A gossip is never willing to repeat unkind remarks to your face. **Forest Exhaustion a Danger.**

The Department of Agriculture says that the crux of timber depletion is the exhaustion, or partial exhaustion, of the forests that are most available to the bulk of the population of the country. One-half of the lumber remaining in continental United States is in three states, bordering on the Pacific ocean.

**Farmer's Wife Gains Fifteen Pounds and Looks So Well Friends Hardly Know Her**

"Tanlac has been such a wonderful blessing to my wife that I shall praise it as long as I live," declared Atherton Titus, a well-known and prosperous farmer living at Perry's Point, N. B.

"She certainly was in a terrible condition before taking Tanlac. Why, for ten years her stomach was so bad she didn't dare eat anything like pork or pancakes, and even oatmeal would sour and cause gas to form till she was a mere shadow of her former self, and she became so weak she could hardly do a thing about the house. Rheumatism set in and the pain in her arms and legs were so awful it kept her awake for hours at night. She tried nearly everything in the way of medicine and treatment, but never got anything more than temporary relief until she tried Tanlac.

"In my life I've never seen anything to equal the way this medicine got rid of her troubles, and it has built her up to where she is entirely a different woman. She can now eat anything and is never troubled in the last with sourness or gas. She has gained all of fifteen pounds in weight and has improved in appearance so that her friends hardly know her. The rheumatism has practically disappeared and she sleeps like a child the whole night through. She works all day without getting tired and feels as well and strong as ever in her life."

**CLOVERDALE NOTES**
