MORRIS'S DUPLICITY.

On Friday last, we drew attention to the contemptible conduct of Sir Edward Morris in reference to the Dubois-Crane prosecution at a meeting at Bay of Islands recently.

This conduct is on all fours with that pursued during the elections of 1908 and 1909, when he tried to defame Bond for legislation and acts of administration to which he has been a party from the spring of 1906 to the he had increased taxation.

For instance the Morris Party gave as a reason in 1908 why Sir Robert Bond should be defeated that during his administration from 1900 to 1908, he had increased taxation.

That was his contention in 1908. Now what was his contention in 1907? In the course of a speech delivered in the House of Assembly in March of that year, he said:—

"The Government has been able to reduce taxation annually to the extent of \$250,000, and increase public service to the extent of \$300,000 including grants for extension of coastal service, light houses, etc., that the people have lived better, and have been able to put away in the Savings Bank of the country something like five millions of money, not to talk of the amount they put away in their own homes. What has brought about this prosperity? There has not been more fish caught than there was forty years ago when there was one third less population than there is to-day."

How was it then that the people would live better, have more comforts and save more money with one third more population, if it were not for the new industries started as the result of the development policy of the Government?

"As a people, we are better off and one of the reasons for this is the policy of the Government of to-day." In fact, his conduct at Bay of Islands was only consistent with his inconsistencies during the last two election campaigns.

His conduct was precisely similar in respect to what the Tories call the Secret Letter. It was similar in regard to the project known as the Fog Zone ocean and land proposition.

Stephano Makes Record Time.

The Red Cross Liner Stephano has just accomplished a feat, making the runs from St. John's to Halifax in thirty-six hours, thus lowering her previous record by two hours. She left here at 9 o'clock Saturday night and a message was received by the agents this forenoon stating that the ship had reached Halifax at 9 a.m. The distance between these ports is 400 miles, and the Stephano's time, 36 hours, is not known to have been equaled by any local steamer of former years.

Durnan Goes to England.

To Row Barry for World's Championship in October.

New York, Sept. 14.—Abe Attell, in his first appearance in a ring since his suspension by the New York State Athletic Commission, was outpointed by Harry Thomas of England, in a ten round bout at Madison Square Garden last night. Attell showed an occasional flash of his old time form, but appeared to be slower in his foot work. Thomas jabbed constantly with his left, landing easily. At close quarters Attell showed to better advantage, landing many heavy blows. The former feather-weight champion, however, had the better of only two of the rounds. The others were even, but in the remaining six Thomas had clearly the better of Attell. Thomas weighed 131 and Attell 129 1/2 pounds.

Durnan Leaves to-Night.—Quebec, Sept. 14.—Edward Durnan, sculling champion of America, who is to row Ernest Barry on the Thames the second week of October for the world's championship, sailed to-night by the White Star Laetonic. A Brave Rescue.

Capt. Marmaduke Rose of the tug Ingraham performed a brave act Saturday evening. Several little girls were playing on Crosbie & Co's. pier between which and the Tug pier the Ingraham lay, when one of them Maggie Neal, of Lime Street, slipped and fell between the tug and Crosbie & Co's. pier. Her little companions without making the slightest outcry ran away and the poor little girl went to bottom. No men were about except the tug men and Mr. Rose thought he heard a more than ordinary commotion and came on deck. Suddenly he heard the child's struggles and saw her just as her feet and head as she lay on her back, break water. Without hesitation and alone he threw a rope over the side saving himself down on it and grasped the child as she again sank. Clinging to the cross stringers on the shores and soon willing hands held the little one in a half drowned condition on the pier. Stimulants were given her in the engine room and the kindly men removed most of her clothing wrung it out, made her warm and then sent her quickly home. If Rose had not acted so promptly the little girl would have drowned.

Auto Plunged Into Stone Piers.

Ogdensburg, N.Y., Sept. 18.—Joseph A. Toyo, of Ogdensburg, was killed and G. H. Rolland of Montreal, fatally injured, in an automobile accident last night. Moses Boyer of Ogdensburg, took Holland and Alfred Seguin of Montreal, his guests during the horse show, and Toyo for a ride in his car. They were shooting up the Boulevard when the car bolted across the street car track on the side of a railway bridge over the Rutland road, plunging into the stone piers, wrecking the car and hurling Toyo and Holland fifteen feet into the air. They landed forty feet below on the tracks. Toyo died on the way to the hospital. Boyer, who drove the car with Seguin beside him, escaped injury.

Denied Guilt.

New York, Sept. 18.—Harry Horowitz, alias "Gyp the Blood," and Louis Rosenzweig, alias "Lefty Louie," charged with being two of the four men who fired the shots that ended the life of the gambler Herman Rosenthal, entered pleas of not guilty to indictments of murder in the first degree, when arraigned before supreme court Justice Goff to-day. The plea was made through their attorney, and neither of the accused had a word to say in court. They were remanded to the Tombs pending the naming of a date for their trial.

Here and There.

Miss Ethie Brine who had been spending a holiday with friends at Catalina, arrived here by the Fogota. She enjoyed the vacation.

At the Reid Co's dock to-day the men of the Labourers Union refused to discharge the Wilhelmina of her deal cargo as they would not be granted the regulation union wage of 20 cents per hour. About 100 men, all west enders, are involved, and they intend to interview the Premier, who is their senior member.

GROCER HEAVILY FINED.—A city grocer was served with an order on Saturday, at the instance of Head Constable Sheppard, for having more oil on his premises than that allowed by law. The case occupied the attention of Judge Conroy to-day. The law permits two casks, in case of danger, to be on the premises, but the evidence disclosed showed that he had twice that number stored for his use. The defendant pleaded guilty, was fined Twenty dollars and confiscation of four casks of oil.

Attempt to Capture Bank of Nova Scotia Robbers and was Roughly Handled.

Chicago, Sept. 18.—Failure to capture two members of a gang of safe blowers, who stole \$271,000 from the Bank of Nova Scotia, in Vancouver, was to-day made the basis of charges by Chief of Police Mcweeney against Capt. John J. Mahoney and Lt. Benjamin Burns. It is alleged that Mahoney and Burns, instead of seeing that an adequate force was assigned to arrest the robbers, who were in a sagoon here, engaged in a Sherlock Holmes attempt to have Burns disguised, and take the thieves single handed. Burns was beaten unconscious by the robbers and is in a hospital.

A Londoner owning a country place near the capital engaged a stable-boy. During his last stay at the place the owner did not see the boy for several days. Finally, however, having special need of the lad, it occurred to him that the stable-hand was not exactly "on the job." "Where the deuce do you keep yourself?" demanded the master of the place. "I don't believe I've seen you since you were engaged. Have you been asleep all this while?" "Yes, sir," was the unexpected response. "I thought that was what you wanted, sir." "What I wanted!" exclaimed the employer, amazed. "What are you driving at?" "Well, sir," exclaimed the lad, "your advertisement said you wanted a boy of sixteen to sleep on the premises."
