The Pandora Thermometer

The thermometer on the Pandora range oven means precisely in accuracy to the cook what the square and compass mean to the draftsman. Without the square and compass the draftsman would have to work entirely by guess, just as you do without an accurate and reliable thermometer on your oven.

The Pandora thermometer reduces cooking to an exact science. You know precisely how much heat you have and what it will do in a given time. It is one of the small things which makes the Pandora so much different and better than common ranges.

OPINIONS OF
"JIM" HILL

Between United States And
Canada The Consummation

ABSOLUTE FREE TRADE

Chicago, Nov. 12.—James J. Hill was the guest of honor at the banquet of the Merchants' Club Saturday night, and delivered an extended address upon "Chicago's Interest in Reciprocity with Canada."

In the course of his remarks, Mr. Hill said:
"Canada no longer comes as a suppliant. There has been increasing irritation toward our attitude, and already the fact that our average tariff on dutiable articles coming from the Dominion to us is 49.83 per cent, while that levied by Canada on dutiable goods coming from the United States is 24.83 per cent, causes comment and suggests reprisals."

"Each year has seen lately a diminution in the Canadian desire for reciprocity. It is still possible, largely because of the downfall of the Chamberlain policy in Great Britain. Had that been ratified, had England really granted to the Colonies a preference in its markets for their products, based on reciprocal advantages, this country would have felt the double thrust in a decline of business with its greatest and its third greatest customers on two sides of the Atlantic."

"The defeat of the plan has not greatly disappointed the dependences, but it has assured them that for the present they must seek commercial alliances elsewhere. It is, perhaps, the time when reciprocity with Canada may be considered with more favor than it ever can be again. For no man who understands industrial conditions in Great Britain will believe that the issue raised by Chamberlain is permanently settled, or that unrest and distress there will not at some future time bring it again to the front with better prospect of success."
"The consummation most to be wished is the wiping out of custom houses along our northern border, together and the establishment there of absolute free trade. If the time be not ripe for that, the least that it demands is a policy and a measure of ample reciprocity."

PRE-ICTS ANNEXATION.

Goldwin Smith on Future of Canada and United States.

Philadelphia, Nov. 12.—In an interview with a North American correspondent in his home at Toronto, Goldwin Smith, said:

"The annexation of Canada to the United States will probably come, but none can say how soon or in just what way. Two countries so closely related by nature and so similarly populated can hardly forever remain apart. But great movements often progress unseen for a time you know, and so it is with this one."

"England has already withdrawn her military from the Dominion. And not long ago the Canadian Minister of Justice said in effect that Canada would be safe under the Monroe Doctrine. Suppose England were to go to war with some other nation, and that nation decided to attack Canada; could England defend it against the enemy? Would the United States defend it simply as a neighborly act, and, having done so, withdraw and hand it over to England again?"

"And do you consider the form of government of the United States the best for Canada?"

"I cannot say I consider your present form of government the best for yourselves. You are trying to run a Government without statesmen. Your President's Cabinet is made up of men selected at large, not men who are trained in the affairs they undertake to supervise. You have no trained statesmen."

Bonfire of 50,000 Tons of Coal.

Chicago, Nov. 12.—The docks of the Lehigh Valley Coal Co., situated at 190th street and Commercial avenue, were destroyed by fire Saturday, causing a damage estimated by the officers of the company at \$757,000. The fire originated in the basement of a coal house in which 50,000 tons of hard coal were stored. The coal is still burning, and it is expected that it will be several days before the fire is entirely extinguished.

Says Gun Accidentally Discharged While Resting on His Knee.

London, Nov. 12.—Charles Hodgins, a 16-year-old boy, is dead, as the result of a shooting accident on Saturday afternoon.

In company with a companion named Barker, he was hunting. He had shot a squirrel which fell on a brush heap, and, while searching for it, gave the gun over to Barker, who rested it across his knees, where it accidentally discharged and the bullet entered Hodgins' head, killing him instantly.

Barker claims that his finger was not on the trigger, and that the gun had discharged itself once before during the afternoon.

Do You Want to Know

What You Swallow?

There is a growing sentiment in this country in favor of MEDICINES OF KNOWN COMPOSITION. It is but natural that one should have some interest in the composition of that which he takes as food or medicine.

Recognizing this growing disposition of the public, and realizing that the fullest publicity can only add to the well-earned reputation of his medicines, Dr. R. V. Pierce, of Buffalo, N. Y., has "taken time by the forelock" as it were, and is publishing broadcast a list of all the ingredients entering into the composition of his "Golden Medical Discovery," the popular liver invigorator, stomach tonic, blood purifier and heart regulator; also of his "Favorite Prescription" for weak, over-worked, broken-down, nervous and invalid women.

This bold and outspoken movement on the part of Dr. Pierce, has, by showing exactly what his well-known medicines are composed of, completely disarmed all harping critics who have heretofore unjustly attacked them. A little pamphlet has been compiled, from the standard medical authorities of all the several schools of practice, showing the strongest endorsement by leading medical writers of the several ingredients which enter into Dr. Pierce's medicines. A copy of this little book is mailed free to any one desiring to learn more concerning the valuable, native, medicinal plants which enter into the composition of Dr. Pierce's medicines. Address Dr. Pierce as above.

Dr. Pierce's Pleasant Pellets are tiny, sugar-coated anti-bilious granules. They regulate and invigorate stomach, liver, and bowels. Do not become habit-forming, but cure constipation. One or two each day for active cathartics. Once tried always in favor.

