices to be paid increased. A blanket order has been placed at the following prices: "A" wing beam stock, \$175; "B" long clear, 880; "C" short and thin clear, \$48. The government is also instructing the spruce sawyers in the method followed by hardwood producers in sawing for straight grained stock. It is claimed that this will materially increase the production of airplane material, although the daily cut will be less. As this will result in less side lumber the mills will welcome the change, as far as that is concerned.

AMERICAN CITIZENS TRIBUTE TO THE BRITISH NAVY.

The Hon. Charles Mayer and his son, Major F. R. Mayer, of 129 Broadway, New York, have forwarded to the Navy League a contribution of 1,000 guineas as a tribute of admiration to the devotion and chivalry of the officers and men of the British fleet during the war.

Two German prisoners of war escaped from Loddington Pith Camp, England.

During the British advantage on Jericho an enemy shell struck an ancient tomb and revealed a skeleton. Investigation by the official archeologists connected with the British staff pointed to the skeleton being that of an historical figure, John of Antioch. Accordingly, a cable was despatched to the war office in London: "Have discovered skeleton supposed to be that of John of Antioch. The war office replied: "Cannot
