Sales—Eleven o'clock, 174,000.

Marked changes are prescribed for men's clothing. Stock socks will be short, with a minimum of thirty inches for thirty-six sizes, and one and a half inches added for "longs." Double-breasted overcoats will be eliminated, and the length of top coats will be thirty-six and two inches to be added for "longs." Only three outside pockets will be allowed in sack coats and facings will not exceed 5/8 inches. Side and back straps and flaps of trousers are to be eliminated, and no reinforcement of trousers can be made with wool cloth. Not more than ten models of sack suits are to be produced.

The maximum length of rain coats is to be forty-eight inches, while the maximum width of collars will be 3 1/2 inches. All double coats with detachable linings for civilian use are to be eliminated.

QUETTER IN IRELAND

No Attempt to Apply Conscription Until Fall and Then Only if Enlistment Fails

Dublin, June 16.—(By The Associated Press)—At present there is somewhat of a lull in the political situation in Ireland. The situation is somewhat quiet in the face of the government proclamation calling for voluntary recruits and no attempt to apply the draft is expected before October and then only in the event of conspicuous failure to obtain the necessary number by enlistment.

The suppression of illegal drilling proceeds daily and it is greatly helped by the government's warning that if the drilling continues the counties affected will be declared "special military areas."

Some Irish people have been quick to realize that an extension of such areas would greatly facilitate the application of conscription to civilians everywhere, and being given to young men to avoid assembling themselves in military formations.

A curious feature of the prosecutions is the number of instances which reveal that the conscription is being applied to men who are not yet of age.

The immediate purpose of the government is to make a success of the recruiting campaign. They are handling it over entirely to civilian hands from all the political parties.

Pro-ally propaganda, hitherto entirely neglected in Ireland, will be undertaken and an attempt will be made by suitable literature to explain to the Irish people the real issues of the war.

The Morning Telegraph, a Russellite publication, is in London, which has been generally circulated in St. John and vicinity throughout Canada, has been sent to the North German Lloyd and Hamburg-American lines and other properties which are not now actually in the possession of the alien property custodian. He said the properties which either have been or will be taken over for the period of the war include many large chemical and medical plants which were controlled by German interests.

He said German commercial penetration, part of the country's policy of world domination, had gone further in the United States at the outbreak of the war than any one had suspected, and that the great amount of property being seized will be a factor in the peace settlement following the war.

"Germany's economic and industrial aggression has been as ruthless as her warfare on land and sea," he said. "We have found that entire industries in this country have been dominated by German interests in thorough accordance with the German policy of world domination. Through economic penetration they were establishing outposts for German aggression. They were important aids and supplements to the German policy of military might on land and naval might."

Local News

Rev. Mr. Bodman of Lubec, who is spending a few days in the city, occupied the pulpit in the Portland street Methodist church yesterday.

Mr. and Mrs. H. G. Marr and son, Robert, have returned from an extended visit to the Pacific coast.

Rev. W. A. Snelling, pastor of St. Martin's Baptist church for the last eight years, resigned his charge at a recent meeting of the congregation.

STRAWBERRIES

FAST RIPENING

Some Native Berries Already Picked—Potatoes Budded and Peas in Bloom—Improving the Roads

(Toronto Globe.)

In a letter addressed to the prime minister, Sir William Hearst, by Senator Robertson, chairman of the registration board, the suggestion was made that steps should be taken by the provincial authorities to secure information from the registration cards which could be made use of at once, particularly in relation to the securing of experienced farm help for the harvest season.

To this letter a cordial answer of sympathy with the project was made by the prime minister, and the matter was handed over to the organization of resources committee to work out the details. The committee is now in a position to state that, having communicated with the five provinces, it has received answers from most of these gentlemen assuring the committee of their willingness to sort over the cards and to have copies made of such cards as may be of immediate use.

The committee has prepared a card containing those questions which will be of interest, especially for the procuring of farm labor, and it is hoped that by July 1 a full list of those who have had farm experience, but who now reside in urban centres, may be available. This should enable the committee to place at the disposal of farmers for the harvest season the very best class of labor possible.

RECORD SHIPBUILDING IN MAY

A new high-water mark in ship construction was reached in May, when forty-four ships fully equipped aggregating 283,571 dead-weight tons were delivered to the Shipping Board.

These ships, forty-three of which were steel, thirty-nine being requisitioned and one contract vessel, and one was a contract wooden ship. Comparative figures given by the Shipping Board for preceding months of the current calendar year indicate that the deliveries aggregated 88,507 dead-weight tons in January, 123,025 in February, 172,611 in March and 162,293 in April. According to these figures, as will be seen, the greatest amount of tonnage delivered was in March, whose total, however, was exceeded in May by 90,960 tons. The May figures bring the total production for up and away with the year to 808,600 tons, while including those figures the aggregate output for the nine at the Landing, and some visitors enjoy the spring and early summer, while the May total, by way, shows an advance of 85,741 tons over that for April. Canada added to be producing about one-third of the British merchant tonnage.

MORNING NEWS

OVER THE WIRES

The members of the Irish Nationalist party have decided to return to parliament next week.

Jeremiah A. O'Leary, indicted for violating the espionage act and who has been a fugitive from justice, has been arrested at Sara, Washington, and is being brought back to New York to stand trial.

Hon. Dr. Reid and Hon. F. B. Carvell returned from P. R. Island on Saturday and, accompanied by a party of C. G. R. officials, left on Sunday for a trip of inspection over the Transcontinental line.

Sidney St. C. Jones of Weymouth, N. S., was seen by cable of the late afternoon at an African port of the large schooner recently launched across the fishing from a trip of eighty-seven days from St. John.

The bodies of Daniel Irwin and Samuel MacFarlane, who were drowned while fishing from a canoe in Chamecock Lake, Charlotte county, on May 1, were recovered yesterday and buried in St. Andrews. Both men are survived by families.

Twenty-one cases of typhoid have been developed among persons who ate cream served in a store in Penobscot on May 1. Six or eight of the patients are critically ill. Among those affected are the two young sons of H. V. McFarlane, who were in the school at Penobscot. The school has been closed and the St. John board of health has prohibited the importation of milk from the affected district.

There is an effective remedy for all these defects.

Burdock Blood Bitters. This remedy will drive out all the impurities from the blood and leave the complexion clear and bright.

Mrs. Katherine Henry, Post Sydney, Ont., writes: "Two years ago my face was so covered with pimples I was ashamed to go out at all. I tried several remedies, but they were of no use. At last a friend advised me to try Burdock Blood Bitters. I got a bottle, and by the time it was used I could see a difference. I then got two more, and when I had used them the pimples were completely gone. I can highly recommend Burdock Blood Bitters."

Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

MAKE IMMEDIATE USE

OF REGISTRATION CARDS

First Need Will be That of Farm Labor For Harvest

(Toronto Globe.)

In a letter addressed to the prime minister, Sir William Hearst, by Senator Robertson, chairman of the registration board, the suggestion was made that steps should be taken by the provincial authorities to secure information from the registration cards which could be made use of at once, particularly in relation to the securing of experienced farm help for the harvest season.
