**SUMMER FALLOW FOR
FALL WHEAT CROP**

Thorough Preparation of the Land Demands an Early Start

The requirements of our European allies in regard to wheat are normally 900,000,000 bushels annually, of which they import 400,000,000 bushels, or nearly half. An effect of the war is the reduction of wheat acreage in the countries of Western Europe through invasion of territory and the turning of a great proportion of the man-power of these countries from agriculture to military service. Consequently, production "over there" is reduced even though acreage yields have been maintained through the efforts of the boys and women of the invaded countries. As a further consequence it now devolves on the farmers of North America to make up the difference between the present and the former wheat production of those countries in addition to producing the amount exported in normal times. In fact, even greater production than this is necessitated by the shutting off of supplies formerly received by Europe from Australia and other distant countries, by shortage of shipping.

There is little doubt that the farmers of the United States and Canada can, this year, produce the 400,000,000 bushels required by our European allies. The estimate of the United States Fall wheat yield is 560,000,000 bushels and although the Fall wheat in Canada proved a 50 per cent failure, there is a considerable increase in the Spring wheat area and the crop to date is doing famously, as is the Spring wheat in the United States. However, the good outlook is no excuse for letting up on the saving of every possible grain of wheat because there is another year coming, in which the French, Belgians and other allies will be little better than able to provide their normal home-grown supply than they are this year.

In addition to the need for the practice of strict economy in the use of wheat by consumers on this continent, there is also the need for immediate action on the part of the farmers in preparing for the sowing of a great acreage of fall wheat. Last year's poor experience with this crop must not be allowed to discourage the growers, they should rather undertake the work with a determination to provide fields for the sowing of the crop that are better drained, better cultivated and more generously fertilized than ever before. No reason for the very general failure of fall wheat last winter can be advanced, except the peculiar severity of the season, though it must be admitted that late sowing of the crop was responsible in some instances. This last-named drawback must be fended off this year by taking every opportunity to prepare the land early, with particular regard to summer fallows.

**THE COUNTY COUNCIL
\$70,968.37 Spent for Good Roads**

The session of the county council last Thursday morning was chiefly taken up by the report of the good roads committee for the year and in discussing the same.

The expenditure on the county roads up to the 16th November have been: For general expense, \$5,729.78; for maintenance, \$29,491.28; for construction, \$35,747.31; a total of \$70,968.37. This will be increased by the cost of work in progress, the completion of contracts and grants to villages. It is not expected that the estimates for the year will be exceeded. The construction work included five cement bridges, eleven culverts and the grading of approximately fifty-one miles of road. The machinery purchased included: 6 road graders, 53 road drags, 6 road scrapers, 3 wheel scrapers, 2 road plows.

An effort has been made to have the old plank road running from Tillsonburg to Port Burwell included in the good roads system said Reeve Tolmie. This was strongly supported by the Oxford County Council and the municipalities of the Woodstock, Ingersoll and Tillsonburg, all of which desire a good road to the lake. We were notified that the application would not be granted.

Reeve Hare of Malahide reported that he and Warden Cornell had made a careful inspection of the good roads in South Dorchester, Bayham and Malahide and had been well pleased on the whole, although they had found the roads in South Dorchester too narrow and many of the culverts in need of repair. The ratemakers in that township, he reported, were well pleased with the work done but were anxious that the committee should expend more money on their system as they wanted their roads as good as they possibly could be.

In Bayham and Malahide they found the greater portion of the roads in fine shape, but the gravel pits in use containing too fine material and Mr. Hare believed the committee would have to use the gravel from the main pit in Yarmouth.

On Thursday afternoon the report and recommendations of the Public Improvement Committee took up considerable time and discussion following the reading of the report by Reeve W. T. Hare, of Malahide, chairman of the Committee. The

THESE ARE FAMILY TIMES

and family ties and interests pervade everything. It is a time when the value of the Youth's Companion to the family is doubly appreciated. It serves ALL, every age, because youthfulness has nothing to do with years, and the paper appeals to the hopeful—the enthusiastic, those with ideals. The Editorial page is for full-fledged minds, and the Family Page, Boys' Page, Girls' Page and Special Features delight all hands. The Companion is a friend, a servant, a story-teller, an informer, a physician and a humorist. It not only stands for the best things but it furnishes them. The brightest, the surest and most trustworthy periodical—and known as such for over ninety years. The family favorite in the homes that make America what it is to-day.

Although worth much more the paper is still \$2.25 a year.

Don't miss Grace Richmond's great serial, *Anne Exeter*, 10 chapters—beginning December 12.

The following special offer is made to new subscribers:

was held on Friday afternoon when the resignation of K. W. McKay, as county treasurer was very reluctantly accepted. Mr. McKay, who is also secretary of the county, explained that his duties were becoming so heavy with the two offices, that he did not wish to continue at the old salary. The council did not feel they cared to increase the salary and his resignation was accepted in the hope that he may yet reconsider the matter. A special session will be held on December 17th, when the appointment of a new treasurer will be decided upon. Reeve Oscar McKenney, of Aylmer, and Warden Cornell were appointed a committee to receive applications for the position.

At the instigation of Reeve W. Todd, of Yarmouth—a motion was passed unanimously that the council memorialize the government and petition for a war souvenir to be placed on the court house grounds.

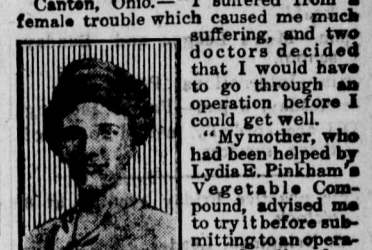

Grants to be Accumulative

A noteworthy motion by Reeve McKenney and Reeve Graham dealing with the government grants for good roads work was passed unanimously, the motion reading: that it

is the opinion of this council that grants to villages and towns under the provisions of the highways act should be accumulative and available for expenditure at any time, the motion to be referred to the department for their approval.

In bringing up the matter Reeve McKenney explained that some of the municipalities this year had been unable to use their grants on good road improvement on account of the scarcity of labor and material. He thought that, because a municipality was unable to take advantage of the grant one year, they should not lose the money entirely. Reeve Graham stated that by adopting the motion the council was removing any doubt that might exist regarding the meaning of the clause in the act dealing on the matter, which was somewhat ambiguous. The Minister of Highways, he stated, had informed him that the real meaning of the act had been that the grants should be accumulative.

**HOW MRS. BOYD
AVOIDED AN
OPERATION**

Canton, Ohio.—"I suffered from a female trouble which caused me much suffering, and two doctors decided that I would have to go through an operation before I could get well."

"My mother, who had been helped by Lydia E. Pinkham's Vegetable Compound, advised me to try it before submitting to an operation. It relieved me from my troubles so I can do my house work without any difficulty. I advise any woman who is afflicted with female troubles to give Lydia E. Pinkham's Vegetable Compound a trial and it will do as much for them."—Mrs. MARIE BOYD, 1421 6th St., N. E., Canton, Ohio.

Sometimes there are serious conditions where a hospital operation is the only alternative, but on the other hand so many women have been cured by this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, after doctors have said that an operation was necessary—every woman who wants to avoid an operation should give it a fair trial before submitting to such a trying ordeal.

If complications exist, write to Lydia E. Pinkham Medicine Co., Lynn, Mass., for advice. The result of many years experience is at your service.
