GRAY CREPE DE CHINE EX-PLOITS SMART NOTES

The day dress above is a copy of a recent import, and it exploits two new notes which are interesting.

The attached scarf collar is this season's version of the modish separate scarf of last season. The wide hemstitching which trims the dress is another new trimming note.

The woman who is handy with her needle can make this dress at home. It would be lovely in any soft shade of crepe de chine.

NEW MINISTER INDUCTED AT CANARD

The induction of Rev. L. P. Archibald, formerly of Rose Bay, Lunenburg county, to the pastorate of Upper Canard Pres-byterian church, was held on Friday evening, April 24. The attendance was a large and representative one, the pas-tors and members of other congrega-tions of the surrounding towns being present. Rev. R. W. Anglin, acting moderator in the absence of Professor J. M. Shaw, of Halifax, presided, with Fraser, of Halifax. A full choir, with Mrs. George Bowser leader and Mrs. Clarke Ross organist, led the singing. A male quartette, consisting of Messrs. Burpee McGowan, William Burbridge, Everett Lyons, Hardy Vaughan, rendered several selections, which were much appreciated.

Dr. A. L. Fraser delivered the sermon, taking for his text Corinthians 7: 29, "The Time is Short."

Rev. A. A. McLeod of United church, Kentville, then narrated the events leading up to the call and Mr. Archibald was then officially and formally inducted into the pastorate of the church and received the right hand of fellowship. Dr Fraser gave the charge to the minister.

The charge to the congregation was given by Rev. A. A. McLeod, pastor of the United church, Kentville, who re-ferred to the atmosphere in which Rev. L. P. Archibald had grown up, his father, the late Dr. Archibald, having been at one time moderator of the Maritime Synod. Thus he could more easily cope with church problems when experience and familiarity with them were linked together.

Dr. Hemmeon of Wolfville United church, Dr. Hodgson of Canning Metho-dist church, and Rev. G. D. Hudson of the First Cornwallis Baptist church, brought greetings from their respective congregations. A letter was read from the former beloved pastor, Rev. G. A. Logan, conveying every blessing to Rev. L. P. Archibald and the church in the work of the Lord. At the close of the service an opportunity was afforded those present to meet with the pastor, Rev. L. P. Archibald, and Mrs. Archi-bald.

A SPRING WARNING

Now that the roads are open for motor traffic those who own motor cars are receiving some oft-repeated but ever-necessary counsel concerning care in the operation of their cars, in order that accidents may be avoided and also that the roads may be protected from un-necessarily destructive traffic.

The President of the Ontario Motor League has just issued an appeal in-tended for both motorists and pedestri-ans, urging greater care on the part of drivers and greater caution on the part of those on foot. He says:

"Let the driver remember that he is in charge of a vehicle which, in the ab-sence of constant care, is very likely to cause serious or even fatal injury to some one. I appeal therefore, to every driver of a motor vehicle to make safe

and sane driving a personal duty. Chil-dren should be a subject of special care. We know they do not have the fore-thought for their own safety that their elders should have.

"Let the pedestrians remember that even the most careful driver cannot al-ways avoid injury to those who step, heedless of their own safety, into the line of vehicular traffic. It is only by concerted action on the part of both driver and pedestrian that accidents can be reduced to a minimum.

"I would appeal also to every dealer in motor cars to make it a personal duty to see that no beginner drives a motor car on the highway until he is thoroughly instructed and competent to drive with-out endangering the safety of others."

He reminds the owners of motor cars that they have a great deal of money in-vested in the highways, and that there-fore they have a special interest in their conservation. He advises them that self-interest as well as a decent regard for the public welfare should make them careful and give the roads a chance. "Two of the surest ways to destroy your investment," he says, "are to over-load your trucks and to drive your cars too fast. The cost of maintenance and reconstruction will fall largely upon you."

CULTIVATING STRAWBERRIES

Directions for cultivating strawberries may be summarized as follows: The

ground should be well drained if wet, plowed deeply, and enriched as for gar-den crops. The plants may stand as close as fifteen inches apart each way, and hill cultivation is preferable. To ob-tain large, highly flavored fruit, pinch off the runners as fast as they appear, repeating the operation as often as neces-sary during the growing season. In the meantime, the ground should be fre-quently stirred.

Where winter weather is severe, a covering of leaves, straw, or other litter is necessary. It should be placed over the plants as soon as the ground freezes

and should be removed in the spring as soon as the plants begin to grow. Be-fore the plants begin to ripen, the ground should be mulched with straw to keep the fruit clean and to prevent the ground from baking. A well-managed bed should give two full crops and should then be turned under, a new one having been prepared in the meantime to take its place.
