### PUBLIC MEETING IN OPERA HOUSE

Members of Teachers Institute Making Necessary Arrangements

#### MANUAL TRAINING.

This Branch Will be Ably Presented by T. B. Kidner, Director for N. B.

The Northumberland Teachers' Institute meets here on Thursday and Friday of this week and it is expected a large number of teachers will attend.

Arrangements have been made for the holding of a public meeting in the Opera House Thursday evening when Mr. T. B. Kidner, Director of Manual Training of New Brunswick will deliver an address on this interesting department of present day education. All citizens are invited to attend as this address will, we believe, open the agitation for the establishment of a manual training class in Newcastle.

The Transfer of the William Richards Company property on the Miramichi, which was to have been made between the 15th and 20th of last month, has not taken place as yet and so far as can be learned the deal has been tied up owing to some inquiry which has been in progress concerning the title to some of the property.

Mr. McMullin of St. John, factory inspector, was in town last week. He had been inspecting the mills and factories on the North Shore, visiting Campbellton, Dalhousie, Bathurst, Tracadie, Chatham and Newcastle. In conversation with the Advocate Mr. McMullin said he had visited all the mills and factories in this territory and he had been well received. This was a preliminary trip, principally to leave copies of the act and instruct owners what alterations would have to be made so that everything could be put in order for next seasons work.

The members of the Roman Catholic congregation of Richibucto last Sunday night, after vespers, on the eve of Father Bannon's departure for his new parish, Barnaby River presented him with an address and gold chalice. The French address was read by Mr. F. J. Robidoux, and the English address by Mr. A. E. O'Leary. Father Bannon replied at some length, both in English and French, stating that as parish priest of Richibucto he had endeavored to fulfil his duties to the best of his ability and without regard to nationality or race. Going away from Richibucto, where he had spent nearly twenty five years of his life as a priest, he would carry with him to his new field of labor the warmest and most pleasant recollections of the people of this town, and he would not forget them at Mass.—Richibucto Review.

Return From Miramichi Woods With Big Game

#### MANY BEARS

Season Well Above the Average and Hunters are Delighted

(Fredericton Herald)

Two distinguished sportsmen from Pennsylvania, passed through the city yesterday en route to the Northwest Miramichi, where they will hunt big game for a few weeks under the guidance of Mr. Arthur Pingle. They were Dr. Maurier of Shomakin, and Mr. Morris Williams, president of the Pennsylvania Coal Company of Philadelphia. While here they were entertained to a drive about the city by Mr. V. T. Chestnut.

Mr. Hallett, Penn., passed through the city a few days ago on his way home from a hunting trip to the Bald Mountain country. He secured a caribou, with antlers carrying twenty-seven points, also a deer and three bears. He saw sixty caribou altogether and twenty three moose, but failed to find one of the latter with a head large enough to suit him.

Mr. William Allen, a Penna. farmer, shot a good sized moose in a field near his home one day this week. He had seen the animal in the field a number of times during the past month, and took out a license especially for it, feeling confident that he would get a shot at it some day.

Mr. H. E. Mason of Washington, who left here a few days ago for the Sisson branch of the Toronto on a hunting trip, will return by the Gibson train this evening. This morning he wired that he had been successful in securing a moose and caribou. He had Mr. Robert Barr of Macquarie for guide.

Seven American sportsmen returned to the city by the I. C. R. Express today after a two weeks' hunting trip in the Miramichi woods. The most successful of the lot was Carl Pickart of New York, who secured a moose, a caribou, two deer and a bear. He hunted on the Dunbar with Dorris Manderville as a guide.

Henry Dunston, of Philadelphia, Warren Whitney, of New York, and F. L. Janny, from Philadelphia, each shot a moose.

Count Thebaud and party, who were hunting on Little River, were unsuccessful.

### CHASED BY BULL MOOSE

Two Bold Hunters Hunted by an Infuriated Bull—They Shot at Him and Fled.

