WOODSTOCK WHISPERINGS.

On the 4th of June Mrs. D. F. Merritt will give a grand ball for her daughter Jennic, who, on that day, will be 17 years old. Over 100 invitations have already been issued, and it is confidently anticipated been issued, and it is conndently anticipated that the fair and popular debutante will greet a very large assemblage of guest on the authorise occasion.

Mr. William Jones, who is in the pub-

lishing business in Boston, and who ently spends a portion of the summer guest of Mayor Jones.

Mr. Robert Smith, who was formerly resident of St. John and who has for a number of years been leader of the choir of the Methodist church, left for Boston on Saturday last to accept a lucrative situation there. Before his departure he was the re cipient of three addresses from his co workers in the church. He will be greatly missed in musical circles and in his own church his place cannot easily be filled.

On Wednesday the new Episcopal church at Honlton, Me., of which Rev. Hudson Sawyer is rector, was consecrated by Bishop Neely, assisted by a number of diocese. The excursion train from Woodstock was well filled.

Rev. A. F. Brown, pastor of the Alber Street Baptist church, has accepted the call ussex church. His departure will be sincerely regretted. An eloquent speaker, an earnest worker and a man of broad Christian spirit his work here has been fully supplemented by that of Mrs. Brown, who is truly a noble woman.

Shortly after the advent of leap year, a very cleverly written article appeared in one of our local papers, describing a number of our most eligible young bachelors, who were presumed to be open to matrimonial proposals. As a result of this faithful inventory of the accomplishments of those young gentlemen, three of them have received bona fide proposals from St. John ladies, who are every way worthy of their espousal. One of the young gentlemen, the senior of the class, had already fallen a willing victim to leap year seductions, and having pledged his heart and hand, was not open to an offer. Another, who was described as the jolliest man in town, it is said he is trying to keep the soft impeachment a secret; but some way it leaked out, and his friends are congratulating him on mentioned as a very popular society man whose hair was rather thin on top, has been assured in the proposal received, that the obstacle as its loss was more than compensated for by the fact of his popularity

A Great Masonic Event.

At the quarterly communication of the grand lodge of Massachusetts, F. A. M., held at Masonic Temple, Boston, March 14, the board of directors were authorized to make arrangements for the dedication of a monument to be erected to the memory of Henry Price, the first provincial grand master of Massachusetts. In accordance with this vote, the following announcement has been made by circular to all the lodges in the state:—

On Thursday, June 21, the most worshipful grand master, accompanied by the grand officers and Henry Price locke of Charlestown, will leave Boston at 90 clock a.m., and proceed to Townsend Centre. At Ayer Junction they company will be joined by St. Paul and Caibb Butter lodges of Ayer. At II o'clock a.m., or immediately after the arrival in Townsend, a procession will be formed and march to the new cemetery in that town, where, at high 12, the newly erected monument will be dedicated in ample form. A collation will be served in the town half at the close of the services. The party will leave Ayer for Boston at 3.15 p. m. The fare for the cound trip for Boston at 3.15 p. m. The fare for the cound trip for Boston will be \$1.25 and for the collation \$1.

called Oak point, that separates the St. Croix river and Oak bay, and from the grandest panorama of river, bay and mountain scenery that Charlotte county contains, Mr. Todd two years ago determined to locate here a stock-breeding establishment that in the future should make the name of his native county famous throughout the world. Being from boyhood a lover of horses, and possessing means to carry out his work, he was well fitted for the undertaking, and all who have the pleasure of knowing him today, of inspecting his stock, listening to his conversation and noting his earnest manner and calm deliberation, clergymen, some of whom were from this cannot fail to be imbued with his ideas, and believe in the sure success of his enterprise.

Having put his hand to the plough Mr. Todd never looked back. After building an extensive barn on his land for the reception of his first horses, he started west to buy stock, and was fortunate enough to be able to obtain the sons and daughters of some of the fastest trotters in America.

At the stock farm there are at present two stallions and five famous brood mares, while Mr. Todd has sent four brood mares to Massachusetts and Kentucky to noted horses there. It needs hardly be said that Mr. Todd is also the "owner of the great Wilkes stallion, Lumps, record 2.21, for which \$17,000 was paid. Mr. France, owner of Red Wilkes and Wilton, says he is the best little horse that ever lived, and he timed him in his race at St. Louis, a quarter in 31 1-2 seconds, and a half mile in 1.04. Lumps is a son of George Wilkes, by the great Hambletonian. The dam of George Wilkes, the noted Dolly Spanker, is Henry Clay, the founder of the Clay family, who was sired by Andrew Jackson, he by Young Bashaw, by imported Grand Bashaw. Lumps' dam was by Pearsall, the sire of Lady Emma, 2.261-4, who was by Jupiter, by Long Island Black Hawk, a son of Andrew Jackson. Lumps will probably join the stud next year.

