

THE ACADIAN.

WOLFVILLE, N. S., JULY 19, 1918

No Place for Loafers.

Loafers and merely nominal workers of the North American Continent have fallen upon evil days.

The Provost Marshal has defined productive and non-productive occupations and there is no escape for those who cannot be classed among the productive workers if they are of age.

First, persons engaged in the serving of food and drink or either in public places, including hotels and social clubs.

Second, passenger elevator operators, attendants, footmen, carriage drivers and other attendants in clubs, hotels, stores, opera houses, office buildings and bath-houses.

Third, persons including waiters and their attendants engaged and occupied in connection with games, sports and amusements, except actual performers in legitimate concerts and operas and theatrical performers.

Fourth, persons employed in domestic service.

Fifth, sales clerks and other clerks employed in stores and other mercantile establishments.

If a man of draft age registered in due course and, without his selection for the draft he is not employed in productive occupation, or if he is partially or completely, he must hold himself on immediate call for the army.

The regulation is applicable to idle registrants or gamblers of all descriptions and employees of race tracks and bucket shops, to fortune-tellers, clairvoyants, palmists and people of such vocations.

The Board of Appeal so judges, idlers may have their deferred classification withdrawn and their names will be reported to the Adjutant General of the State for military service.

The only excuses for idleness and non-productive employment on the part of a man of military age are set down as sickness, reasonable vacation, lack of reasonable opportunity for employment, temporary absence from regular employment, not to exceed one week, unless such are habitual and frequent or domestic circumstances involving hardship to dependents if a change of employment were ordered.

Canada's anti-loafing law has been in operation since early in April and every male person over sixteen and under sixty years of age, unless a bona fide student, or physically unfit, or reasonably unable to find employment, must be engaged in some useful occupation.

In Canada the most essential industry at the present time is agriculture. Food production is a necessity of the present moment.

Canada's anti-loafing law has been in operation since early in April and every male person over sixteen and under sixty years of age, unless a bona fide student, or physically unfit, or reasonably unable to find employment, must be engaged in some useful occupation.

It is Time to Spray Potatoes.

By G. E. Sanders Dominion Entomological Laboratory, Annapolis Royal, N. S.

The U. S. Government report is out which shows that the state of Maine has only 112,000 acres in potatoes this year, a falling off of 28,000 acres from 1917.

If there is a full bumper crop of potatoes this year there will probably be enough to go round.

The test on the Annapolis Royal School plot last year showed that the unsprayed plot gave 75 bushels per acre while the sprayed plot gave 110 bushels per acre.

Boardaux made according to the 44-40 formula to which any of the common poisons may be added with safety in the standard potato spray.

I have been in France for fifteen months steady now and I am getting to be quite an 'old timer' as the troops say.

Well, I think I had better cease my ramblings and close.

Yours sincerely, C. A. WEST, No. 125 7622 Gun C. West, 9th C. S. B.

Labor Saving and Labor Saving Devices should include the Rotary Mimeograph which does work with only one worker that ordinarily would take 5 or 6 people.

A MILNE FRASER, Halifax, N. S.

Baby's Own Tablets Always Kept on Hand.

Mrs. Ernest B. Adkins, Broton, Sask., writes:—I have used Baby's Own Tablets with great success for four years and always keep a box on hand.

From the Front.

The following letter was received by a Wolfville lady recently from one of Wolfville's brave boys at the front.

France, June 16th, 1918. DEAR MAM—As long ago as February I received a lovely parcel from yourself, Mrs. B. and children.

My time is pretty well taken up at the present, as is everybody's out here.

I enjoy the work of a signaller very much although a greater risk is run by them than a gunnery officer of the other jobs.

I had the unpleasant experience of being in a poisonous gas bombardment for several hours last summer.

Bicycles and Motorcycles—We will give the agency for Cleveland and Halifax. Please your order early.

NOW IS THE TIME! TO PRESERVE STRAWBERRIES.

We can supply you with berries by the crate. Also Fruit Jars in all sizes. 'Fity-Em,' all rubber rings. Extra Glass Tops for Perfect Seal Jars. Paragon in lb. pkgs.

Come to Wolfville Saturday night and hear some good Band music. The Scout Band has an extra good program, so come and bring the kiddies, you're sure to have a good time.

R. E. HARRIS & SONS.

Two Telephones: 115—11 and 16. Retail Licence, No. 5—308. Wholesale Licence, No. 12—13.

It is one thing—dead and if the gas mask goes wrong or you do not get it on quick enough it is certainly pretty serious.

We are having elegant weather but it's just a shade too warm for comfort.

However, it is much nicer than fall, for that means mud and you can imagine getting around through mud that is an average depth of two feet.

I have been in France for fifteen months steady now and I am getting to be quite an 'old timer' as the troops say.

Well, I think I had better cease my ramblings and close.

Yours sincerely, C. A. WEST, No. 125 7622 Gun C. West, 9th C. S. B.
