

A Wonderful Help in Keeping the Complexion Youthful and Clear.

Perhaps you wonder how so many women manage to have a complexion that is always fresh and clear, and how you can make your complexion better. Here's the secret—

This is the Vanishing Cream that softens the skin and gives it that soft, velvety radiance that we all desire. Nyal's Face Cream is not oily or greasy, and it is readily absorbed by the skin, vanishing without leaving any tell tale gloss on skin. The skin welcomes this pleasant, soothing, cooling cream. It makes dry, tight skin soft and pliable. It makes rough skin firm and smooth, and gradually gives to coarse rough skin a finer, more delicate texture.

TORIC LENSES

ARE MORE BECOMING THAN FLAT LENSES.

The edges of Toric Lenses do not show as prominently as those of flat lenses. They fit in close to your eyes. You will find Torics much more becoming and useful. They give you a wider, clearer field vision. You should know about Toric Lenses. Let us explain them.
