ARRESTED AT HEADQUARTERS

Sydney Action Follows on McLachlan Letter

He and Livingstone Taken From Crowded Hall on Order of N. S. Attorney General—Ottawa T. & L. President Criticizes McLachlan.

(Canadian Press) Sydney, C. B., July 7.—Dan Livingstone, president and James B. McLachlan, secretary of the United Mine Workers of America, were arrested at strike headquarters in Glace Bay last night following instructions received by Chief of Police J. B. McCormack from Hon. W. J. O'Hearn, Attorney General of Nova Scotia.

Section 136 of the Criminal Code of Canada says: "Everyone is guilty of an indictable offence and liable to one year's imprisonment who wilfully and knowingly publishes any false news or information which is likely to be received as true and which is likely to be, or is, or is likely to be, occasioned to any public interest."

The arrests were effected by Chief of Police Joseph B. McCormack, assisted by his deputy, Prescott Anthony, assisted by Commissioner of Provincial Police Eric McDonald, in United Mine workers headquarters crowded to overflowing at half past ten o'clock last night. As the chief entered the hall, Dan Livingstone advanced to meet him, holding out his hand. They shook hands and Livingstone and McLachlan were invited into the outer hall, where the Attorney-General's telegram was read and the arrests effected and the satisfactory arrangements made.

Both the U. M. W. officials were immediately taken back at the dramatic moment when they were nearly reprieved that they be allowed to return to their office in order to prepare for their departure. This was granted and without demur in any kind the U. M. W. officials accompanied by the police officers filed through the hushed throng of striking coal miners assembled in the outer office. Soon after they left the building and, after being accompanied to their homes, where they were permitted to pack their belongings, they were transferred to waiting automobiles and driven to the Sydney jail.

After arriving in Sydney the prisoners were given a supper at a local restaurant and afforded an opportunity of consulting with their solicitor, Gordon S. Harrington.

No. 18 May Strike

Sydney, N. S., July 7.—District 18 of the United Mine Workers of America is preparing to stage a sympathetic strike in the interests of the steel workers of Sydney and the miners of District 26, so it was announced at the United Mine Workers headquarters at Glace Bay last night. An exchange of telegrams has taken place between Dan Livingstone, president of District 26, and W. A. Sherman, president of District 18, and the latter is said to have forwarded information to Glace Bay to the effect that in the Crown's Next Pass sub-district, the miners are prepared to go on strike on Monday, as a protest against the sending out of troops to the Cape Breton strike area.

Princess Louisa, Sydney Mines, met last night and appointed a committee to confer with the other Scotia local with a view to affecting an immediate settlement.

LABOR LEADER CRITICIZES McLACHLAN

Ottawa, Ont., July 7.—The Ottawa trades and labor council at a meeting last night passed a motion to be forwarded to the trades and labor congress requesting a royal commission to investigate the whole labor situation in Nova Scotia and asking that labor be represented on such a board. President Hayden said that J. B. McLachlan, district secretary of the United Mine Workers Union, "is doing better work for the British Empire Steel Corporation than any of its \$25,000 a year lawyers because he is helping the steel corporation by destroying the union and leaving the workers without protection."

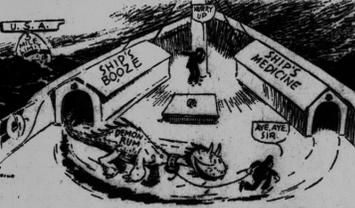

Pictou Meeting

Stellarton, N. S., July 7.—Between 800 and 400 miners met at a meeting last night and decided to consider sympathetic action with the miners and steel men. A motion was submitted to the effect that the miners of Pictou County should take "direct action" along with the Board of Cape Breton. This was defeated. A second motion was passed to the effect that the Pictou County miners request the authorities to withdraw the troops from Cape Breton. Should no action be taken, a meeting will be held on Monday.

