### An Alien Enemy

"Mr. Schmidt," complained Mrs. Terrell, "I ordered a dozen fresh eggs."

"Chass?" inquired the grocer.

"Haf dey not come already?"

"You sent me nine eggs," declared the irate customer, "and three poison gas bombs."

## Hacking Coughs

For hacking coughs—the kind that make your throat sore and your head ache, that rob you of your sleep until you are so run down that you are in danger of pneumonia or consumption—take

Chamberlain's Cough Remedy. It soothes and heals the inflamed "croup" passages, stops the tickling in the throat, and by its tonic effects helps you to throw off the disease.

Chamberlain's is quite different from the ordinary cough medicine, for it not only soothes but also heals, restores the affected parts to a healthy condition. I believe it is the best and most reliable preparation ever produced for coughs and colds.

Yours for Health,  
—Jimmy Chamberlain

## UNITED FARMERS IN SESSION

### Conservative Member Resents Criticism of Agricultural Department

The executive committee from the United Agricultural Societies of New Brunswick met in St. John last week with president C. M. Shaw in the chair. The meeting was very lively and considerable cross firing took place between different members.

A warm discussion took place over a section in the secretary's minutes which M. A. McLeod, of Sussex, and others claimed was introduced in an attempt to bring politics into the association.

The section complained of related to an interview which the late Secretary Wilson had with the minister of agriculture, Mr. Wilson stated that he had asked the minister to retain H. B. Durost on the staff of the department.

The request was refused, and as an alternative proposition the minister was asked if a member would be provided to do the work for the association formerly done by Mr. Durost. He claimed this was also refused on the ground that the fertilizer interests were not to be given a hold on the department of agriculture. Mr. Wilson said that Messrs. Reek and McLeod were present when this interview took place Mr. McLeod deprecated any attempt to bring politics into the affairs of the association and said that Mr. Reek was an able official who had always made it a point to do his duty without bringing party politics into his work.

J. P. McKenna, editor of the Maritime Farmer, who was present said, "I am a Conservative and have nothing in common with the present government, but in Mr. Reek we have a man worthy of every consideration. He is a man who will do something and I will stand behind him."

Mr. McKenna stated that he would do the work for \$500, that Mr. Durost was charging \$3,000 for, and that he could supply the farmers with fertilizer at a much lower figure than they were now paying Mr. Durost.

Studholm and Sussex agricultural society was, he said, opposed to having Mr. Durost act in handling fertilizer for them and the matter was not a political but business transaction.

Mr. Durost said that he was doing all the business that he wanted to and did not care whether he handled the association's business or not.

Mr. Durost accused some of the members of introducing politics and Isaac Carpenter, ex-M. P. P., of Wickham told him that he (Durost) himself had brought politics into the meeting. Then Mr. Durost made a rather warm attack on A. R. Wetmore of Clifton, claiming that he had no right to be a delegate.

Mr. McKenna characterized the attack as "disgraceful." It was stated that several agricultural societies had not received notices to attend the meeting. Mr. McKenna claimed that if any members had a right to be present and had not received notice the executive had no right to do business and its acts would be illegal. Mr. McKenna also claimed that there had never been a proper audit made of the affairs of the association, and he said that he had come to the meeting to ventilate matters. He would not say that the work had been improperly done but a chartered accountants should have been secured to do it.

President Shaw appealed to the executive to get to get to work, and the financial report was received. It showed the amount received during the year to be \$1,161.35 and expenditures \$404.19 leaving a balance on hand of \$757.16.

It was agreed to hold the annual meetings in the future at

Fredericton instead of St. John, as it was claimed that the former was the more central place and a by law was passed allowing the directors \$3 per day and expenses for attending meetings.

The directors were elected for the ensuing year as follows: Stanley Wilson, C. M. Shaw, Wm. H. Moore, J. P. McKenna, Roy McCain, Boyd K. Merritt, and R. J. Haggard.

The directors then withdrew and elected officers as follows: President, W. H. Moore, Scotch Lake; vice-president, C. M. Shaw, Hartland; secretary-treasurer, J. P. McKenna, Sussex; purchasing committee, C. M. Shaw, W. H. Moore and Roy McCain.

## IF YOUR CHILD IS CROSS, FEVERISH, CONSTIPATED

Look, Mother! If tongue is coated, cleanses little bowels with "California Syrup of Figs."

Mothers can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again.

Sick children needn't be coaxed to take this harmless "fruit laxative." Millions of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure.

Ask your druggist for a bottle of "California Syrup of Figs," which contains directions for babies, children, of all ages and for grown-ups.

### Tweedie-Lunn

A very pretty home wedding was celebrated at the residence of Mr. and Mrs. Charles Lunn, Summerfield on Nov. 7 when their daughter, Lena A., was united in marriage to Guy E. Tweedie of Middle Greenfield. The bride looked very pretty in a becoming costume of white. The ceremony was performed by Rev. F. A. Wightman beneath an arch of flowers, and in the presence of a very large number of guests.

After the marriage all sat down to an elaborate wedding supper. The bride and groom were both very popular and their gifts were numerous and costly. All wish them a happy future.

## TAKES OFF DANDRUFF, HAIR STOPS FALLING

Save your Hair! Get a small bottle of Danderine right now—Also stops itching scalp.

