## THE ELECTRIC LIGHTS

For the past few nights the citizens of Chatham have had a taste of what the pioneers of this city had to put up with in the early days, when street lights were an undreamed of quantity. The experience has not been a very pleasant one, especially when Chatham has an electric light plant and a committee of aldermen to look after it.

City Engineer Jones and Ald. Potter, chairman of the Electric Light Committee, have offered their explanation of the difficulty, and both are of the opinion that the only way out of the trouble is to purchase a new engine for the Electric Light station. Mr. Jones says that the present engine is far too small, and for the past few months it has been overworked. It has at last given out under the heavy strain, and will never be able to again supply sufficient power to run the plant.

The aldermen should do their thinking in the shortest possible time. If the present engine is unfit for the work, the sooner a new engine is purchased and installed, the better. The situation might as well be faced now as a couple of months from now, for it is imperative that the citizens of Chatham should have a satisfactory street light service.

A meeting of the Council will be held to-night, when the matter will come up for consideration. Let no time be lost in providing the ratepayers with what they are paying for, and what they have a perfect right to expect and receive.

## BETRAYAL OF TRUST

The announcement that a chartered bank in Ontario has been run into financial difficulties through the unfortunate speculations of the General Manager, is one not to be passed over lightly. It has been understood heretofore that the country to the south of us had a corner on all such happenings in financial public institutions, and the invasion of the frenzied financier into Canada comes with a rude shock to the people, who have learned to look with confidence upon the men placed in high positions of financial trust. The anxiety of the people directly interested is considerably reduced, with the assurance that the unfortunate bank has been absorbed by another of indisputable reliability, which will insure the payment of all liabilities. Once let the people's faith in incorporated financial institutions be shaken, and the future of Canada, as a nation, is doomed. The lesson should have its effect, and it is the sincere hope that the press will not again be called upon to record a similar failure.

## SAN JOSE SCALE.

The local Liberal organ is crying again. They think that Mr. Clements should not be so active in the interests of the farmers and the people of this riding, through advocating a remedy for the San Jose scale, and urging that the Government take immediate steps to relieve the afflicted farmers. They have themselves to blame. If Mr. McColl will persist in doing nothing, the work will have to be done by someone, and to him who does the work will fall the credit. Mr. McColl's unpopular move in advocating a wholesale slaughter of the fruit trees, is no doubt a hard pill for the farmer to swallow, but Mr. Clements should not be knocked because he offers a better line of argument than his unfortunate political opponent. Experts agree with Mr. Clements that the only way to deal with the San Jose scale is to inaugurate a systematic spraying of the trees. A solution for the spraying, which has been found to be quite successful, is: two pounds of white oil soap, with one gallon of crude petroleum to ten gallons of water, to be used at this season of the year; and lime and sulphur in equal parts to be used during the winter months. If Mr. Clements can secure aid from the Dominion Government, to assist the Provincial authorities in offering aid to the farmers who are anxious to rid their orchards of this pest, he will be doing a great service for his constituency.

## WORSE THAN TAMMANY.

The evidence of Pritchett exposes the details of a most sordid and villainous conspiracy. It shows that the purchase of votes and the switching of ballots were general in every by-election of Ontario for years past. It explains the return to Parliament of men who did not represent the people. It tells of counterfeit ballots, implicates some of the high and mighty politicians who affect the silk hat and the black frock coat, and explains how the will of the electors was made of no avail by the machinations of a gang of scoundrels gifted with devilish ingenuity, and unmoved by any conscientious scruples. It is a sorry story, a tale that will disgrace the name of Ontario for many a day, a tale at which every decent minded man, no matter how strong his political beliefs, should blush. Let no one hereafter in this country talk learnedly and with righteous anger of the political corruption of Tammany Hall. There is nothing in the United States that can smell worse than that heap of decomposing compost known as Ontario politics.—Toronto News, Independent.

The question of when the rural teacher's salaries will be increased in accordance with the bill passed at the last session of the Legislature, is causing a little uneasiness in some quarters. The increase commences with the year 1907, as will be seen by sub-section 4 of section 39, of the Act to amend the Public Schools Act, which says: "The sums so levied and collected by the council of the township shall, after the expiration of the present calendar year, be applied exclusively to teachers' salaries."

