DAVID SPENCER, Ltd.

Speaking to a reporter of the Colonist on Saturday, Mr. R. L. Richardson, proprietor of the Winnipeg Tribune, "I regard British Columbia as the richest province in the Dominion. exist in your fisheries, timber, minerals, demonstrated that the people of Rusfruit, and last but not least, climate and sia were merely endowed with the scenery, cannot be found elsewhere. shadow of self-government and that There is one note of warning which I the substance still remains in the hands would like to sound. Do not alienate of the hereditary rulers of the country, these natural resources. The personal affairs of the nation has yet to be grafter will always have an eye on faced. The Imperial view is that if one them and it will take the greatest care duly elected Douma persists in rejectto keep him from getting, from time to ing the policy of the grand dukes who time, large concessions. This should are in sympathy with the plans of the not be. This great wealth should be Czar-or perhaps it would be mor carefully preserved for the people."

usal of the newspapers of the coast, tocracy as expressed through its pliant had learned of parties disposing of tim-mouthpiece the Czar-its members ber interests acquired from the Crown can be ousted from their seats, for a merely nominal figure for large sent about their business, and a sums of money, in one case for upwards new parliament elected and asof a million dollars. Hence his note of sembled in the hope that it will prove

warning.
This admonition is not likely to have any effect. It is apparently useless to point out to the government that a concern like the C. P. R. manages the timcern like the C. P. R. manages the timlumbia in such a manner that a large of internal reform. It is so complete- government experimental farms at Oternment printing office has increased to such a wonderful extent that it has far-outgrown the capacity of the present plant. A new press has been purchased as a means of relieving the congestion. There is little doubt that that is correct. Anyone who takes the trouble to more than the tremendous increase in the business of the printing office—it contains a warning in regard to the feverish activity of speculators. In a few years all that is left of our timber assets will have passed from the control of the people, whose property it is and ought to continue to be until it is purchased at a figure bearing some reapurchased at a figure bearing some reasonable relation to its value, into the hands of private parties. If one pruhands of private parties. If one prudent investor can clear over a million dollars in one deal at this time when the value of our timber resources is just being realized, how many millionaires and how many private fortunes of a gradually rear a structure of political and branch of the wave of the structure of political and branch of the wave of the structure of political and branch of the wave of the system.

Great work is being done at Brandon, Man.; Indian Head, Sask., and La-View, which he proposes to erect on combe and Lethbridge, Alta., these have been visited by Dr. Saunders on this present tour. Agassiz received the instant. He is not satisfied to special attention of Dr. Saunders of the work is being done at Brandon, Man.; Indian Head, Sask., and La-View, which he proposes to erect on the back of the grandon, Man.; Indian Head, Sask., and La-View, which he proposes to erect on the stabilishment or a political treatment of the stabilishment of a political treatment of the stabilishment of a political treatment of the stabilishment of a political treatment of the stabilishment of a political treatment of the stabilishment of the stabilishment of a political treatment of the stabilishment of the stabilishment of a political treatment of the stabilishment of t aires and how many private fortunes of lesser amount are going to be created gradually rear a structure of political ant branch of the work of the governlesser amount are going to be created ten years from now when practically all of our timber potentialities have passed into private hands and the properties have increased in value in harmony with the increasing domestic and outside demands? We shall of course be told that stumpage dues and royalties will result in immense revenues for the treasury and that the processes of manufacture will produce.

In the chief work of the government affarms.

The chief work of Dr. Saunders will lie in selecting the best district for the stances have done. He hopes to accomplish by violence something that can only be gained by plodding personal course be told that stumpage dues and result in immense revenues for the treasury and that the has given his sovereign at the same time and that scientific accuracy in selection or prosperous development can branch of the work of the government al farms.

The chief work of Dr. Saunders will lie in selecting the best district for the folicitions of the plans and specifications filed with and approved by the chief inspector. Those present at the finity of the best varieties of fruit for this rising industry of the Island. Dr. Saunders and Chief License Inspector, Hussey.