STEAL MACHINE GUN.

Another Exploit of the Revolutionists at St. Petersburg.

St. Petersburg, Nov. 12.—The most recent exploit of the St. Petersburg revolutionists is the theft of a machine gun of the latest model, and a large supply of cartridges.

It is presumed that an expert gunner is involved, because all the necessary accessories were simultaneously abstracted from the armory.

The prefect of police has issued an order specially emphasizing the necessity of recapturing the gun.

Police Lured to Death.

Tiflis, Nov. 12.—A deafening bomb explosion occurred on Pethanski street at an early hour yesterday morning, while the police were making a search of an unoccupied house. The entire city was shaken. Three policemen were killed and four wounded. The police discovered some revolutionary proclamations under a bed in one of the rooms in this house. It is apparent that a snare had been arranged and the police lured into it. They received a tip to search this particular house.

Spy Turns "Red," Goes to Siberia.

St. Petersburg, Nov. 12.—The man named Schekter, who threw the bomb at Police Captain Samsonoff of Biysk, was convicted Saturday and sentenced to ten years at hard labor in Siberia. The prisoner, who is a mere youth, testified that he entered the terrorist organization as a spy, at the instigation of his party in 1904, and served the police faithfully for two years. But he became converted to the theories of the revolutionists and determined to expiate his treachery by killing Capt. Samsonoff.

HAMILTON CAR STRIKE.

Company Has Done Its Best—Will Hire New Employees.

Hamilton, Nov. 12.—President Gibson of the Cataract Power Co. has handed out the company's side of the street railway strike. The statement declares that the strike was not brought on by the company in any true sense, that the company has been endeavoring in good faith to live up to the terms of the award, and that the men wanted the citizens to believe they had a grievance when they have no grievance. East from Port Arthur, with the exception of the Toronto Street Railway, men were receiving no higher wages than in Hamilton.

The statement concluded with the following: "The company has endeavored to show the Street Railway union all possible consideration, but must refuse to allow the union to take full control of the company's affairs. Having voluntarily disconnected themselves from the company's service, the company now suggests that they find employment somewhere else, and that the company get a fair opportunity to serve the citizens and public."

Mayor Biggar is still trying to secure a settlement, and the Ontario railway and municipal board will be at the job this morning. The city is bringing the case before the board.

BROKEN RAIL CAUSES WRECK.

One Dead and Many Hurt, Some Perhaps Fatally.

Blanchester, Ohio, Nov. 12.—A wreck on the Baltimore and Ohio Southwestern road Saturday resulted in the death of one man and the injury of 20 other persons, six miles west of here. Fifteen of the injured were taken to Cincinnati, and some may die.

Passenger train No. 5 struck a broken rail. The engine, passenger and baggage cars passed over safely, but five coaches were derailed, turned over and rolled down the bank.

Three little children of one family were injured, one having its legs crushed. All the crew escaped except Conductor Graham, who was slightly injured.

Canal to Lake Champlain.

Montreal, Nov. 12.—A canal may be built between Lake Champlain and Montreal. C. F. S. Smith of New York, who is at the head of a syndicate, is petitioning the Canadian Waterways Commission for the endorsement of a plan for the building of the new canal. The plan is to eventually reach the Hudson River, and in that manner have a direct waterway from Montreal to New York.

The Meanest of Thiefs.

New York, Nov. 12.—Probably the meanest and most despicable theft that has taken place about New York occurred Saturday night when the bronze tablet on the monument erected in Lutheran Cemetery on the outskirts of Brooklyn to the memory of the victims of the burning of the steamer General Slocum, was stolen. The cost of the tablet was about \$450.

Reps. Want Recount.

New York, Nov. 12.—In view of the differences in the vote for Lieutenant-governor reported by Republican leaders, application will be made in the Supreme Court on Monday by lawyers for the Republican candidates on the state ticket to show cause why the void and protested ballots should not be counted.

Mr. Cockburn a Witness.

Toronto, Nov. 12.—President Cockburn and the other directors of the Ontario Bank are to be subpoenaed to give evidence before Magistrate Denison. Their examination on the stand will probably begin this week.

Fatal Gun Accident.

Brandon, Man., Nov. 12.—A fatal gunning accident occurred here Saturday afternoon, when Harold Gunn-lanson, aged 11 years, was instantly killed by his companion's rifle being discharged in his face.

ZONE CENTRE.

Hallowe'en passed off quietly at the Centre.

The season for quail shooting opened Friday, November 2nd, and by the sound of the guns, the poor little birds must be scattering.

A birthday party is to be given by Miss Elsie McPherson, on Monday next.

Masters Willie and Forest Gordon gave a Hallowe'en party to about thirty of their little schoolmates. The little folks went home well pleased with their evening's sport.

Messrs. Edward Randall and Ed. Golding, of Bothwell, spent Friday,

Nov. the 2nd, shooting with Mr. Geo. Lidster. We would judge by the way they were loaded with quail, as they wended their way home in the evening, that the little birds must be plentiful.

Mr. McCallum, of Cashmere, called on friends here this week.

A few from here attended the hot fowl supper given by the Ladies of the Methodist Church, Bothwell, on Monday evening last.

Mr. and Mrs. Bedford were the guests of J. W. Vanhorn last Sunday.

The unexpected news of the death of Mr. Robert Burr, who has been in the far west for some time, was received here last week. Mr. Burr was well known here.
