FROST & WOOD

Internal-Gear All-Steel

MOWER and RAKE

To farm without the aid of these two valuable haymakers is to work under a heavy handicap. Their use, for a single season, will prove this to your complete satisfaction.

A Light-Draft Mower

The cutter-bar of the FROST & WOOD MOWER is driven by *internal* gears. "Lost motion" is completely done away with—tooth wear and friction reduced to the lowest point. *Roller-Bearings* at every vital point make this MOWER unquestionably the easiest running machine of its kind on the market.

A Durable Rake

The FROST & WOOD RAKE is built to last a lifetime—even with the most strenuous usage. Angle-steel frame—steel, staggered-spoke wheels—staunch steel axles—spring-steel teeth—that's the way we build the FROST & WOOD for SERVICE. All parts are rivetted; they won't fall apart like bolted parts.

SEE THEM

A call on our agent will convince you that these two implements will make money for you. See them, to-day if possible—or write for illustrated descriptive booklet, "Haymakers." It's free.

Frost & Wood Company Ltd.
Smith's Falls—Montreal—St. John, N. B.

LONDON CONCRETE MACHINERY CO.
Dept. B, London, Ontario

Feed Ensilage This Summer When Pastures Get Low

To secure the maximum results, stock should be fed green feed all the year round. Its succulence produces rapid growth and a heavy flow of milk. No other feed equals ensilage in succulence. It is as valuable and economical to feed in summer as in winter. It pays, then, to fill a silo for summer feeding. You will keep ensilage succulent and palatable all-the-year-round as the day the corn was cut, if you have a

Natco Everlasting Silo

(Patented)

Built of non porous vitrified clay hollow blocks, its glazed surface excludes air and moisture. The dead air space protects content from heat and cold. Each layer of blocks is reinforced by continuous steel bands.

Weather Proof—Decay Proof—Vermin Proof—Fireproof

The Natco Everlasting Silo will last for generations—any mason can erect it—never needs painting—walls will not warp or shrink—no hoops to tighten—no continual repair bills—no rust—no rot—is practically the only silo. The Natco Everlasting Silo is a survival value unequalled.

FREE SILO BOOK—128 illustrations about silos, their construction, and the best silo for your farm. Write for it today.

15 Carlton St., St. Catharines, Ontario

Less Work Bigger Profits In a Sanitary Stable Like This

Dairy profits are increased in a dairy barn like this, because the modern Sanitary Steel Equipment lessens stable expenses. Less work is required to keep the stable clean. Cows are healthier, and veterinary bills are cut in two. The labor of scrubbing down cows before milking is abolished, because the patented Aligning Device on BT Steel Stalls lines all cows evenly over gutter; no manure is on cattle-stand or bedding, and flanks and udders of cows remain clean.

BT Galvanized Stable Equipment
BT Galvanized Steel Cow Stalls and other stable equipment outlasts the barn. Won't burn, rot or break. Galvanizing prevents rusting. Pays for itself in one year by increasing profits.