Thin, brittle, colorless and scraggy hair is sure evidence of a neglected scalp; of dandruff—that awful scourge. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair.

Get a small bottle of Knowlton's Danderine from any drug store. You surely can have beautiful hair and lots of it if you will just try a little Danderine. Save your hair! Try it!

### New Idea in Home Planning

"Our architects are gradually learning that after all it is said and done the thing worth while is to make a home that is attractive, in which people will want to live and to which they will return with delight." So says Louis C. Tiffany, founder of the Tiffany Studios, in the December issue of Harper's Bazar.

Mr. Tiffany, himself, has a very beautiful estate at Cold Spring Harbor, New York, and from his description of it in this number of Harper's Bazar, you can gain quite a little valuable information on how to beautify and make attractive your home.

## GIRLS! WHITEN YOUR SKIN WITH LEMON JUICE

Make a beauty lotion for a few cents to remove tan, freckles, sallowness.

Your grocer has the lemons and any drug store or toilet counter will supply you with three ounces of orchard white for a few cents. Squeeze the juice of two fresh lemons into a bottle, then put in the orchard white and shake well. This makes a quarter pint of the very best lemon skin whitener and complexion beautifier known. Massage this fruit-grant, creamy lotion daily into the face, neck, arms and hands and just see how freckles, tan, sallowness, redness and roughness disappear and how smooth, soft and clear the skin becomes. Yes! It is harmless, and the beautiful results will surprise you.

### The Egg-Profiteers.

Millions of dozens of eggs have been stored by profiteers who now find they cannot export them, and they have had the nerve to ask the food-control department to help them advertise these eggs and urge the people to eat eggs instead of bacon. That is to say, being unable to reap the enormous profits they anticipated by exporting eggs, they now want to wring those profits out of the people of Canada, and they ask the government to help them do it. They know perfectly well they have only to reduce the price to a reasonable figure and throw the eggs on the market and they will be snapped up in a twinkling by the consumers; but to do that would be to relinquish some of the profits.

Of course the food control department will give them no comfort. Indeed it would be serving them right if it fixed a reasonable maximum price and invited them to sell. It is time an example was made of some of the gentry who are still trying to fatten themselves on the war.

While the food controller is urging the people to save meat and wheat, an excellent substitute is being held by profiteers at a prohibitive price. Now that the government knows about it we have right to expect prompt action. Attention should also be directed to the stocks of butter and potatoes in dealers and producers' hands.—Times

## Government Ownership of Railways Inevitable

A decade ago the president of the Atchafalaya, Topeka and Santa Fe Railway, E. P. Ripley, said: "I am thoroughly convinced that I shall live to see the railroads of the country in the control of the government." He was then sixty-two. "The signs may not be plain to you but they are to me."

This remark was made to "Boersianer," who, in his article on the subject of the future of the railroads, which appears in Hearst's Magazine for December, draws significant conclusions based on a searching analysis of the whole range of events, affecting the financial status of the United States since the beginning of the war in Europe.

### Honor or Bourassa?

The Canadian casualties in the battle of Passchendaele were about eleven thousand. This means another large draft upon the fast thinning reserves in England.

What would the men in the trenches say, knowing as they do that Germany is raising large additional forces from the Russian to the Flanders front, if they were told there was a possibility of their being deserted by Canada, and no further assistance given them?

This is a question every Laurier Liberal should ask himself or herself, for the Henri Bourassa policy means just that and nothing else. It means withholding assistance and leaving the Canadian divisions to dwindle and die. Gen. Mewburn plans to send over twelve thousand men in January. If union government loses, these reinforcements will not be sent. The Laurier policy would

take Canada out of the war, and any assertion to the contrary is misleading and deceptive. Maritime province Liberals who vote for Laurier candidates will be turning their backs on the men in the trenches. They may deny that they intend to do so, but that will be the effect of their action.

## Child Was Nervous, Irritable, Tired Out

She Had No Appetite, and Her Complexion Was Pale and Sallow.

How many parents realize the strain which going to school means to the child who is naturally nervous and of delicate health?

You see them come from the schools daily with pale faces, many wearing glasses, and looking tired and worn. At home they are irritable, and do not sleep well at night, and are upset by a little extra excitement. If they are to grow to healthy manhood and womanhood their systems must have attention now. Such treatment as Dr. Chase's Nerve Food does to school children in this condition. We are constantly receiving letters from grateful parents telling what the Nerve Food has done for their children. This one is a fair sample:

Mrs. Stephen Hartman, Italy Cross, Lunenburg Co., N.S., writes: "My little sister at eleven years of age became nervous, irritable and seemed all tired out. She had no appetite,

was lifeless and drowsy and her complexion grew pale and sallow. Finally she had to keep her bed and have somebody with her all the time. She was afraid of everything, would get excited and tremble all the bed would shake. As she seemed to be getting worse under the doctor's treatment, mother decided to try Dr. Chase's Nerve Food. After she had used about four boxes, improvement was noticeable and it was wonderful to see how much lighter and stronger she grew week by week. She used ten boxes altogether and they cured her. She got fat and rosy and went to school every day with an ambition that she never seemed to have before. I do not hesitate to recommend Dr. Chase's Nerve Food to anyone, for it was indeed wonderful what it did for her."
