EDWARDS, DRUMMOND AND WHITE SALE

The combination sale of Shorthorn held at the Union Stock Yard, Toronto Junction, on March 5th, by W. C. Edwards & Co., Sir Geo. Drummond and Peter White, proved a fair success. The promoters are to be congratulated upon the nerve they displayed in putting an important thing up at auction. With upwards of 500 of the most prominent breeders in Canada, as well as several American, present the sale could have been scarcely anything less than successful. The fact, however, that realized were not high, considering the financial and the local conditions, they were reasonable, although a favor of the purchasers.

As usual, some of the plums were picked up for Uncle Sam's domain. Mr. John Shaw, Harrisburg, Ill., purchased several good animals, among them Lady Burgess, Imp. from the herd of His Majesty the King. The topper of the sale was Helvedere Lily 8th 75476 in Canadian bred purchased by Jas. Vale, for Sir Wm. Van Horne, Selkirk, Man., at \$350. Prime Grove Lavender (75665) sold, reached the \$300 mark. She was bought by Geo. Miller

FOR SALE AND WANT ADVERTISING

TWO CENTS A WORD

READ BY 15,000 PEOPLE WEEKLY

THIS DEPARTMENT is one of the most valuable in the Paper. At a cost of only Two cents a word, you can secure anything you wish to buy or sell, or situations wanted or vacant.

THE ADDRESS must be counted as part of the advertisement, and each initial or a number counts as one word. The length of each insertion. John Davis & Son
FOLEY, ONTARIO

Breeder of Clydesdales and Shropshire Sheep and Shorthorn Cattle, Levees, Jerseys, Myria, Miss Ransand and Lady Eden families. Stock for Sale. Long Distance Telephone.

Brougham, Ont. Pine Grove Miasse 8th, 7583, 2700, sold for \$350, and goes to help build up herd owned by J. P. Mitchell, Burlington, Ont. The only other female that reached the \$300 mark was Princess Royal 11th Wood 4th, 5602, was the only bull sold, broken down over \$20, his price being \$350. He was purchased by S. Dymont, Barrie.

July 10th, 1907, and of cattle sold for \$5,455 an average of practically \$150 each. The sale was conducted by Harry M. Coles, Chicago, Ill., and Capt. T. E. Bobson, Burlington, Ont., wielded the hammer in a courteous and masterly manner.

The sale, advertised in this issue, under the auspices of the Myria Sales Association, to be held at Myria on March 18th, 1908, gives to those in need of good stock an opportunity to obtain it at reasonable prices. The offering consists of 20 representative Shorthorns from the following well known families: Duchess of Gloucester; Misses Wedding Gift, Miss Hamilton's Grimsen Flowers, etc. Ports head of registered Cotswold and Shropshire ewes and ewe lambs, as well as a pair of registered Cotswold and Shropshire the same time. They should be eagerly sought after, owing to the market being such a flourishing one. A few registered Clydesdale stallions and mares are also included in the association at former sales made the highest average of any of the lesser sales, which speaks volumes for the class of stock selected.

The Best Telephone.

The farmers in the Township of Maidstone, in the Town of Rochester in Essex County, Ont., recently installed a rural telephone line, so that there would be no communication between them being installed, the Township Council took the matter up. After comparing the different telephones, the contract was finally awarded to the Northern Electric & Co. Ltd. of Montreal. This is the strongest evidence that can be given of the efficiency of these particular telephones over all others.

Canadian Pony Society

The Ontario Horse Breeders' Association will have to choose new directors, the recent elections having been declared illegal. This was made known at a meeting of the Canadian Pony Society held at Toronto recently. Messrs. Pepper, Robinson and Somers, with the president and secretary, were appointed a committee to investigate the status of the Canadian Pony Society, as regards the Ontario Horse Breeders' Association. It is proposed to hold a pony show this coming summer. Mr. W. R. Mead presided.

Azoturia

What do you recommend as a remedy for horses suffering with azoturia? We have had several cases of this disease in the past few years and being a considerable distance from a veterinarian, these cases have usually resulted disastrously because of the want of prompt attendance. We would like to know of a remedy that we could use in case of emergency. —J. D. Oxford county, Ont.

At first symptoms, get the horse to the nearest stable, blanket warmly and coat off his feet, if possible. Give a purgative of 8 drams aloes, and 2 drams ginger. Apply mustard, mixed with water and oil of turpentine, over loins. Feed on bran only for 24 hours, and allow him to stand idle for three days. If he goes down, make him as comfortable as possible with the water bed and give a purgative and apply mustard as above. Give 2 drams Iodide of Potassium every six hours for 4 or 5 days, and follow this with 3 dram doses nitrate of Ammonium, 4 times daily. Draw the urine with a catheter every 6 to 8 hours, and give injections of warm soapy water per rectum three times daily. As soon as he recovers the use of his legs, help him to his feet. In some cases slings are used to advantage. Feed lightly and give all the water he will drink. There is a preparation called "Albomone," which by many is considered a specific for the disease. It is given in one or two ounces every 4 to 6 hours, until recovery takes place. The best treatment is prevention, which consists in giving daily exercise.

THE DEERING

GRAIN CUTTING WITHOUT INTERRUPTIONS

WHEN the grain is ripe you want the work of harvesting to go right along. You cannot afford to be annoyed by breakages and delays. Breakages and tinkering with the mottor or other parts to get them to work right means more than vexatious delays. It means expense and it may mean that you will not get your grain harvested in good condition.

The Deering binder comes nearer giving you insurance of uninterrupted work than any machine you can buy. What can be more satisfactory to the grain grower at the beginning of harvest than to have a machine he knows he can depend upon?

The Deering binder is such a machine. It has stood the test in thousands of harvest fields.

It is not only dependable and

right working but it harvests all the light. It handles tall and short, light and heavy, down and tangled grain all to a nicety and with less possible loss. Machines are made in 5, 7, and 8-foot cuts. In addition to grain harvesting machines the Deering line includes binder twine, mowers, tedders, sweep rakes, side delivery rakes, hay loaders, stackers, corn machines and knife grinders. Also a complete line of tillage implements and seeding machines, comprising disk drills, shoe drills, hoe drills, cultivators and seeders, smoothing, spring-tooth and disk harrows, land rollers and scufflers. Also gasoline engines, cream separators, hay presses, feed grinders, wagons, sleighs, and manure spreaders.

For all particulars call on the local Deering agent or write to any of the following branch houses for catalog:

G. A. BRODIE, Bethesda, Ont.
STOUFFVILLE STATION, G.T.R.

J. WILHELM, Specialist on Generation G. A. MOORE

Notice to Horse Breeders

If you had your mares loose their colts do not take a chance on it again, but use one of our Blood Mare Spreads. It will get you a strong, healthy foal that needs no nursing. It will tell you what it has done for other breeders. If you do not keep it send its name. Price per package, \$1.50. Impotent and indifferent sires treated. No reason why an entire horse should not leave over 80% of foals. Terms on application.

WILHELM & MOORE, Shakespeare, Ont.