Moncton, N. B., Oct. 2.—It is reported that two young men belonging to Paines Junction had an exciting chase by a bull moose yesterday. The young men went into the woods near Paines in search of partridge and unexpectedly came upon bull and a cow moose lying down. They put a charge of shot into the bull and the latter, infuriated, chased his tormentors. The hunters ran for their life and barely had time to reach a lumber camp and climb to the roof when the moose came up. The report says the animal tramped about the shanty and kept the young men there for four hours.

C., on behalf of the bar of Kent Co., welcomed Solicitor General Jones to the County. #### PARTRIDGE SCARCE

Two Years of Protection Did Not Protect—Rev Mr Henderson Resigns

From Our Chatham Correspondent

A sudden death in the person of Thomas Fountain age 83 took place at his home here on Sunday morning. His remains were forwarded to Halifax for interment to day.

Richard's mill is shut down for the season. Snowball's mill is shut down for a few days on account of shortage of logs.

A raft of four thousand pieces was being towed from Tatousintac, when a heavy gale caught the raft at night, so called, and a heavy wind blowing the logs parted, saving only saving about two thousand pieces.

Our game warden here has issued over one hundred Game Licenses to date, all local, and he expects to double that number before the season closes in December next.

Partridge are scarce.—It is generally supposed that hawks and owls, which are plentiful are chief depredators, a bounty on twenty five cents for each bird would soon cure this pest. Foxes in and near Partridge woods, are also the enemy of Partridge.

Mr. C. P. Johnson, the greatest Nimrod of the day, with Peter's dog, formerly got over one hundred birds of a season, he thinks after two years protection he will not get a third of his usual sport. Several moose have been killed some ten in all. Of course the heavy foliage in the forests set is good cover for the animals the ones shot are those who are fooled with "Sullivan's Call".

The celebrated Land case which has caused such a sensation at Loggieville has had its second trial at Chatham Public Hall. The Judge in his wisdom ordered all interested to visit Loggieville and ascertain the exact trouble which they did and further postponed the trial, to be held in St. John, when all interested are to meet there. Costs in this unfortunate case are well into the thousands.

Rev. Mr. Henderson, has resigned his charge at St. Andrew's Church taking effect on January 1906.

Rev. Mr. Young, of Mill Bank, officiated last Sabbath at evening service in St. Andrew's. His effort was good, the material is there for a brilliant future.

Rev. Mr. McKay, Tabusintac was a guest at the Manse Sunday last.

F. Eddy shot a moose and caribou, the latter has a fine spread of antlers, all went to Fredericton to be mounted. Fred must be a good shot to get both animals, while his two chums one with a \$25.00 license got none.

### AMERICAN CRUISER ASHORE.

Tokio, Oct. 2, 2:40 p. m.—The Japanese steamer Taiwan reports at Moji that when passing Hime Island, off the Bungo coast at 1 o'clock this morning, she found an American cruiser aground there. Hime is a small island of the Goto group, about three miles east of Nagasaki.

Dr. Drummond is an ardent sportsman and next Tuesday he will go to Chatham gunning for woodcock, a species of game he freely admits calls for higher skill with the gun than he possesses. He says that at present he has no literary plans. His last book, The Voyageurs, has been a great success. The flattering notices of it in the English papers have pleased the doctor immensely.—Telegraph.

His Own Voice at His Burial. Herr Paul Turon of Teschen, in Austrian Silesia, sang a hymn at his own burial the other day. He had intoned the hymn into a phonograph shortly before his death and directed that it should be reproduced at his funeral service. This was carried out by his heirs, who under the terms of Herr Turon's will had to sacrifice \$500 of his estate to a charity if they failed to comply with his wish.

Fifteen Million Candlepower. St. Catherine's Lighthouse, Isle of Wight, has just been fitted with a flashlight which is estimated to be equal to 15,000,000 candlepower, and on nights when the atmosphere is favorable its beam probably is visible from the French coast. The new light is immensely more powerful than the old one, which was of about 3,000,000 candlepower.—London Globe.