Plan Very Successful

New Glasgow, N. S., July 5.—The cooperative movement at Trenton between the employees and the general management of the Nova Scotia Steel and Coal Co., and the Eastern Cape Works is working out most satisfactorily for all concerned. The work council of the steel works met on Tuesday and the car works council will meet next Tuesday. At the meeting of the steel works council at which twenty-five representatives of the employees were present, all of them steel workers

THE FUTURE "CROSSING-THE-LINE" CEREMONY

—From the Chicago Daily News.

TERSE NOTICE IS GIVEN GERMANS ONLY THREE GAMES IN BIG LEAGUES

Brussels, July 7.—The Belgian diplomatic agent at Berlin has informed the German Government that diplomatic relations will be suspended if the Reich does not repudiate unequivocally the Ruhr crisis. The French ambassador has given similar notice.

ARCTIC READY TO LEAVE FOR NORTH

Quebec, July 7.—(Canadian Press)—Although it had been expected that the Arctic, with Captain Bernier and crew aboard, in addition to two members of the Royal Canadian Mounted Police, J. C. Craig, representing the corps and the interior, Ottawa, and supplies, would be able to get away early this morning, doubt was expressed that the hop-off for northern waters would be made before Monday. The reason given was that final instructions are being awaited from Ottawa.

CHURCH AFFAIRS IN RUSSIA

Moscow, July 7.—Most Rev. Dr. Tikhon, former patriarch of all Russia, recently released from prison by Soviet authorities, has issued a statement in which he declares that Pope Pius, taking advantage of the confusion in the Russian Church, is trying "by all means" to instill Catholicism into the church. Dr. Tikhon charges that the Polish authorities are aiding in closing Orthodox churches in Polish territory, many of which have turned Roman Catholic. The former patriarch also continues his appeals to the faithful against the new church in Russia, while the latter continues his counter-attack on Tikhon.

and not company officials, the following resolution was unanimously passed: Resolved: That the works council of the steel plant in session assembled do hereby agree to put their services at the disposal of the general management of the Dominion Dominion, and to try to get out of any special plan that necessarily must come to the plant at this time.

It is an assurance that there is little or no likelihood of the steel workers at Trenton coming out on strike on Monday with the steel workers at Sydney.

Springhill Men to Keep Working

Springhill, N. S., July 6.—Steady production and quick shipments had marked the coal mining industry here since the inauguration of the strike of coal miners and steel workers in Cape Breton, it was announced tonight by officials of Springhill local United Mine Workers. It was said that the strike vote incident was closed, the ballots having been returned unused and there would be no strike in this section unless authorized by the International union. Sympathy was expressed for the steel workers in their struggle.

FISH STUDY IN SCHOOLS OF DOMINION ADVOCATED

Montreal, July 6.—Contending that although the curricula of the public schools of the Dominion provide for a study of bird and animal life, practically no attention is given to fish life and the fishing industry, despite the fact that the fisheries of Canada constitute one of its greatest resources, the national executive of the Canadian Fisheries Association has inaugurated a campaign to have the study of fish life given a place in Canada's educational system commensurate with its importance. A resolution was adopted by the executive to this effect: Arthur Bouillier, of Halifax, vice-president of the association, advocated the inclusion of fish pictures in kindergarten schools.

R. W. DALTON GOING TO IMPERIAL CONFERENCE

Regina, July 7.—R. W. Dalton, senator, trade commissioner to Canada, an appointee of the Imperial Government has been recalled to London to attend the Imperial conference in October.

YUKON COAL

Ottawa, Ont., July 7.—The continued suspension of royalties on coal mined in Yukon territory for a period of five years, the subject of an order-in-council dated June 7, and gazetted in the Canada Gazette, is being discussed by the board, he said.

TEN ITALIANS IN KNIFE FIGHT ON CROWDED SUBWAY TRAIN

New York, July 7.—Ten Italian laborers fought with drawn knives in a crowded Brooklyn subway train today, while women and children screamed and broke down the doors in their dash for exits. Two men were seriously hurt, while others were believed to have been slightly injured. The trouble started when a laborer took off his shoe to fix a nail which was hurting his toe. Another workman objected and friends of the two joined in an argument which ended in the fight. Police captured three men charging them with assault.

