

THE HAMILTON TIMES

WEDNESDAY, DEC. 4, 1907.

CHRISTMAS SHOPPING.

Many women put off their Christmas shopping until the very last. They cannot make up their minds what to buy—what to give to their many friends, and they delay and procrastinate, forgetting that the longer they delay the more difficult it will be to get what they really want. It is just as easy to make up their minds to-night as to-morrow night. The merchants are certainly doing their share to help everybody to decide what is wanted. The Christmas shopper has recourse to the advertising columns of the daily paper; and it is on the data found there, in ninety-nine cases out of a hundred, that the list of holiday purchases is founded. The Times advertisers are Johnny-on-the-spot with helpful suggestions and information for all. Make your purchases to-morrow, and make them early in the day, and the clerks will feel thankful to you.

THE MOUNTAIN TROLLEY.

The Times has on more than one occasion broached the subject of a trolley line for the mountain, believing that it would be a good thing for Hamilton, for the mountain and for the promoters. It would be a good thing for the mountain, for a line up there would undoubtedly be the means of making it become a popular place for summer residences. Not only so, but many people would prefer to live up there all the year round, for the benefit of their health, if it was made easier for them to get up and down. It would be a good thing for Hamilton, because a trolley line leading up to, and along the mountain would form a strong attraction, especially in the summer season, as a belt line upon which the citizens could take an airing in the hot weather, and it would be a good thing for the promoters, we believe, because we think it would be a paying venture. People would be attracted to the proposed mountain parks and the driveway, and if the road was continued so that it could be made to run around by the reservoir, for instance, it would be sure to become popular. The men behind the scheme should receive every assistance from the citizens.

FREAK LEGISLATION.

The Australian Commonwealth is undertaking a big task and one that offers many opportunities for evil. To illustrate its tariff scheme we may take the case of harvesters. The duty on each is \$60. To prevent the home manufacturers from profiting by increasing prices it commands them to cut down their prices from \$405 to a maximum of \$375 by the beginning of this year, and to \$325 within the following twelve months. To prevent them from reducing wages, a Government Board will fix them. An excise duty of \$30 will be levied on each machine, but if the wages paid are approved by the government as fair, the amount is remitted. The task of deciding will be no little one, but our government approves the article will be labelled with a government trade label exempting it from the \$30 excise tax. These proposals are somewhat startling, and evidently open the way to very extensive corruption. They place a dangerous power in the hands of corrupt governments, and one that is almost impossible or reasonably fair and efficient exercise by the best of administrations. We must go to the antipodes when we wish to study freak legislation and see men worshipping the product of the ballot box.

A GOOD CUSTOMER.

For the year ending June 30th last Newfoundland imported from Great Britain \$2,069,934 worth of goods and exported to her \$1,192,795 worth. From Canada she imported \$3,069,008 worth and exported to her \$1,611,480 worth of goods. From the United States the island took \$3,447,359 and exported to them \$1,394,289. The total imports from all sources, were \$10,426,040, the duty collected \$2,354,056, and the total exports \$12,101,161, a slight increase in imports and exports over those of the previous year. The figures show that Newfoundland buys more from this country than she does from either Britain or the United States, and that Canada sells her more goods than either of the other two. Comparative figures also show that Canadian trade with Newfoundland increased \$147,159 during the year, while that of the United States decreased \$161,833. Evidently Canadian trade with the Newfoundlanders is worth cultivating.

CANADA'S CENTURY.

Dr. Theodor Barth, a distinguished German visitor to the United States, has been writing letters to the Frankfurter Zeitung, for some months back. In his latest letter he states that the Dominion of Canada has crossed the threshold of the twentieth century under conditions incomparably more favorable to rapid expansion than obtained in the nineteenth. In support of this statement the following facts and figures are given:

The population of the United States in 1800 was 3,908,000; that of the Dominion in 1901 (exclusive of Newfoundland) was 5,371,000. The total imports and exports of the United States in 1800 were valued at less than \$100,000,000; the total imports and exports of the Dominion of Canada in 1901 exceeded \$340,000,000. The receipts of the United States Treasury in 1800 were from customs \$0,080,000 and from internal rev-

enue \$800,000; the total revenue of the Dominion in 1906 was \$80,000,000 to which \$60,000,000 was contributed from customs and excise. In 1800 the United States did not have a steamboat or a mile of railway. Canada, on the other hand, at the end of June, 1905, had a network of steam railways with a trackage of 20,600 miles. Finally, the inhabitants of all the chief cities of the United States in 1800 did not constitute more than a fraction of the present population of Montreal.

No doubt the twentieth century is Canada's. As the years pass she is bound to grow with accelerated speed. She has everything in her favor. Inventions of which the United States in their infancy did not know, are now assisting in the rapid development of the Dominion.