The four-year old stallion Elation, by Electioneer, out of Sallie Graham by Volunteer, is the king of the stables at present. He is a handsome bay horse standing 15 1-2 hands high. When led out by his trainer, with spotless coat, arched neck, and proud mien, he seemed conscious of his high birth, and well worth the \$7,000 his owner paid for him.

Edgardo, who shares the sovereignty of the stables with Elation, is a compact, noble looking horse, three years old, and showing already great speed. His sire, At an early hour in the evening their residence on Marks street opened its doors to sire of 2.26, and his grand dam, Lucy, has trotted under the wire in 2.181-4.

The great features of the stock farm are the brood mares, eight sisters, daughters of old Emeline, the most famous brood mare of her day. Of these sisters four, Adele Gould one of the guests, Mr. L. For these mares, Mr. Todd paid \$35,000, and he has already refused prices varying from \$2,000 to \$4 000 for the foals on the halter.

Here also is the white mare Fortuna, in foal to Rumor, and several others of like celebrity.

The large barn of brick, 140x43 feet, contains nineteen roomy and well-lighted box stalls, 12x14 feet, a commodious harness and grooming room, and a pleasant office and handsome parlor for Mr. Todd's friends, making one of the finest horse hotels to be found east of Kentucty. A second barn, 90x40 feet for mares with foal, is built close to the first structure, and is as complete in all its fittings.

Of the pleasant days spent in Charlotte county none is more firmly fixed in memory than that which was passed in company with ing to his entertaining talk. Success to him and prosperity to his splendid farm of which the dominion has good reason to SMATE SMITHING OVAH

The cotton combine has been run so hard by Mr. Alexander Gibson that it has been forced to give the St. Proix mill carte blanche to meet him on his own grounds. The Trade Bulletin, of Montreal, says that as those grounds extend from the maritime provinces to London, it is feared that this action is going to play have with the combine proper. The St. Croix mills having received permission to compete with "Kicker" Gibson as they see fit, by selling at their dwn prices, regardless of monopoly regulations, a fight may commence that will knock the combine into "smithereens." The public, however, should not lose sight of the fact that it owes a debt of gratitude to Mr. Gibson, who so pluckily withstood the action of the combine and forced it at The public, however, should of the fact that it owes a debt of gratitude to Mr. Gibson, who so pluckily withstood the action of the combine and forced it at last to cut loose the St. Croix cotton mills in order to keep them from sinking beneath the persistent worrying of the "bull-dog." A leading operator stated, a few days ago, that there was trouble ahead, as the mills had been over-producing again, and that stocks have been accumulating too fast for consumptive requirements. It

that stocks have been accumulating too fast for consumptive requirements. It would appear by this that the combine, not being able to keep production within legitimate requirements, will scarcely be able to control prices, especially as Gibson and St. Croix are in the breach. There are evidently squalls ahead, as the members of the combine appear to mistrust each other. The Trade Bulletin says that the first sale of Prince Edward Island oats ever made in Montreal was recorded the week ending May 18—20,000 bushels, 39 cents, at 32 pounds. The next week, 40,000 bushels were sold at 40 cents, and a number of cargoes of this grain are now sailing to Montreal instead of Great Britain, which has, up to this year, been the great market for this grain.

to Montreal instead of Great Britain, which has, up to this year, been the great market for this grain.

According to evidence and statements submitted to the Combines committee at Ottawa by Mr. Hugh Scott, the loss by fire in Canada was \$6,900,815 in 1884, of which there was insured \$3,820,324. In that year nearly \$7,000,000 was lost to the country, the greater part of which might have been saved if certain precautions had been observed. His company, he stated, gave great attention to seeing that proper safeguards were taken to prevent fires, and the result of their inspection has been very satisfactory. One of their clients had recently written that their place worth \$50,000 was saved from the fact that the company had taken the precaution to see that the place was supplied with fire pails. Mr. Scott urged that the question should be taken up by the government. Mr. Scott dwelt at great length on what he described as the "fire waste" in Canada, and the necessity for the government interfering and passing regulations for the prevention of fire in the same way as they have passed an act for the fencing in of machinery to prevent accidents.

Referring to a recent paragraph about counterfeits of the Bank of B. N. A. \$5 bill, dated 1877, circulating in the Maritime provinces, it appears that this is a more recent attempt to work off bogus bills, some of which were put afloat as early as 1884. The bank had a new note prepared and issued upon the discovery of that counterfeit, and since that date, we are told, evey \$5 note of 1877 issue, which has been redeemed, has been cancelled. A genuine \$5 note of the issue of 1877 is indeed now seldom seen.—Monetary Times.
