

The Maritime Dental Parlors

176 Water Street, St. John's, Nfld.

THE MARITIME DENTAL PARLORS recognizing no distinction in work, or prices, but the best, are endorsed by patrons who visit them in throngs every day.

The Maritime Dental Parlors are established here permanently, have a long lease of the premises they occupy, and will continue to give faithful, conscientious service.

The Maritime Dental Parlors appreciate the confidence shown by the public, and will ever aim to provide high-class dentistry at reasonable prices.

The Maritime Dental Parlors have spent over \$500 in the city of St. John's, besides \$200 already saved to the people by reduced prices, an institution worth considering as a business proposition.

The Maritime Dental Parlors hold to the motto, "Live and let live," and that the greatest number may have the greatest good. First-class dentistry are quoted at these prices:—

- Teeth extracted without pain 25 cts.
- Teeth extracted and Full upper or lower Set (\$18.00 value) supplied \$12.00
- Gold Crowns 6.00

All other Dental work and operations at correspondingly reasonable prices. Expert service.—Best materials.

Official Confirmation.

We notice that the Postmaster General in his annual report makes reference to the landing of the Commercial Company's cables at Cuckhold's Cove. He reports:—

"Hitherto the long and dangerous land route to our cable connection at Port aux Basques and the risk of the cable being fouled by ships' anchors in the Straits or at Port aux Basques were a constant menace to our service. The landing of the Commercial cable at Cuckhold's Cove, which is connected by a land line with our head office (about two miles) ensures continuous operation of our cable connection. . . ."

This is an official confirmation of the remarks we have made in the past in endorsing the action of the administration of Sir Robert Bond in inducing the Commercial Cable Company to come to Newfoundland with some of their trans-Atlantic cables. The Postmaster's general report is dated February 1st, 1910.

His Excellency's Invitation to the Public.

We direct the attention of our readers to the notification from His Excellency the Governor that the oil paintings, after Sir Luke Fildes, R.A., of His Majesty the King and Her Majesty the Queen, which were presented to Government House by the King have been placed in the Hall of Government House. His Excellency graciously invites all sections of the people who have a desire to see the pictures to visit Government House, on Sunday next, between 3 p.m. and 6 p.m. The notice is appended.

The oil paintings, after Sir Luke Fildes, B.A., of His Majesty the King and Her Majesty the Queen, presented by His Majesty to Government House, Newfoundland, are now placed in the Hall of Government House.

The Governor will be glad if all who desire to see them will visit Government House on Sunday, the 10th instant, at any time between the hours of 3 p.m. and 6 p.m.

The Governor especially hopes that all sections of the people will take advantage of the opportunity of seeing these very beautiful paintings of Their Majesties.

The Governor names Sunday as it

New Pilot Boat.

The new gasoline pilot boat for the use of this port hauled down from the floating dock to the King's wharf to-day and will be taken for a cruise this afternoon. She was formerly the Margery F., owned by Mr. Franklin, and has been nicely fitted up and thoroughly repaired by Mr. Albert Pitman. She has been given a new wheel house, the centre is fitted up comfortably between decks and can accommodate 6 hands. She is a nice model and can do six knots. All the pilots are pleased with her.

Inspected Milk Farms.

Wednesday and yesterday Health Inspector O'Brien made 41 inspections of milk farms on Bay Bulls, Old Petty Harbor and Kilbride Roads. Some of the places were found to be model farms, others fair, some very indifferent and still others in a very bad condition. Inspector O'Brien is doing his work thoroughly and impartially and is leaving nothing undone to try to keep such places up to the proper standard. Those whose farms are extra clean should receive every encouragement.

Eye Badly Injured.

Edward O'Toole, working at the R. N. Co. machine shop to-day, met with a serious accident to his eye. In driving a rivet it flew from the hammer and struck his left eye, lacerating it terribly. He was brought to Mr. P. O'Mara's drug store where the wound was dressed by a doctor. It is believed that he will not lose the sight of the eye.