EDITORIAL NOTES.

As Hon. Mr. Fielding aptly said last evening, Mr. Borden is not a fool, neither is Mr. Foster an angel.

Six months in the Central for theft. Not much profit in that. One could earn quite a few dollars honestly in that time.

Winnipeg has organized a Women's Canadian Club. Will they have dinners and things just like the clubs composed of mere men?

The east end revival seems to be a young men's movement, which is something out of the usual run of things. All good people will wish that it may result in permanent good to the city.

Hon. Mr. Pugsley has repeated his charges of wholesale bribery by the Tories down by the sea, offers names of bribers, and challenges Mr. Borden to sue him for libel. What is Mr. Borden going to do about it?

The London case, tried at Toronto, will make a difference in the doing during future election campaigns.—Hamilton Spectator.

Yes, it should make the Hamilton Tories more careful as to the distribution of the boodle, so that it won't be necessary to have a saw-off to prevent investigation.

It is said that there is to be a clearing up of all Grit help at the London Insane Asylum. Billy Gray and Major Beattie, it is said, promised that all Liberals employed there would be "formed in procession and marched from the asylum gates." Now the Tory office hunters have become so clamorous that the procession is expected to start soon.

We have received from the Winnipeg Development and Industrial Bureau a copy of its Illustrated Winnipeg Statistical Calendar for 1908. These statistics have been compiled for ready reference and give an accurate statement of the growth and prosperity of Winnipeg. It is mounted and finely illustrated and full of statistical information of the Capital of the Prairie Province.

Those people who talk as if the Province of Ontario was hopelessly Tory should note that according to the figures quoted by the Toronto Mail, the voting in Ontario at the last general election was Conservatives, 223,547; Liberals, 220,049. It ought to be easy for the Liberals to overcome a majority of about 14 1/2 per cent. Let the Liberals buckle down to work and redeem the Province.

Timely loans in England would have enabled the Ottawa Government to finance its own extravagance without borrowing from the Canadian banks money that is needed to move the crops and otherwise carry on the private business of the country.—Toronto Telegram.

If the oracular blunderer of the Telegram cares to inquire he will learn that not for many years has the Government borrowed from the Canadian banks, and that some of the banks are borrowers from the Government. But we do not suppose that the Telegram would be anxious to set itself right; its object is to misrepresent the Liberal Government.

In the Toronto electric light and power question the News declares itself for "Regulation or Expropriation," but neither Duplication nor Confiscation." Its remarks have some application to Hamilton's case:

Apart from the disadvantage of long delay, duplication would involve large unnecessary cost; not only immediately, but an even larger cost ultimately. Assuming that the civic plant was successfully established as a competing plant, it is practically certain that a rate war would speedily ensue. The inevitable upshot of this would be the purchase of one or other competing plant by the remaining one. It is true that the proceedings of the Electric Light Company might be hampered vexatiously by the city authorities, but public opinion would be unlikely to justify action of this kind. Even if the company developed a policy of mere pugnacious resistance, practical confiscation, once it was fully understood by the public, would not be likely to be permitted. Apart from the moral aspects of the question, the injury to municipal credit would be irretrievable.

Leader Borden, during his western trip, made special efforts in his many speeches to cause trouble between the Provinces and the Dominion Government. In British Columbia he condemned the Government for the Jap invasion; in Saskatchewan he denounced the Government's land policy, and in Manitoba he made a text of the boundary question, striving to show that it had been unfairly treated in the matter. With reference to this latter matter Mr. S. J. Jackson, M. P. for Selkirk, Man., announces that the extension of the boundary has been practically arranged, and under the agreement it will be extended along the eastern boundary of Saskatchewan to the 60th parallel, thence easterly to Hudson Bay, then southward to include Fort Churchill and Churchill River, York Factory and Nelson River, as far down as James Bay, thence along the water-

way to a point one hundred miles east of Rat Portage, leaving a substantial area on the eastern side of Keewatin to be annexed to Ontario. Borden will have to find some other grievance.

HERE AND THERE.

Kingston Whig: What's the matter with the times? They won't go bad, or they won't stay bad, and black ruin seems to be the only hope of the Conservative party. How the late financial flurry is misrepresented! How dismally the crisis has been painted!

Montreal Herald: Persons who postpone buying their Christmas gifts, under the impression that no one has any money, that there will be no rush, and that there may be a slump in toy prices, are going to get very badly disappointed. Santa Claus has not yet noticed that there are any hard times.

Montreal Gazette: Two strikers at Kingston have been fined \$100 each for using abusive terms towards a man who was working. Like the sentence in the case of the convicted Buckingham rioters the incident goes to show that going on strike does not confer on a man any rights that do not belong to the rest of the community.

