BETTER BARNs

make better farms

You can't put everything in the bank. Your income is in your crops—your capital is in your stock and machinery.

Why not give them a shelter that's storm and weather proof.

If you are planning to build or fix a barn, specify the best roofing. Specify Beaver Brand White Cedar Shingles and you will have a roof that will last your day and longer.

Get the kind that defy the storm, that stay on the job when the tornado has gone.

BEAVER BRAND WHITE CEDAR SHINGLES

The Boston Transcript, August, 1916, says:

The wooden shingle again demonstrated its great superiority over other forms of roof covering in the recent heavy rain and wind-storms in the southeastern cities. In the vicinity of Birmingham and through the east and south parts of the State the rainfall approached twelve inches in sixty hours, soaking all kinds of composition roofs, so that the wind rolled them up. The wooden shingles were not loosened by the wind, as were those of other types. Much of the property damage was caused by water destroying the contents of buildings, and in most cases the water entered because of defective roofing.
