N. B. The whole of the Dartmouth Subscribers were intended to have appeared together, but owing to the original list having been included in the present Report, before that with the additional Subscribers was forwarded to the Printer, it was necessary to sub-join another separately. In the foregoing one it will be observed that the names of several of the contributors in the previous list have been repeated. This was in consequence of some alteration having been made *this* year in the sums annexed to their Names. The number of *new* Subscribers is however 178.