Bowring's Banner Year

A year hence the well known and popular firm of Bowring Bros. will celebrate its centenary. During that lengthy period it has prominently identified with the seal and cod-fisheries, but never before have so many seals been brought in as during the present spring for the firm. There are now 118,000 seals in port for them, and when the Aurora, Ranger and Kite are accounted for it is expected that the firm will handle 150,000 seals.

Good Cod Fishing.

For the first time in the history of the place the people of Barron Island have been fishing all the winter when fine weather prevailed. About 50 dorles were at work, and each crew stowed away from 20 to 50 qtls. Trawlers are still at work and some hand liners and secure daily from 1 to 1 1/2 qtls. The fish is of good quality and large size.

Coast Weather Report.

3 Balloonists Lost Their Lives in Baltic Sea.

STETTIN, Germany, April 3.—The German balloon Pommeru, which made an ascent here this afternoon, met with a series of accidents which ended in a disaster under most tragic circumstances in the Baltic Sea. Three men lost their lives, including the radical member of the Reichstag, Hugo Del Bes Del Brueck, Herr Del Bueck and another member of the party were drowned, a third occupant of the car was picked up and died, while the fourth was rescued in a serious condition. The Pommeru, carrying Del Brueck, who was acting as pilot, a banker Herr Semmelhardt, an architect, Herr Benduhn, and a man named Hein, ascended early in the afternoon at the gas works.

A Chapter of Accidents.
The wind at the time was blowing a hurricane. A chapter of accidents began immediately. The balloon collided with telegraph wires, almost overturning the basket. It then dashed into the roof of a neighbouring factory, destroying the smokestack. With the basket swaying wildly and half of its ropes gone the balloon soared to a greater altitude and disappeared in the clouds at a terrific speed. The crowds of onlookers, including a detachment of military which had assisted in the ascent, ran along the roads, expecting the basket to break away. The balloon, however, was not seen again until it reached Swine Mindle, 66 miles northwest of Stetty, over which it passed at a height of 6,000 feet, in the direction of the sea.

Rescue Work Difficult.
Tugs followed in its track, and one of them, which had outdistanced the others, was almost directly under it when suddenly the balloon fell into the sea. The tug steamed to the spot quickly, but the rescue work was difficult. Hein died soon after being taken on the tug, and Del Brueck's body was washed ashore this evening. The Pommeru, with the aeronaut Oscar Erblosh in command, won the international race at St. Louis in 1907.

\$600 for Business Desk

Keen Bidding for a Unique Relic.
The old mahogany bureau desk used by Robert Burns at Ellisland and Dumfries and at which the poet wrote "Tam o' Shanter," "Auld Lang Syne," and many of his other famous lyrics, realised £600 at Messrs. Sotheby's rooms yesterday.

Of unimpeachable pedigree, this relic aroused keen interest, the bidding opening with an offer of fifty guineas. From £100 the bidding was almost exclusively confined, to Mr. Quaritch and the auctioneer's clerk, who apparently had a private commission, but at £200 Mr. Quaritch was left victor, having secured at by no means an exorbitant figure one of the most intimate mementoes of the great poet in existence.

The desks of other famous writers attained far more modest figures, however. One used by Dickens at Tavistock House went for no more than £13; a four-legged stool used by the same writer made ten guineas; while Daniel O'Connell's black oak writing desk made only one guinea.

MILDRED'S GOOD BILL.—The schr. Mildred finished discharging her seals at Bowring Bros' premises yesterday. Her turn-out was 1,302 young harps, 3 old harps and 3 old hoods, a total of 1,308 seals. Gross weight, 24 tons, 9 cwt., 2 qrs., 19 lbs.; nett, 23 tons, 11 cwt., 1 qr., 14 lbs. Net value \$2,112.80. Her crew of 10 men shared \$105.64 each.