The Toronto Star says "Tom Longboat has asked the city to spend the five hundred dollars it voted him on a home for his mother. This still leaves The Globe fund of \$187.39 free to be applied on a piano." The investigation into the administration of the parks discloses that The Star promised to pay \$25 for its advertising bill-boards on city property, but has never paid up. Suppose it "loosens up" and contributes this sum to the fund, making it \$212.39. That might be more than sufficient for a piano. It might be enough to buy a newspaper, not an organ.

Our Exchanges

Sweet Sixteen.
(Brantford Examiner.)

"Sweet Sixteen!" does not adequately describe the sixteen-million-dollar surplus which the Canadian Finance Minister is able to announce for this year.

The Poor Turkey.
(Toronto Star.)
The turkey, poor, deluded bird, struts round with manner most absurd. He does not know the future grim, But shortly we'll attend to him.

Honor for Bruiser Brusso.
(Toronto Telegram.)

Won't it be a great day when Mr. Tommy Brusso-Noah-Brusso returns to his native province to receive the degree of LL. D. from the grateful and admiring hands of either Queen's or Varsity?

Come Down to the Point.
(Kingston Whig.)

The Hydro-Electric Commission will have to be more definite with its proposition, so far as Kingston is concerned, if the power question is to take people seriously.

Wonderful Tribute.
(Kingston Whig.)

Abraham Shaw was in Hamilton on Saturday attending the funeral of the late Hugh Murray. About 1,000 Masons were in the procession. It was a wonderful tribute to an eminent man.

Got the Wrong Idea.
(Guelph Herald.)

The idea of the Hamilton people claiming that their's is the first of the Canadian Clubs when they are now discussing whether the residents should take a bath or not.

Reasons to Cheer Up.
(Toronto News.)

Under the heading, "Reasons to Cheer Up, No. 23," a correspondent writes: The price of butter will not be higher than 35 cents per pound this winter, as the imported variety will keep it down to this very moderate price. The Canadian hen will not stand for eggs going above 30 cents per dozen, as it might injure her health. The city real estate union has decided not to further increase rents for the next 90 days, as the price of stationery has gone up. The coal dealers have also decided to not charge more than \$7.50 for black diamonds this winter.

Whitney and Private Interests.
(Toronto News.)

It has to be remembered that throughout the whole Power controversy the Province was assured by Mr. Whitney that no injustice would be done to private interests, that British investors would be protected, and that the Provincial credit would not be prejudiced. From the outset The News has contended for expropriation or regulation. Up to the day that the Whitney Government came into office we had no idea that any remedy other than regulation was available under the conditions which had developed. When Ministers began to suggest public ownership it was assumed that this would be carried out on the basis of expropriation under an arrangement between the Government and the Electrical Development Company. When the British bondholders sent their agent to Canada he was assured that no robbery of British capitalists would be tolerated. This word was sent out to British financial publications. Mr. Whitney so declared in more than one official interview. The interview was printed, however, until it is now proposed to buy the surplus power of a Niagara company which finds its market in the United States, and which has not even carried out its contract to build transmission lines in Ontario. It is proposed to build transmission lines for the distribution of this energy throughout Western Ontario at the public expense, and to duplicate the private power line between Niagara and Toronto. Coincident with this is an agitation to instal a public plant in Toronto, and to compete with the private lighting company in which millions of dollars are invested. The private plant offers to submit to expropriation. The Government has made no serious attempt to arrange a basis for expropriation of the works of the Electrical Development Company.

BOYS' HOME DONATIONS.

The Managing Committee of the Boys' Home acknowledges with thanks donations from the following kind friends for November: Mr. Alex. Bain, bag of apples; Mrs. Chas. Armstrong, Sunday dinner; Domestic Specialty Co., 2 doz. Big 3, 2 daubers, 2 brushes; Mr. H. Trebilcock, sausage; Mrs. H. Fearman, Sunday dinner; Miss Leggat, fish; Mrs. J. W. Nesbitt, Sunday dinner; Mr. Crawford, cakes; Walter Woods & Co., 6 brooms; Mrs. C. W. Graham, Sunday dinner.

The monthly meeting will be held in the institution on Thursday, Dec. 5, at 10.30 a. m.

MISS YAW'S ADVICE.

Canadian Singers Should Not Go Abroad, She Says.

Thoroughly alive to the advantages of foreign study, by reason of nine arduous years in the song-centres of Italy and France, Ellen Beach Yaw still opines that the place for a U. S. A. girl—or a Canadian girl—to study is at home. The internationally famous songstress, is comfortably located in a cosy suite at the Hotel Royal, to-day.

