FLORIDA

Every month the list of Schools using our texts grows longer. Last month St. Joseph's Convent, Fernandina, Florida, adopted our system for Latin. To people in Florida, Canada seems like a country about the North Pole—another Greenland. There must therefore be a very good reason when they send up here for school books. The reason is the De Brisay method. Schools in Texas, California, Florida, Oregon, etc., every year send to Ottawa for our books.