BOLTS HIT BEACHES; 7 HURT AT CONEY

Sea Gate Trolley Car Struck — Storm at Atlantic City — Tremendous Thunder Shower Frightens Bathers.

New York, July 7.—Thousands of persons on pleasure bent in and about New York were driven in-doors on Tuesday by severe wind, rain and electrical storms which struck Atlantic coast resorts as far south as Atlantic City. Around New York the storm did the most damage at Coney Island and on Staten Island, where great crowds had gathered to pass the holiday. One man was killed by lightning at Arden, Queens. At Coney Island a trolley car and a dance hall were struck and on Staten Island considerable damage was caused by the lightning and flooding rain.

The case for beer and wine is being advocated by the Beer and Wine League, which has the backing of the Retailers' Association, and they make the contention that their measure would prevent the sale of the lighter drinks as against spirits, and would assist the farmers by developing a large market for barley.

Opposition to the bill is based on the contention that it would legalize public drinking and establish what is called the "dining room law" by W. R. Wood, secretary of the temperance board of Manitoba. Mr. Wood issued a statement yesterday urging strongly the defeat of the bill.

ONTARIO CABINET

Toronto, Ont., July 7.—Although the personnel of the Ferguson Conservative cabinet for Ontario will not be officially announced for a day or two, it is believed that certain of the members of the cabinet will be announced before this morning save the following: Minister of Labor and Health—Dr. Prime Minister—Hon. George Howard Ferguson.

Attorney General—Wm. Folger Nichol, Kingston. Provincial Treasurer—Lieut. Col. William Herbert Price, Parkdale. Minister of Public Works and Highways—Hon. G. E. Henry, East York. Minister of Mines—Charles McCrea, Sudbury. Minister of Lands and Forests—James Lyons, Soo.

Minister of Agriculture—John S. Martin, South Norfolk. Minister without portfolio—Hon. Thomas Crawford, Northwest Toronto. Most of these have been announced before the cabinet was formed.

The Mail and Empire does not place any bet on the provincial secretary or minister of education. It is said that John R. Cooke of Brock, Hastings, as well as Sir Adm. Borchgrevink, will be government representatives on the provincial hydro electric commission.

YOUTH ACCUSED BY GIRL BATTLES POLICEMAN TWICE

Admits He Spoke to Young Woman, Throws Patrolman's Club Into River and Squares for Action.

New York, July 7.—A pretty young woman, who was among the sightseers in the West Forty-sixth street, approached Patrolman Stark at the entrance, sobbing, and said she had been treated by a young man across Twelfth avenue. She pointed out a youth more than six feet tall, who was wearing a dark suit, and who was employed on vacation from the New York Locomotive Works, Forty-sixth street.

"Yes, I spoke to her," he admitted when Stark questioned him. "She's pretty and I told her so. What of it?" And without waiting for a reply, he snatched the policeman's club and threw it into the Hudson with a splash. The fight began. Stark is some five inches shorter than Moss, but was more heavily armed. Moss was vanquished after five minutes of hot work and Stark started up Twelfth avenue with him.

At Forty-seventh street the prisoner gave the patrolman the foot and Stark went down. He gained his feet with cattle quickness and the crowd closed around. In the West Forty-sixth street, in again as the fight was renewed, this time with even greater ferocity, when the young woman who had made the complaint slipped away in the crowd, but Patrolman Stark locked Moss up in the West Forty-sixth street station on a charge of disorderly conduct. Dr. Bayer came in an ambulance from Bellevue Hospital, and treated the prisoner's battered scalp. Moss said he had a brother who is an engineer on the Lehigh and that he had been visiting him before the girl appeared.