"There are few opportunities for an American girl in the musical circles of France or Italy, without an unlimited supply of funds or a thorough preparation obtained in America," said Miss Yaw. "In either France or Italy it takes years to acquire the accent without which no singer will be admitted to the opera. Further, these countries expect a singer to be thoroughly in touch with the traditions of the opera, and this is something that must come only after hard study."

"After a thorough foundation is laid in the art of singing," said Miss Yaw, "there is a chance for the American girl in Europe—as history has shown."

STRAUSS-HOFFMAN.

Hamilton Young Lady Married in Toronto on Monday.

A very quiet but interesting ceremony was performed on Monday evening at the residence of the chief rabbi, Rev. S. Jacobs, Grenville street, Toronto, on the occasion of the marriage of Miss Hannah Hoffman, of this city, and Mr. Max Strauss, of Toronto, both late of Manchester, England. The engagement of the couple was announced last week. The bride looked very pretty in a travelling costume of grey. Immediately after the ceremony the happy young couple left on a prolonged honeymoon to the coast. On their return Mr. and Mrs. Strauss will make their home in North Toronto.

BANK WINS

In Action Tried at Toronto For \$75,000 Damages.

In Cosgrave vs. the Bank of Hamilton, judgment was given yesterday in an action tried at Toronto, 25th November last, upon an alleged agreement that defendants would advance to plaintiffs the sum of \$75,000 upon the joint note of the plaintiffs. Held, that plaintiffs case fails and must be dismissed with costs. J. H. Moss and C. A. Moss for plaintiff. H. S. Osler, K. C., and Britton Osler for defendants.

GEN. OTTER RESIGNS.

Ottawa, Dec. 4.—It is announced in the militia orders issued to-day that Capt. R. K. Barker, Queen's Own Rifles, has been granted the brevet rank of major. The resignation of Brigadier-General Otter 45th hon. aide-de-camp on the staff of the Governor-General has been accepted by Earl Grey. Capt. P. H. Jones is appointed assistant director of the engineers service on the headquarters staff.

Still They Come.

Vancouver, Dec. 3.—The steamer Montague arrived last night. Among her steerage passengers are 189 Hindus, 83 Chinese, 45 Japanese; there were 116 Hindus admitted, 40 detained on account of disease and lack of funds. Ten Japanese were deported. Twenty-two Chinese paid the \$500 head tax.

Goes to Prison for Double Murder.

New York, Dec. 3.—Frank H. Warner, who shot and killed Esther C. Norling, a stenographer, and who then killed John C. Wilson, was sentenced to a term of not less than 20 years to-day.

SKIN SORE 8 YEARS CURED IN A WEEK

Spent \$300 on Doctors and Remedies Which Gave No Relief—Skin on Limbs and Feet Rough and Sore—Work Often Impossible.

TRIES CUTICURA, WELL IN SEVEN DAYS

"Cuticura Remedies have entirely cured me after all other remedies had failed. Up to a week or so ago I had tried many other remedies and several doctors, and spent about three hundred dollars, without any success, but this is to-day the seventh day that I have been using the Cuticura Remedies (costing a dollar and a half), which have cured me completely, so that I can again attend to my business. I went to work again to-night. My trouble was as follows: Upon the limbs and between the toes my skin was rough and sore, and also sore under the arms. I saw a chef for a large café on Broadway, and I had to stay at home several times because of this affection. I had been suffering for eight years and have now been cured by the Cuticura Remedies within a week. I am much indebted to Cuticura, and shall certainly recommend it to all my friends and colleagues in the kitchen. Fritz Hirschfeld, 24 Columbus Ave., New York, N. Y., March 29 and April 6, 1906."

HAIR FALLING OUT

Very Bad Dandruff on Scalp, Pimples Cover Face, Cuticura Cures.

"I used the Cuticura Remedies with great success. My face was a mass of pimples and the dandruff was so bad on my scalp that my hair all began to fall out, and a friend of mine told me of Cuticura and I began to use Cuticura Soap and Ointment. Before a month I saw a great change for the better, and now I am entirely cured. I had no physician in charge. My little girl is now four years of age, and knows the use of no other than Cuticura Soap. Her skin is perfect and her hair remarkable for her age. Mrs. W. C. Howard, 132 N. Tenn. Ave., Atlantic City, N. J., Jan. 22, 1906."

Complete External and Internal Treatment for Every Form of Itch, Churn, and Acute Cases of Cuticura Soap to Cleanse the Skin, Cuticura Ointment to Soothe the Itch, and the Restorer (or in the form of Chocolate Coated Pills, in this case) to Purify the Blood. Sold everywhere. Potter Drug & Chem. Corp., Sole Mfrs., New York, N. Y., or Mailed Free, Cuticura Book on the Skin.
