### IMMIGRATION CHIEFS WILL MOVE INTO NEW QUARTERS JUNE 1

Increased Facilities for Taking Care of Immigrants

Chief Agent Craig and Ass.s.ant Chief Hunt, of the Dominion immigration office, are busy with preparations to move from the historic old "shed" into the new office building provided for them at the corner of First street east and Tenth avenue. The new building, with all its modern improvements, will be occupied by the immigration officials not later than June 1st. One of the peculiar features attendant upon the removal of the immigration headquarters is the fact that, despite the increased room given the officials for the benefit of immigrants, less room is being actually taken up at present by the guests of the government than at any time in the past few years. The old "shed," with quarters for about thirty lodgers, is rarely more than half filled. The new quarters can accommodate 100 persons.

"The steadily diminishing number of

"The steadily diminishing number of immigrants who stay in Calgary the limit of seven days as guests of the government is a tribute to the higher character of the men who are coming into the northwest," said Deputy Agent Huat westerday. "Year by year men of a higher grade are taking advantage of the opportunities of the northwest."

## **WEIGHS FIVE POUNDS**

King of His Kind, Raised on C.P.R. Demonstration Farm

at Strathmore

At Strathmore

At Strathmore

At Strathmore

The king of all cucumbers arrived in Calgary yesterday and today will hold forth in royal vegetarian state in the window of a Calgary store.

The gigantic cucumber was born and grew to kingly estate on the C.P. R. demonstration farm at Strathmore, being cultured and watered by the officials in charge of the station. From tip to tip the cucumber measures 27 inches, and its circumference is nine inches. The weight is five pounds, three ounces, and at the prevailing market price of 20 cents per pound, the vegetable is worth more than one at so give his customers the best in tea, the convention at Detroit, May 16, 17, and 18. Thence they came by Chicago, St. Paul and Portal to Calgary. Their routs further is to Vancouver, by steamer to Seattle, a day in Portland, two days in San Francisco, three days at Los Angeles, a day at Grand Canyon, one at Denver and one at St. Louis. The trip will conclude at Philadelphia on June 14, and the men will be back home after just exactly a month's absence.

All of the men, who have served long on the railways of the States, were in the best of form on their arrival here and expressed themselves as highly delighted with the trip as far as it had gone. Some of them did not think the arry working the vegetable is worth more than one vegetable is worth more than one

According to officials of the railroad, cial car on which they are travelling the cucumber is just one of a gigantic crop raised in the Strathmore greenhouses this spring. Photographs accompanying the vegetarian visitor showed many other of his kind, all ranging from 15 to 20 inches in length.

#### ANIMALS AS DOCTORS

Both Wild and Domestic Animals Knew Hew to Treat Illness.

It is held that the simple remedies of It is held that the simple remedies of nature generally suffice to cure beasts of their ailments, and that they are guided to them by instinct. A large number of species wash themselves and bathe—elephants, stags, birds, ants, etc. Animals rid themselves of their parasites by using dust, mud and clay. Those suffering from fever restrict their diet, keep quiet, seek darkness and alry places, dring much water and sometimes plunge into it from time and sometimes plunge into it from time to time. When a dog has lost its appe-tite it eats that species of grass known as "dog's grass." Cats also eat grass and catnip when sick. Sheep and cows

Newspapers and Children.

Newspapers and the question:
Some one has asked the question:
Shall we allow our boys and girls to
Shall we allow our boys and girls to read the newspapers?" Of course, we all know why such a question is asked. read the newspapers?" Of course, we all know why such a question is asked. There is much in our daily paper we wish might be eliminated—the murder trials, divorce proceedings, crimes without number in all their revolting aspects, and what Lowell calls the "stagnant goose ponds of village gossip." But, since fathers and mothers read the daily paper, they cannot consistently prohibit their children from doing the same. In its way, the newspaper is a great educator. It brings us each day in touch with the whole world. Its recapitulation of current events is timely and helpful. The newspaper is a necessity. We could not spare it from our table in spite of its faults. There are newspapers and newspapers. It is for each parent to bring into his home as clean a sheet as he can, knowing that the innocent eyes of his little children will scan its page.

## REACH CALGARY ON LONG TRIP

On a Month's Tour

The party left Philadelphia on the morning of May 15 and went over to the convention at Detroit, May 16, 17, as in other articles. "Salada" does no

regetable is worth more than one up to see even the sights of Caigary and they preferred to stay on the special contents.

#### CALGARY'S SIX NEWEST POLICEMEN WEIGH 1.150 POUNDS

Young Giants Picked by Chief Cuddy Out of List of Fifteen Applicants

Calgary annexed 1150 pounds of policemen yesterday. The six new men to wear uniforms, with the apto time. When a dog has lost its appetite it eats that species of grass known as "dog's grass." Cats also eat grass and catnip when sick. Sheep and cows in the same circumstances seek out certain herbs. An animal suffering from chronic rheumatism invariably keps as much as possible in the sun. The warrior ants maintain regularly organized ambulances.

Latreille cut the antennae of an ant. Other ants covered the wounded part with a transparent fluid from their mouth. If a chimpanzee is wounded it stops the flow of blood by placing its hand on the wound or dressing it with leaves and grass.

A terrier had an injured eye. It remained lying under a counter, avoiding heat and light, although it had been its habit to keep close to the fire. It adopted a general treatment—rest and abstinence from food. The local treatment consisted in licking the upper surface of its paw, which it them applied to the wounded eye, again licking the paw when lit became dry. Cats also when hurt treat themselves by proval of Mayor Sinnott, of cours
