RECOMMEND THE SALE OF GREEN HEAD PROPERTY FOR \$26,200

Safety Board Favor Giving Option to R. Max McCarty, Representing English Capitalists—Committee to Arrange Selling Lots in Carleton—Lessees of City Properties May Make Offers to Purchase.

At a meeting of the safety board yesterday, it was decided to recommend the city council to give R. Max McCarty, representing English capitalists an option to purchase the Green Head property in 10 months for \$26,200. The option named was \$1200. Ald. Russell presided and there were present Ald. C. T. Jones, Wigmore, Wilson, Potts, McLepid, Scully and Green, with the common clerk and Director Wisely.

Mr. McCarty Heard. R. Max McCarty was then heard. He said Herbert Guernsey had put up the money to get an option. He represented parties who were prepared to erect a large cement plant. They proposed to build a plant to turn out 12,000 barrels of cement a day. They wanted, however, to have the property examined by their own engineer before purchasing. Ald. Scully said that when he was a boy \$40,000 was offered for the property. The director said he estimated the property was worth \$26,200. Ald. Scully moved that Mr. McCarty be given an option to purchase the property for \$26,200 in ten months the option to be \$1200 and to be forfeited if the purchase is not made. Mr. McCarty said he would accept the proposition.

Committee To Sell Lots. On motion of Ald. Potts a committee consisting of the chairman and Ald. McLeod with the Recorder, was appointed to arrange for advertising and selling 12 lots in Carleton which the council decided to dispose of. Ald. Green said the police officers ought to do their duty and report parties leaving obstructions on the streets. In reply to Ald. C. T. Jones, the Director said the street railway was proceeding with the work of painting the street poles. On motion of Ald. Potts the Director was instructed to submit a list of all leased properties of the city, and to notify the lessees wishing to buy outright to make an offer for the properties occupied by them. Ald. Scully moved that the street railway be notified, under section 5 of the contract for street lighting to paint all poles in the streets, and this was adopted. The Board then adjourned.

The man cut an artery in one of his wrists and when he was discovered about six o'clock he was very weak from the loss of blood and nearly dead. He was hurried to the General Public Hospital where he was attended to. Had the man not been discovered when he was nearly dead he would have died. Reports from the hospital early this morning show that Train is still very weak, but is improving and will recover. He is a married man with a family and it is stated that he had been drinking of late and that this was the cause of his rash act. This is the second time that Train has attempted to take his life.

TELEGRAPH'S INSULT TO COMMERCIAL MEN. Grit Organ's Warning Against "Political Interference" Strongly Resented -- Why No Criticism of Reciprocity? To the Editor of The Standard. Sir,—The Telegraph with its characteristic eagerness to smother speech in a land where speech of itself should be free and with its medieval tendency to suppress certain of a past dangerous to the country, endorses and publishes an article "Warning Commercial Travellers Against Political Interference." Because a citizen trades with both Liberals and Conservatives (and what corresponding citizen does not) he must be barred from even an expression of opinion as regards the political affairs of his country. His liberty of franchise is such a fearful thing that it must be confined to the bare casting of his ballot, and his tongue must be chained, for fear that he will utter a criticism against the powers that be. The poor commercial traveller goes to rest at eve a free-born British citizen with freedom of speech, but awakes beneath an assumption of suppression which would be credit to the autocracy of Russia, but certainly not to the democratic form of government which is the pride of a free-born people. The Telegraph hurls an unwarranted slander and the covert of its cowardly attack is the careful concealment of even its solitary conceit. It shrouds its insinuation with hazy indefiniteness and denies the attacked even the fairness of an opportunity to reply. And what is the Telegraph's weapon for reducing a highly intellectual class of citizens to the ranks of such serfdom? Nothing more or less than the most depraved of all weapons of attack—the boycott. They are to be given their choice to "shut their mouths or sell to someone else." They must give up the complete right of their God-given franchise or go out of business. And why? Because they have seen the van movement of the great American invasion and have ventured to sound a warning note. Where has a section of the public press fallen from and to what depths can it fall? Has the patriotic fervor been stifled by the cool application of the American dollar? Has the commercialism of our neighbors to the south yet seized us? Even there, the press is not advertised and approved by such glowing headlines. The Telegraph and its kind must be setled with more than this: not Americanism, but Russism; not progress and patriotism, but stagnation and slavery. Yours, FOR FAIR PLAY.