## LATE GRAPES DAMAGED.

Second Blow to Niagara Growers Means Thousand Tons Loss.  
St. Catharines, Oct. 13.—Heavy damage to grapes was done Thursday night by the severe black frost which visited the Niagara district.

It is estimated that there was about a fifth of the entire output of the peninsula still unpicked, being nearly a thousand tons, and a prominent dealer said yesterday morning that practically all of this was ruined by the frost. One grower is said to have lost 2,500 baskets alone.

This is a second blow to the hopes of the grape growers around here, who, when the Ontario Grape-Growing Co.'s wine-making plant was destroyed by fire last week, feared they would have nobody to take their grapes. However, the company had fitted up a temporary plant, and would have been prepared to take in most of the grapes, notwithstanding the fire.

Tomatoes which remained out are a total loss.

## FATALITY AT GODERICH.

Engine Falls Into River Bed—One Dead, Three Badly Hurt.

Goderich, Oct. 13.—One man was killed and three badly injured yesterday morning at the bridge the C. P. R. are constructing across the Matilda River here. A hoisting engine was on the bridge raising a girder when the engine, which was mounted on a flat car, fell over the river bed below.

Engineer Jack Madford, an Englishman, was knocked into the river, and received severe injuries on the head, which resulted in his death almost immediately.

Jack Campbell and D. Lynn of this town were badly hurt, the former having some ribs and an arm broken, and the latter an arm broken.

Harvey Gillman of Peterboro was hurt in the back, and is said to be the worst injured of the three.

Two other men who were on the engine saved themselves by jumping.

## Government Will Act.

Hamilton, Oct. 13.—At the meeting of the National Council of Women yesterday, Dr. Helen McMurchy, Toronto, announced that she was collecting statistics for the Ontario Government, with reference to feeble-minded women, and that the Government would take some action as soon as it found out how many there were.

The council was in turmoil during the afternoon over the question of the extension of the franchise to women. By a vote of 52 to 23, the members declared themselves in favor of political equality for the sexes.

## Another Student Football Victim.

Toronto, Oct. 13.—As the result of injuries received on Wednesday afternoon while practicing with the Varsity XII Rugby team, Glyn Ellis, eldest son of Matthew C. Ellis, vice-president of the E. W. Ellis Co., died yesterday afternoon at 4 o'clock. In the midst of play he came into collision with another player, and fainted shortly after. He died yesterday afternoon. As a result of Mr. Ellis' death the Athletic Association have cancelled the game with McGill to-day.

Savignac Goes to Trial.

Ottawa, Oct. 13.—Dr. J. A. Savignac, who is charged with the attempted murder of his wife and mother-in-law was up for a preliminary hearing yesterday, and was sent for trial at the court house beside in December. Both the injured women are better, and testified against the accused.

## ANNOUNCEMENTS.

(Supplied to The Planet by Press Agents.)  
At the Brisco Opera House—  
A Trip to the Highlands—Oct. 19.

A REMINDER OF "A COUNTRY GIRL."  
A grand musical treat will be for those who hear the romantic musical play "A Trip to the Highlands" Friday evening. Those who remember the beautiful production of "A Country Girl" will have a taste of its music again when Miss Rushman sings "Under the Deodar" in the first act of this new play. Miss Rushman has appeared in all the great Daily Theatre productions and has made this song famous throughout England and America. Her glorious contralto voice is as pure and as liquid as the air among the gulls of Scotland.

Just Practicing.  
Cunning little Mabel,  
Cute as she can be,  
Likes to wear her brand new dress  
And her Sunday hat, I guess,  
Out where all can see.  
Not a trait that's pretty,  
But you must allow  
To excuse the youngster—  
Grown folks showed her how.

Not a bit flirtatious  
The little dear,  
But she would not lose her breath  
Or be scared almost to death  
Should a man appear,  
She would smile serenely  
And would make a bow.  
Still, you could not blame her—  
Grown folks showed her how.

When she's grown up really,  
In a year or two,  
Practice she has had with men  
And will see her through.  
The men come flocking  
She will, I expect,

And they won't object.

Her Scream.  
"You told me

The Record For Him.  
"I can remember names, but not faces," explained the little man who seemed to think that this falling made him a superior person in some way.

"I had a friend," said the man who hadn't spoken before, "who was troubled that way. His case was the worst I ever heard of, and in addition he was very glib-minded. You don't have to believe it if you don't want to, but this is a fact. One day he was shaving himself, and, on looking at his face in the glass, he forgot where he had seen that man before."