We pay men of 22 years and under good wages and at the same time texperimental farms.

The chief work of Dr. Saunders will it in selecting the best district for the fiction of the government all three conditions of the plans and specifications filed with and approved by the chief inspector. Those present at the future experimental farms.

The chief work of Dr. Saunders will it in selecting the best district for the file in selecting the conditions of the power and the conditions of the power and the conditions of the ary between the people and the man- a new house. posed of in any other way than through intermediaries, net to a multitude of speculators? If a private corporation can manage its business in small specular to take of affairs, can predict with certainty what will follow if Pre
place and many visits in different directions will have to be undertaken before he will be able to give to the bublic the benefit of his matured experience in all branches of agreement of the bublic that the summer crowds which patronage is business in small product of the proposed of in any other way than through intermediaries, net to a multitude of speculators? Dr. Saunders Now in the City Will Carefully Go Into the Subject.

(From Monday's Daily.) Dr. William Saunders, director of the

processes of manufacture will produce great business activity generally. But task. He has given his sovereign at tion or prosperous development can only be obtained through the perfected turning his elected representatives adrift and calling for the selection of Island. Dr. Saunders feels that it is a new house.

The general situation in unhappy plans at present on the subject. Inufacturer, how much money must the total of our timber resources, which we shall probably be told cannot be dis-

dustry on the Island are most prop the profits going to the shareholders of the company, what good reason can be Douma with the arrest and imprisoning and Dr. Saunders says this fruit will easily bear transit to the London advanced why the people of British Columbia, who are the owners of the Czar with proper selection will be able to

MOTHER'S MESSAGE

In gratitude for the great benefit her child received from the use of Zam-Buk, the great herbal balm, Mrs. R. Gentleman, of 1090 St. James' Street, Montreal, gave the following details for publication. She says: "My little daughter Lydia (2 years) was troubled with eczema on her body and face for six months. During that time we tried several advertised remiedies, but the disease had too well a hold of the child for these to overcome, and finally we were obliged to consult a doctor. He treated the little one for some time, and gave us prescriptions for various salves and medicines. We tried them, and tried them well; but the child got no better. When she got warm the itching was terrible, and then the pain made her cave and finally was terrible, and then the plain made her cave and finally and the plain made her cave and the princes with the victoria the same vening. The latter to the the very cave the true to the city, was the plain to the city, was the plain to the city and the princes to sund the victoria the same vening. The true to pasture to make the very department have the content of the distance to the city. The usual civic welcome will be tendered and he will be shown over the city. Wall arrangements have been inside to pasture to th she got warm the itching was terrible, and then the pain made her cry and be very restless. One day somebody strongly advised me to try Zam-Buk. We obtained a supply, and it was really wonderful how the Zam-Buk cooled the sores and gave almost instant relief. It stored the inching the cooled the sores and gave almost instant relief. It stored the inching the cooled the sores and gave almost instant relief. It stored the inching the cooled the sores and gave almost instant relief. stant relief. It stopped the itching, healed the sores, and in six weeks from first commencing it, the child's skin way.

first commencing it, the child's skin was as smooth as when born."

Zam-Buk is compounded from rich, healing, herbal essences, and is an ideal natural combination of power and purity, suitable for the delicate skins of infants.

For summer skin troubles, sore feet, insect stings, chafing sores, bruises, ulcers, abscesses, skin eruptions, scalp sores, Zam-Buk is unequalled. It also cures piles. All druggists and stores at 50c. a box, or from Zam-Buk Co., Toronto, for price. 6 boxes for \$2.50.

The roar of a lion can be heard farther than the sound of any other living creature. Next comes the cry of the hyaena and then the hoot of the owl. After these the panther and the jackal. The donkey can be heard fifty times farther than the horse, and the cat ten times as far as the dog.
