EDITORIAL NOTES.

There was much sorrow in the old Spanish city of Coronna last week, when a shattered regiment of three hundred men landed, home from Cuba. Four years ago they had gone out, a gallant regiment of 1,400 strong, young men of the best families in Coronna. The city of Coronna turned out to welcome the remnant, and "the sounds of joy and grief from her people wildly rose."

One of those frightful calamities which are more frequent in the Alps countries than here in Canada, occurred yesterday at the station of Glacier House, a beautiful spot, midway between Donald and Revelstoke, B. C., on the Canadian Pacific Railway. A snow slide carried away the round house, killing seven men and maiming others. A fearful storm has cut off communication with the place.

Moscow, Jan. 31.—The famine in Persia is growing more desperate, and the Shah, alarmed for his personal safety, has increased his bodyguard. In and around Tabriz, in the northwestern neck of Persia, between Turkey in Asia and the Caspian Sea, the famine-stricken inhabitants have taken to pillage and highway robbery. They have besieged the municipal authorities of Tabriz, clamoring for bread. According to the latest advices received here, the police of Tabriz are powerless to put down the insurrection, and the Christians resident in Persia are careful of a general massacre.

# Stick Out YOUR TONGUE!

What for?  
 Because it may save your life!  
 How?  
 It is the barometer that indicates the state of your health by its shape, coatings and colors.  
 For example?  
 Well, a pointed tongue indicates irritation and disorder in the stomach and bowels.  
 The full broad tongue shows want of proper digestive action.  
 The dry, pinched tongue is the tongue of acute disease.  
 The fissure tongue proves inflammatory action of the kidneys.  
 A dry tongue is evidence that the stomach and intestines cannot do much digestive work.  
 Coating of the tongue is the result of imtemperate eating and drinking. The Liver is deranged.  
 The broad, pallid tongue shows a want of alkaline elements in the blood. It is a danger signal.  
 The deep red tongue, generally dry, shows acid.  
 Dryness always indicates nervousness, and diseases of the nerve centres.  
 Extreme moisture shows the reverse.

Be your own doctor. Examine your tongue. It will show you whether or not you are in condition to stand spring weather changes.  
 If you are not almost any disease may strike you down. Get in condition at once by using the latest and best spring medicine

## THREE YEARS IN BED

From Kidney Disease—Although a Man of Three-Score and Ten, Dr. Chase's Kidney-Liver Pills Gave Him Back Perfect Health.

This is to certify that I was sick in bed the most of the time for three years with kidney disease. I took several boxes of pills—different kinds—and a great many other kinds of patent medicines; besides that I was under treatment by four different doctors during the time and not able to work. I began to take Dr. Chase's Kidney-Liver Pills, and since that time have been working every day although a man nearly 70 years of age. Dr. Chase's Kidney-Liver Pills have cured me.

**JAMES SIMPSON,**

The boy had but a few days' life before him according to all human expectations.
