Last Thursday about ten boys belonging to this city armed themselves with revolvers and sling shots and started out into the country to have some fun. When they got to school section No. 20, London township, the children were enjoying recess, and the boys ammsed themselves by stoning them with the slingshots and scared the children by a promiseuous firing of revolvers. Several scholars were hurt with the stones and the teacher has laid a complaint before Constable Ward. Four of the boys will be summoned immediately. London West Council.

The London West Council met last night, with Deputy Reeve Scarrow in the chair. Councilors Smith, Spence and Collins, with Clerk Bartram, were present. The only business done was the passing of accounts and the hearing of the Board of Works' report on the condition of the village. The streets are all getting into first-class shape, as are the sidewalks. The empty houses are fast filling up, and in a little while there will hardly be an empty house in the village. The villagers generally express great confidence in the breakwater since it withstood the onslaught of the late furious flood.

The Strike Continues.

"I am of the opinion that the tailors will shut up shop rather than sign the men's bill," said a tailor this afternoon in speaking of the strike. "We made a reasonable offer to them last night. They have now refused to allow a man working on a coat at the time they went on strike to complete the job." The men are firm and do not seem to trouble themselves over the affair at all. They will not agree to the bosses' bill, which, they say, gives them 50 cents too little on a coat. The men further say that they will in future attach the union label to all union-made coats so that the public may know whether or not experienced mechanics are making their clothes. The bosses claim that there are some poor workmen who are members of the union, and object to paying all the same wages. At present there are no prospects for an early end to the strike. Arbitration has been proposed.
