I. T. Bulmer on the Book Duty-The Queen's Jubilee Celebration.

Halifax, N. S., May 10 .- J. T. Bulmer, barrister, of this city, who worked hard in support of the liberal can-didates at the general election, is out in a strong letter against the changes in the tariff, particularly in books. He says that a tax of 24 cents on a book is made on the dollar; that the tariff strikes hard at every doctor, lawyer, engineer, clergyman, and pro-fessor; that it makes it impossible to build up large libraries in Canada; that Canada is now marching in the rear of the procession headed by Turkey and Spain, and that the government in this book tariff are the ablest archeleds of ruin ever known

in the history of Canada.

Jeffery McColl, ex-M. P. P. of New Glasgow, was stricken with paralysis today. Tonight his physician reported him doing as well as could be expected.

Lawyer F. B. Scott, son of Rev. Scott, Methodist minister, is suing E. T. Hammett, book-keeper of this city, for libel. Some time ago Mr. Scott was acting for a client and after the suit was over, Mr. Hammett is charged with having written to Mr. Scott's client that he (Scott) was a "consummate ass, and that despite his Dalhousie legal training he had left undone several things he should have done." For writing this, Scott has instituted action for libel against Hammett, claiming heavy damages.

WOODSTOCK.

The Body of an Unknown Person Found on Raymond's Flats.

Woodstock, N. B., May 10.— The body of an unknown person was found by boys on Raymond's flat below town last evening. It was terribly decomposed, and almost unrecognizable for anything but a human being. It was brought to Undertaker Henderson's and this afternoon Coroner Hay opened an inquest. Dr. Hand testified that the body was that of a man and the inquest was then adjourned until next Friday evening. The body was buried in the paupers' lot. So far no one has any clue, but it is thought when the matter becomes public some information to clear up the mystery will be forthcoming. It was evidently the body of a small man or boy. AN OPENING FOR TEA.

AN OPENING FOR TEA.

(Montreal Star.)

Wholesale houses have during the last few days experienced a more or less active enquiry from New York and Chicago for tea and samples have been sent within a day or two. Business of importance will, it is thought by the trade, result, especially if the agitation caused at American centres by rumors of a prospective duty should assume the serious proportions which they seem likely to do.
