LONDON SPORTING ENTERPRISE.

The Gun Club's Magnificent New Trous Pond at Dorchester—A Pleasure as Well as a Fishing Resort.

That enterprising organization, the London Gun Club, has made application to increase its capital stock from \$4,000 to \$5,000. This is done in order to extend its operations and take in another branch of sport—that of angling. With this end in view the club have purchased the well-known Cartwright pend at Dorchester and intend in April next to stock it with 100,000 trout. They are also negotiating with Garnham, of Guysboro, to build a hatchery there so that the fry may be bred on the spot. In the meantime the pond will be drained and thoroughly cleaned out for next season's sport. Cartwright's pond is a magnificent sheet of water and is already famous for its fishing qualities. The club could not have alighted on a better or more convenient locality. There is also a fine trout creek four miles long connected with it.

It is intended that the locality shall be a pleasure as well as a fishing resort, and to meet the former purpose about twenty acres on the banks of the pond have been secured. The land is naturally beautiful, and with a few improvements can be made into a first-class pionic ground. A boathouse to cost \$150 will be erected and several handsome boats will be provided for the ladies, the members and their friends. The place will be called the London Gun Club's Fishing Resort.

The additional stock, which is in \$50 shares, is nearly all paid up. The officers are as follows: President, George C. Gibbons; vice-president, Chas. S. Hyman, M.P.; manager, John P. Evans; secretary, Fred. T. Trebilcock. The treasurer will probably be T. G. Davey, George S. Birrell having removed from the city. Among the directors are: D. S. Dewar, N. S. Williams, D.
