

GERMAN OFFICIALS PREDICTED WORLD WAR

SENSATIONAL REVELATIONS MADE BY SENATOR LEWIS

Germany Long Intended to Wage War for World Conquest—Planned to Capture Paris, New York, Washington and Wipe Out the Monroe Doctrine.

Washington, Sept. 24.—Predictions that Germany would wage war for world conquest in about fifteen years, were made to the late Admiral Dewey, at Manila, in 1898 by Captain Von Goltz, of the German Imperial navy. Senator Lewis today told the senate.

Quoting a report from the Admiral Dewey to the navy department, the Illinois senator said that Von Goltz told the American naval officer that Germany would capture Paris, as the first step to subjugating England. The taking of New York and Washington was to follow in order that Germany might secure an enormous cash indemnity.

The wiping out of the Monroe doctrine and the control of South America by Germany also were predicted by the German officer, declared Senator Lewis, who was discussing peace negotiations.

Lends Himself to the Enemy. For some reason the government had not given the report wide circulation, Senator Lewis continued, but in the face of it now, "any senator who speaks here or elsewhere against any measure of his country, lends himself to the enemy."

Characterizing the German reply to Pope Benedict's peace note as "frustrating peace hypocrisy" and "front both to the Pope and President Wilson, Senator Lewis scored that he termed "laggard in patriotism" and those who argue against the war.

The country guarantees free speech to every American, the speaker said, "but that man who uses free speech against America is not the American to whom free speech is guaranteed. In this country there can be no free speech to any man who seeks to destroy the freedom of his fellowman. There can never be liberty of speech to an American citizen to destroy the liberty of the American nation."

OVER 20,000 PEOPLE IN BOSTON HAD AN APPEAL FOR A CANADIAN UNIT

Sixty-Four Recruits Signed on at Meeting—Governor McCall and Mayor Curley Speakers.

Special to The Standard.—Boston, Sept. 24.—The Fifth Royal Highlanders of Canada, the famous Black Watch, certainly cannot doubt that they have taken this city by storm for within a few hours of their arrival Mayor James M. Curley presented them with a stand of stars and stripes which they are to take back to Montreal with them and later to carry overseas and flaunt in the face of the Hun. Besides that His Honor loaned the battalion the official stand of colors belonging to the City of Boston, and these they will carry on their tour through the New England States side by side with the King's colors and the regimental flag.

Conservative Boston gave these killed warriors one of the most hearty and spontaneous greetings ever extended to any visitors in a long time, and all day the officers and men were cheered as they appeared in the streets. The pipe and brass bands attracted much attention, and more than 100 recruits were secured for their first day here.

Tonight more than twenty thousand people attended recruiting in the Boston arena and land adjoining it. Among the speakers were Governor McCall and Mayor Curley. Sixty-four recruits were sent to Canada tonight.

LOOKS FOR REPEAL OF LAW IN GERMANY

Arthur Henderson Believes That the Country is Ripe for Big Overturn—Socialists Still Dominating Party.

London, Sept. 15.—(Correspondence of The Associated Press).—Belief that Germany is ripe for revolution was expressed by Arthur Henderson, British war representative in the British War Cabinet, in an interview here in the Weekly Despatch, justifying his attitude in favor of the Stockholm conference.

"Nothing is further from my mind," he said, "than concurrence in a peace settlement that would not be final, democratic and lasting. An inconclusive peace would be a dishonorable peace, and we have no desire to parody with unrepentant military despatch, the final peace of the world. There can be no compromise must be the final and complete abolition of the treacherous autocratic government."

"I consider a democratized Germany an indispensable condition, and the most effective way of bringing this about is through the representatives of the working-class organizations. In my opinion, a military victory of the Allies will not be sufficient. It might enable the Allies to secure a satisfactory and honorable peace, but it could not guarantee a lasting peace. This can only be secured by the good will of all the peoples concerned. I want to supplement military effort by a properly organized and wisely directed political propaganda."

DISSOLUTION NEXT WEEK

Parliament to be Dissolved Next Week, Probably at the Beginning. The Formality Simply is that the Prime Minister in such a case recommends to the governor-general that parliament should be dissolved and the latter issues a proclamation to that effect.

Ottawa, Sept. 24.—Parliament will be dissolved next week, probably at the beginning. The formality simply is that the prime minister in such a case recommends to the governor-general that parliament should be dissolved and the latter issues a proclamation to that effect.

October 7 is the last day of the life of the present parliament which was extended one year. However, it is certain that the prime minister, who is expected back in the city on Monday or Tuesday, will not wait until parliament automatically dissolves.

When the general election will take place is problematical. Most agree that it will be held during the first fortnight of December, but there are those who believe that it will not take place until spring or early summer.