KRASSIN LOSES POST AS SOVIET REPRESENTATIVE TO GREAT BRITAIN

Moscow, July 7.—Leonid Krassin has been withdrawn as Russian Soviet representative to Great Britain and will devote his time exclusively to the commissariat of foreign trade.

Tom Gibbons' Two Sons Enact Fourth of July Battle in Miniature

GIBBONS COACHES HIS SONS IN A "MINUX," INSET, GIBBONS' FIGHTING SMILE.

Shelly, Montana, July 7.—No swat, however sportive, ran dim the smile of Tom Gibbons, of St. Paul. When Gibbons met Jack Dempsey he ran for him in his rugged seats Mrs. Gibbons and their two young hopefuls, Jack and Tommy Gibbons, Jr.

The Gibbons clan, including the families of Tom and Mike Gibbons, homes on a lakeside outside the Twin Cities, where the ring carriages of the two have been invested in good old Minnesota soil.

The young Gibbons have been brought up from their cradles to climb the bar, punch the bag and use their two fists to assure themselves a peaceful, untroubled life in the community in which they live.

The two young "leatherpushers" are not novices at the fist game by any means, particularly the five-year-old Jack, who is stockily built like his dad.

NO MINISTER TO WASHINGTON FROM AUSTRALIA

New York, July 7.—Donald MacKinnon, Australia's new commissioner to the U. S., took office here yesterday and expressed the opinion that Australia would not appoint a minister to Washington.

The opinion in Australia, he said, was that British Dominions could make more influential representation on international matters through the League of Nations with the object of establishing the truth concerning various charges touching on the administration of a country whose future political status a plebiscite eventually will decide.

The chief object of criticism was the commission's decree curtailing the right of free speech and forbidding criticism of the League of Nations, the Versailles Treaty and the commission itself.

Both Lord Robert Cecil of Great Britain and Gabriel Hanotaux of France conducted the examination, which centered about such points as the presence and attitude of the French troops in the Saar.

Attempts were being made last night to agree on the report of the commission, which presumably will mention the necessity of certain reforms with the understanding that the league and not to any one government. Throughout the investigation a friendly attitude was maintained.

PERSUADE FARMERS TO REMAIN ON SOIL

Catholic Church Dignitaries Organize to Stop Exodus to Cities and U. S.

Indianapolis, Ind., July 7.—All trace of Lieutenant L. J. Roth, navy aviator and only started in the national elimination balloon race who has not been heard from, has been lost, according to announcement by the Indianapolis Chamber of Commerce, sponsor for the race.

Lt. T. B. Hull accompanied Lt. Roth as pilot. Not a word has been received from the ship known as the U. S. Navy Number A-885.

An official check, compiled at the navy headquarters, listed Lt. Olmstead, army balloonist, the lead in distance traveled. He is the only other pilot who has reported bringing theirs to the ground. Lt. Olmstead descended at Marble, N. Y. The distance between Indianapolis and Marble on an air line is approximately 600 miles.

According to the check, H. E. Honeywell, St. Louis, piloting the "St. Louis," traveled the next farthest distance—about 450 miles. He brought his balloon to the ground at Brockton, N. Y.

WEATHER REPORT

Issued by authority of the Department of Marine, Fisheries and Forestry, St. John, N. B., July 7, 1923.

Morning Paper Report. Probabilities. Maritime—Moderate winds; partly cloudy; a few scattered showers. Washington, July 6.—Forecast for New England—Generally fair Saturday and Sunday, warmer in the interior. Gentle to moderate northerly winds.

MORE OPTIMISTIC IN FRENCH CAPITAL

Definite Signs of More Conciliatory Attitude.

Favorable Indication in the Lengthiness of Conversations Over Reparations—Pope's Letter Discussed in Chamber of Deputies.

(Canadian Press) Paris, July 7.—For the first time since the delivery of Great Britain's questionnaire on the Ruhr and yesterday in French political circles a distinct feeling of optimism over the outcome of the conversations between the two countries.

