Wilful rejectors of the privilege we are assured, will die the Second Death; while those who accept the Saviour's proposals will come under helpful and disciplinary experiences that Jesus would accomplish this which will gradually lift them up, mentally, morally and physically, to perfection-to all that was lost for

them in Father Adam'a disobedience and its penalty, and all that was regained for them by the obedience of Jesus and the Divine arrangement of His Messianic Kingdom for the regeneration of the world. The begetting to a new birth will be in the mind-a covenant relationship with the Life-Giver. Nevertheless, there is a beautiful analogy, complete in every feature; for while Father Adam was designed to be the life-giver, or father, or generator of the race, Mother Eve was designed to be its nourisher, care-taker and instructor, to bring the race up to complete development. pect of collaboration with the Saviour in His great work of rescuing Adam and his race from the effects of Adamic sin and the death sentence! The Divine picture is very complete. While Adam was alone he did become a father, , God caused him to fall into a deep sleep, and from his side took Mother Eve to be his bride, his co-laborer, his jointheir in his inheritance, and his assistant in the work of generating the human family. So our Lord Jesus has not yet become a father. But He has gone into the deep sleep of death, His side has been wounded, and the first result is the gradual development during the past eighteen centuries, of a Bride-class. As Jesus passed from the human condition to the spiritual before He could be ready to be the Second Adam, so the Church class, as the New Creation,

is very different from the begetting provided for the world-regeneration, or rebegetting, to the human nature which Adam lost, but which Christ redeemed for the world. So also we have noted that the Church has a different Father. Jesus is not the Father, or Life-Giver, of this Divine life. He did not redeem it or secure it for anybody. He redeemed human nature and secured the right to regenerate the world to human nature.
