Boston Herald of Tuesday - Unless fishing captains accede to demands of the Fishermen's Union the schooner industry may be tied up March 1, and cost of fish thereby take a mighty upward leap. The fishermen ask that the vessels provide trawls and other gear instead of having to meet that expense themselves. A string of trawl costs about \$150. The fishermen say they are willing to keep the trawls in repair if their demand is granted. The Port Williams Women's Institute will meet on Thursday March 8th at 3 p. m. At the close of the meeting, Professor Loran Dewolfe, Tfuro, Director of Rural Science for Nova Scotia will give an address.
