One of the most enthusiastic meetings has been that of the Board of Church Extension. After several vigorous speeches had been delivered, Bishop Harris introduced Dr. Mc. Cabe and, in his own words, "turned him loose" upon the congregation. The proposition was to raise \$50,000. and the audience was informed that \$20,000 had been secured conditionally as a single offering. In a short time more than the sum solicited was reached. The \$20,000 subscription was then announced as coming from Rev. J. G. Miller, an elderly supernumerary of the Nebraska Conference. who was called to the platform and received with great applause by the enthusiastic congregation.

SITIES .. The recent bitter opposition of the English clergy to the admission of women to honor examinations at Oxford has justified the somewhat sarto a permanent place in the "pullback" party. Their conduct on this subject has called forth a two-column from Mrs. Henry Fawcett, the wife of the English Postmaster-General, who shows them little mercy. In the

course of her letter she tells a capital story respecting one of the Cambridge examinations, for the truth of which she vouches : One gentleman, an examiner in a

tripos examination, was opposed to the whole movement, and at the time women had no right to be exam. ined; they could only be examined through the grace and kindness of will find temporary homes in the the examiners. A Newnham student had asked to be examined, and the gentleman referred to, finding that he was the only one of the four examiners who objected to admit her, kindly waived his own objections, and consented to look over her papers. Whether from accident or design I know not, but the lady did not sign her papers with her Christian name in full-she only put the initial before her surname, which I shall now call Glover. After looking over all the papers, the examiners met, and the gentleman who had at first declined to examine Miss Glover said to his brother examiners: 'I don't know what result you have come to, but my best man is Glover.' This incident had considerable effect at the time in dispelling the prejudice against ad-

> On the advance steps taken by the Methodist colleges of the Dominion in relation to the education of women, the public memory seems strangely at fault. The names of three ladies who took medical degrees at Queen's College, Kingston, last month, have been published far and near, as those of the first lady graduates in medicine in Canada. and yet, it should be known, that honor belongs to Miss Augusta Stowe, whose name appears in the list of medical graduates at Victoria University, Cobourg, on the 17th of May, 1883-a year earlier. And, in spite of all that has been said again and again in regard to the early action of Mount Allison in this direction, "New Brunswick" found it necessary to Chronicle of this city : Many of your readers know that Principal Grant. of Queen's Uiversity, Toronto, is not the "first dignitary" who has conferred degrees upon ladies in Canada. But, for the benefit of those who, like your correspondent, seem astonishingly ignorant of what is going on in neighboring colleges, allow me to say that Dr. Inch, of Mount Allison College, Sackville, has this honor, having several years ago conferred upon Miss Lockhart the degree of Bachelor of Science. and later, upon Miss Hattie Stewart, artalso carried off honors which we are confident her class-brothers did not "purposely allow" her to win, but which they were proud to see her

cent of their salaries toward a fund to be applied to aid those whose salaries are less than one thousand dollars. This example, the bishop suggests, would also stimulate the laity to making better provision for their ministers.

It is perhaps not surprising that some of the editors of our local papers occasionally "mix" matters relating to Methodism. One city paper recently stated that the Methodists and Presbyterians of the United States were preparing to unite. The parties coquetting are not the larger bodies. but the Methodist Protestant Church. a comparatively small body, and the Cumberland Presbyterian Church, whose delegates were not admitted to the last Pan-Presbyterian Council, because their Presbyterianism was so dimly defined. It was the Methodist Protestant General Conference, now in session at Baltimore, which refused to strike from the discipline the clause permitting the choice by the candidate of the mode of baptism, or to make any change in the prescribed marriage ceremony. The writer of this note had a narrow escape from being late at church on Sunday morning, in consequence of having taken up Miss Gordon Cumming's "At Home in Fiji." All Methodists should read a volume which tells the story of one of the most successful missions ever undertaken by our own or any other section of the Church. In an article copied on our first page, from the London Watchman, comment is passed upon a letter from Ontario in which an Episcopal minister says: "Take two neighbouring farmers, each of them having, say, 200 acres well cultivated, and a comfortable, well furnished house, acres and house all long paid for. One is a Methodist, the other a Churchman. The former gives ungrudgingly his \$25 a year as subscription to the minister's stipend, the Chnrchman gives \$5 towards that of his clergyman. To his mission fund the Methodist at once gives \$5, the Churchman \$1." Is it thus in all cases and in all parts of the Dominion?
