OUR NATAL DAY.

During the past week our city has been on the move from Point Pleasant to the Dry Dock. The "Blake" and our "Natal Day" have pretty well occupied our attention.

The docking of the "Blake" was a grand success, and her inspection by citizens and country cousins as well as strangers from other lands was in every way satisfactory.

But our "Natal Day" was, owing to the weather, a most decided damper. Very much of the expenditure of the past week was for that day useless. Flour purchased at W. C. McDONALD'S, of the finest brand, Baking Powder—WOODILL'S best, Tea, Sugar and Butter from J. E. HILLS, with Sausage, Ham, etc., from COOK'S Corner, Crackers, Lime Juice and Fruit from FLINN'S, not to forget the choice Candies from FRED MAJORS, were all prepared for the inner man, woman and child, and of such, very little remains to-day to tell the tale; they have gone the way all such good things generally do.

But the Dry goods, of which so large a quantity had been purchased at the PEOPLE'S STORE, were a terrible failure, yet unlike the good things before mentioned they will live to shine another day, we expect, weather permitting, to see a good display at the Sailors' Review on Coronation Day. All the Crocker and Glassware purchased at HANCOCK'S is as good as when purchased, and the Millinery prepared by MRS. LAIDLAW was not allowed to see the light except to show to some friend who had dropped in. MRS. MANLY'S Dress Goods and Millinery for the same reason are as fresh as ever and will make a brilliant display when the time comes.

McMANUS & BUTLER, FRANK EDEN, and HARRY HART stood the strain of that wet day well, and in fact with fair treatment their success would have been perfect, but when small boys are allowed to navigate the gutters running with water, and young ladies leave their rubbers at home, none need be surprised if wet feet are the result. The remedy for such is a cup of SCHWARTZ'S Spice Tea and then to a comfortable bed purified by the H. L. WALLACE process.

C. N. HARTUNG is still selling at reduced rates and H. E. DIMOCK continues his special inducements. We do not wish our readers many happy returns of that day, but we hope to see fine weather on our next holiday.

A BAD CASE OF DYSPEPSIA.

HOW A WELL-KNOWN CITIZEN OF PICTOU WAS CURED OF THIS MISERABLE DISEASE.

Mr. Wm. Adamson, of Pictou, says: "I am very glad to add my testimony as to the marvellous efficiency of St. Lawrence Dyspepsia Powders and Bitters. Mine was a very bad case of Dyspepsia, and though I had tried nearly all the popular remedies recommended or guaranteed as cures for that disease, I received little or no benefit, and almost began to think there was no cure for me."

It was then I was induced to give these a trial, though I must confess that I had but little faith that they would benefit me. But the results were wonderful. The stomachic feelings that only those can know who have experienced the agonies of dyspepsia, completely left me after using but two packages of St. Lawrence Dyspepsia Powders, and now after finishing one package of St. Lawrence Bitters, I consider myself perfectly cured. I can now eat almost anything in the shape of food, and hardly know that I have a stomachic ailment.

Sold by H. W. Cameron, opposite Garrison Church, Brunswick Street, Halifax, and W. H. Stevens, Dartmouth.

The seaside hotel clerk was looking through his books to make out the bill of the departing guest, when the latter laid his wallet on the counter and asked the clerk whether he wanted any more.

"Wait until I've made out the bill, please," said the clerk haughtily.

"Oh, that's all right," said the guest reasonably. "I used to own a number resort hotel myself."—New York Recorder.

Some moonshiners in Pearson Co., N. C., whose whiskey had been seized by revenue officers, went masked to the jail in Roxboro, and forced Sheriff Puley to permit them to remove the liquor. After the recaptured whiskey had been placed upon a cart, they all shook hands with the sheriff, and leisurely marched away after the wagger.

A good suggestion has been made by a coin collector. It is that checks issued during any year shall have on them the head of the President in office at that time. They would thus serve as his historical reminders, as do the coins of ancient days.

If the quantity of soap used in a nation indicates its degree of cleanliness, the United States takes the cake. For every 100 pounds of soap used in the United States, England uses 83, Germany 83, France 85, Sweden 70, Italy 37, Bulgaria 86, and Mexico 27.

When the prime minister of the Chinese Emperor has a grudge against one of the nobles, he advises his royal treasurer to pay him a prolonged visit. This visit almost ruins him; for the emperor usually travels with a retinue of ten thousand persons. A week's visit is likely to drain the host's bank account, and drive him to the verge of lunacy.

The persecution of Jews has become so violent in Vienna that many shopkeepers of the Christian faith announce their creed on their signs. Recently pedestrians saw such signs as these over the business houses:—"I am a Christian Tradesman"; "Christian Brandy Shop"; "Christian Plumber"; "Christian Shoemaker"; "Christian Old Clothes Shop."