Then the impression struck him that he was a barber, and as he put on the finishing touches he said softly, "Bay rum, air?"

The little man gasped, but he didn't try to come back.

Hard to Find Material.  
"I never knew him to do any hard work."

"I have."

"What?"

"Bragging about his family."

Getting Even.

And I simply cannot bear it.  
For it doesn't do a thing the livelong day

So to even up the matter  
I, as mad as any hatter,  
Mean to get a big machine that's guaranteed to talk.

Then the parrot and parrot

And the parrot will swear to beat  
the bird.

Then my bird adoring neighbor

New York, Oct. 11.—Butter, steady, unchanged; receipts, 6500.  
Eggs—Steady, unchanged; receipts, 12,700.

CATTLE MARKETS.  
TORONTO LIVE STOCK.  
Toronto, Oct. 11.—Receipts of live stock, it is safe to say, were the largest of any day this season, but not having got a detailed statement from the Grand Trunk, we cannot give a correct account, but will give one to-morrow.

Properly speaking there were none on the market good enough for shipping purposes, although there were two or three loads 1275 to 1300 lbs. each.

Best lots of butchers offered, sold at \$4.30 to \$4.60 and one single animal reached \$7.60 per cwt. George Bountree got a couple of loads of good butchers at \$4.25 to \$4.50, but we did not hear of any more straight runs out of the 500 or 600 cattle offered as butchers that brought anything like these prices. Medium \$3.85 to \$4.20; common cows, \$2.25 to \$2.50; good cows, \$3 to \$3.50; canners, \$1.25 to \$2 per cwt.

Feeders and Stockers.  
H. Murty reports a brisker trade in this line today and the market is pretty well cleaned out. More of the good kind would have sold. Mr. Murty bought about 250 head this week at following quotations: Best feeders, 1000 to 1100 lbs., at \$3.70 to \$4; best feeders, 900 to 1000 lbs., at \$3.50 to \$3.75; best feeders, 800 to 900 lbs., at \$3 to \$3.50; best steckers, 500 to 700 lbs., at \$2 to \$2.50; common stockers, \$2 to \$2.50.

There was a fair trade at steady prices for milch cows and forward springers. Prices ranged from \$25 to \$35 each on Wednesday and Thursday.

Veal Calves.  
Market steady to strong at \$3.50 to \$4 per cwt.

Sheep and Lambs.  
The run of sheep and lambs since Tuesday was large, about 2500, the quality of many of them not being good. The local butcher trade is kicking against having to buy so many run lambs. Notwithstanding all the drawbacks as to quality, etc., anything in the line of sheep and lambs sold readily. Lambs sold at \$3.50 to \$4.50 per cwt.; export ewes at \$4.25 to \$4.50; breeding ewes at \$4 to \$5 per cwt., the latter being for ewes one and two years old; thin old ewes sold at \$3.50 to \$4 per cwt.; feeding lambs sold at \$5 to \$6 per cwt. according to quality. Farmers are having to buy run lambs to feed, thereby it is hoped they will learn a lesson to take time next year to rear their lambs if they have any.

Hogs.  
The market for hogs is steady at \$6.50 for select and \$6.40 for lights and fats.

CHICAGO LIVE STOCK.  
Chicago, Oct. 11.—Cattle—Receipts, about 5000; fancy steers, \$6.75 to \$7.00. Hogs—Receipts, about 15,000; good to prime heavy, \$6.00 to \$6.65.

Sheep—Receipts, about 22,000; sheep, \$4.75 to \$5.25.

## BRITISH CATTLE MARKET.

London, Oct. 11.—Canadian cattle in the British markets are quoted at 10c to 11c per lb.; refrigerator beef, 8c to 9c per pound.

CHEESE MARKETS.  
Kingston, Oct. 11.—To-day 622 boxes were boarded at Frontenac Cheese Board, which 187 were white. The sales were 447 boxes at 12 1/2c. Next meeting Friday, Oct. 19.

Montreal, Oct. 11.—Nine hundred and fifty boxes of cheese registered; 700 boxes sold at 12 1/2c, balance at 12 1/4c. 840 cheese boarded. All sold at 12 1/2c. Board adjourned for two weeks.

No estate can make him rich that has a poor heart.
