ROYAL

The Standard for Baking Powders the World Over is an Absolutely Pure, Cream of Tartar Baking Powder

CREAM OF TARTAR is the crystallized acid of grapes refined to absolute purity and ground to a creamy flour. It is declared by physicians the most wholesome of all fruit acids, and has been proved by long and universal experience the most efficient and satisfactory for baking purposes.

Highly refined products of the grape, properly combined with bicarbonate of soda and a little corn starch to absorb atmospheric moisture, are the sole ingredients of the ideal, high-class, standard baking powder.

Many acids have been tried during the last hundred years to find a substitute for the grape cream of tartar which would cost less. In recent years alum, which makes a baking powder at a cost of two cents a pound, has been used because of its trifling cost.

Cream of tartar powders being healthful themselves, add to the healthfulness of the food.