The French interpret the very lengthiness of the conversations as arguing an eventual Franco-British understanding rather than the persistence of separate lines of settlement with Germany.

In addition to the London conversations, Lord Crew, British ambassador, called on Premier Poincare yesterday afternoon for a long conversation on the general reparations program and it is understood their interview was conducted in a spirit of cordiality.

In Government circles it is believed that while France repeatedly has announced that her thesis remains intact, there are definite signs of a conciliatory attitude and a sincere desire to find a basis acceptable to England for co-operative application of this thesis.

It is the details concerning modified application of the French program that are occupying the diplomatic representatives of Britain and France at Paris, according to authoritative quarters.

The Chamber of Deputies yesterday after a discussion of Pope Pius' recent letter voted confidence in Premier Poincare. The vote was 388 to 190.

The French Government never would admit interference by the Pope in either its domestic or foreign policies, the Premier said in answer to critics who demanded discontinuance of the appropriation to maintain the French claim of the Vatican.

The French Government never would accept that the embassy proved its usefulness when it failed in its duty in not preventing publication of the Pope's recent letter on reparations or at least advising the French Government in advance of its being made public.

The Pope, Premier Poincare asserted, had no authority in temporal matters. "The Pope," he continued, "is not a man who bears any resemblance to the Pope of the past. He is not a man who sees that they are any of our own people coming from the Pope than from our allies."

"We do not suppress our embassies to the Government of our Allies or those of neutrals when they ask that Germany's capacity to pay be examined by a so-called impartial commission."

"The maintenance of our Allies' embassy is not a reward to a country which agrees to what we want. It is a part of our territory devastated in the war and who did not advance a hundred billion in behalf of Germany, it is a part of our territory who are in a hurry to form trusts."

MANY CEBERGS

Radio from MacMillan Also Reports Seeing Great Finback Whale.

Portland, Maine, July 7.—A radio message was received yesterday from Captain Donald B. MacMillan, Arctic explorer, on the Y. M. C. station, in which the explorer told of seeing ten icebergs south of the Straits of Belleisle, and also a great finback whale.

The radio stated that in the explorer's fifteen years of experience he had never seen icebergs in that locality so late in the year.

"This may indicate a universally large number in northern waters of very late seasons," the message said. "We expect to pass at least a hundred on our way northward to Battle Harbor, our objective point."

GREEKS AND TURKS REPORTED IN FIGHT

Sofia, July 7.—A report from Constantinople says that the Greeks attempted to land a regiment at Kara-Durun, near the Dardanelles, and that the Turks repulsed them after severe fighting. There were many casualties on both sides, the report says. A Turkish torpedo boat sank a Greek ship, according to the Constantinople report, and many were drowned.

SAYS DEMAND FOR JAZZ CLOTHING IS ON WANE

Toronto, July 7.—The demand for "jazz" clothing is on the wane, principally because this style has made merchandising for the retail clothing and traveling representatives of wholesale clothing firms a positive hardship, declared F. A. Keiff, of Chicago, the president, in his annual address at the opening session of the convention of the international association of clothing designers here.

BANDITS CAPTURE NINETY CHINESE

Hong Kong, July 7.—Bandits today held up a train on the Canton-Kowloon Railway, fifteen miles from Canton, killing a Chinese military officer and one soldier and carrying off about ninety upper class Chinese who are being held for ransom. Booty valued at \$50,000 was also taken.

NOT GIVEN OUT YET.

Ottawa, Ont., July 7.—After a second consultation yesterday between the Government and Sir Francis Smith and G. F. Forsdike, who presented the claim of Grand Trunk Pacific Railway debenture holders for financial consideration, Premier King announced that a reply had been made. Upon the return of the G. T. P. representatives to London, the reply will be made public simultaneously there and in Ottawa.

STILL ALARM.

No. 1 chemical engine responded to a still alarm about 10:30 o'clock this morning to extinguish a fire in the fuel tank of a house situated at 169 Charlton street, and owned by the Sterling Realty Company.
