25,000 Square Miles of English Scenery .- The Two Rivar Cities Hobart and Launceston-Mr. Gal.an Describes the Beauties and Peculiarities of the Island Colony.

Hobart, Tasmania, Dec. 20, 1904,-Southern Ocean. Its long rolling waves told Captain Cook, a century and a quarter ago, that it was idle to look for land to the southward between Tasmania and the polar ice-fields. The homes with empty pockets, but with Quebec, the New Ontario, the Mani- healthy complexions and happy hearts. toba, the British Columbia, the rolling prairies, the Rockies and the Klondike ow the green Antarctic waters.

that he is still in Australia. But there prominent office and a permanent secis here a greenness in the leafage, a moisture in the air, a cold vigor in the wind and a blueness in the distance not to be found in any part of the continent. The resemblance to England is also kept up artificially by dividing the island into counties and calling them Cornwall, Devon, Dorset, Somerset, Kent, Pembroke and Buckingham, English, too, is the small scale upon which nearly everything Tasmanian is built. Look at the map of the world and the island is represented by little more than a dot. The Sydney Bulletin, which has a rare faculty for choosing names that stick, always dubs Tasmania the Fly-Speck. In its columns you will read of Hobart, the Fly-Speck Capital, of the Fly-Speck Governor, the Fly-Speck Parliament and the Fly-Speck Finances. When a name so contemptuously diminutive is given to an island-state nearly as big as Ireland, it gives you a hint of the big ideas which a nation gets as a result of having a continent all to itself. A still more curious light is thrown upon the Australian sense of proportion when you find, in the heart of Tasmania, a little eighteen-mile stretch of water, proudly called the Great Lake. And really is a great lake for Australia.

On the map you may see big-ger lakes marked, but their waters and they degenerate during droughts into mere salt bogs. When I found Tasmanians so proud of "large body of fresh water,"

geographical fact like that would be to pass judgment on the comparative taken as a more deadly insult than any charms and virtues of the two. It is vulgar name that the Sydney Bulletin appalling to think of the perjury com-A BEAUTIFUL ISLAND. is fierce beyond the precedent of any much the same part to Australia as Victoria, is as nothing compared with modern war is suggested by the small Newfoundland does to Canada—much the jealousy between Launceston and the same part as Madagascar plays to Hobart.

The grass slopes gently down to the I have ever used." This remedy is for Here there is the best of fishing to be water's edge. The little stream, no had in spots of rare scenic beauty. The longer dancing over rocks, widens here into a great basin, more than one hundred feet deep. Into it the Esk comes bounding down from the hills beyond, rests a moment in the open sunshine and then goes rushing off again down the Gorge to the Tamar. The Basin and its valley are surrounded by hills. Above a suspension bridge leads to the other side and a zig-zag path back to town gives the visitor a succession of new views. Accessibility, after all, is one of the main charms of the Gorge. In all its pristine beauty it lies in the center of the city, within ten minutes' walk from the postoffice. The busy man can take it regularly as an appetizer before meals instead of a sherry and bitters or a Martini cock-

> PROSPEROUS, NOT PROGRESSIVE. Opon the Gorge rests Launceston's claim to exceptional natural beauty. Admitting Hobart's superiority in this, it dubs its rival Slow-bart and boasts unceasingly of its own progressiveness. The idea of progressiveness, in connection with anything Tasmanian, has a humor all its own. Tasmanians are prosperous, it is true, because their island is free from the curse of drought and, when Australia lies parched and barren, there is always an assured and high-priced market for Tasmanian produce. That makes the island prosperous; but it would need some great convulsion of nature to make it up into progressiveness.

From Launceston on the Tamar, in the north, to Hobart on the Derwent, in the south, is a rail journey of 133 miles. It is a funny little narrow-guage road, but the carriages are comfortable, the speed fair, and the scen-ery delightful. At Evandale there is a glimpse of down-country guaranteed to make every fox-hunting Englishman homesick. In the distance, some twenty five miles from the track, snow-capped Ben Lomond towers above the neigh-

plunges into a mountain tunnel, three-quarters of a mile long, and then in-sinuates itself by curves innumerable down into the conditional plants of the many drives. down into the orchards and hop gar- for which Hobart is famous,

dens of the Derwent valley. SOMETHING ABOUT HOBART. On the grand estuary of the Derwent lies Hobart Town. Above rises Mount Wellington, a noble pile. Few cities have a site so fair. Harbor and mountain, mountain and harbor, harbor and mountain-compare them as he may, who can say which is the more beautiful in its way. Till I saw Hobart I did not believe that Sydney harbor had a rival. The first glance shook my allegiance and I fear it will be well nigh it merely as it appeals to the artist in me, not to the man of business. As a shelter for shipping of the state of the artist in shelter for shipping of the state of the stat shelter for shipping, Sydney harbor no including Government House, the Cusdoubt is the better, but there is, after all, a great sameness in its aspect. Its shores are everywhere about the same height, rise steep from the water in much the same way, and are clothed in the same shade of dull green gumtree, relieved by red-roofed villas. In Hobart there is more variety and more grandeur. The harbor fore-shores are gently sloping farm lands, smiling with crops at every stage of progress. Gradually they rise into the pic-turesque hills of the middle-distance, in the back-ground tower the

mountains. Of these the chief is Mount Wellington, and I believe that it adds bart today is its tram system. If even more than the harbor to the charm of Hobart's situation. THE ANCESTOR WORSHIP OF THE JAPANESE

FACT IN THEIR LIVES.

This ancestor-worship of the Japanese is no superstition; it is the great essential fact of their lives. "Western of 4,166 feet. Last year some athletic club organized a race to the top and resembles Niagara. One's inclination of their writers, "but therein lies the back—and two men lost their lives in is to run for shelter. Personally 1 philosophy of our patriotism." It was of this feeling that Lafcadio Hearn should be given with each tram ticket. wrote; "It is probably the most profound and powerful of the emotions of the race-that which especially directs national life and shapes national character. Patriotism belongs to it. Loyalty is based upon it. The soldier who, to make a path for his comrades through the battle, deliberately flings away his life * obeys the will and hears the approval of invisible witnesses."
This is Yamato Damashii (the soul

of Japan). It found its righest development in the lives of the military knights, the samurai of feudal days, whose code of precepts formed Bushido, so cleverly expounded by Dr. Nitrobe. Since the beginning of the present war there have been many explanations of the remarkable Japanese successes. But more than ever before it has been shown to be spirit that quickeneth" which has "won the battles on the Yalu, in Korea There is a widespread notion that the

Japanese soldiers are tatalists, because when they join the colors in war times they call themselves kesshitai (determined to die). But only in a restricted sense can they be called fatalists. They count their lives as forfeit, it is true, but only in the sense that each man is quite willing to die and expects, when his crisis comes, to give his life, if necessary, for the success of his task. He hopes to comback, but only as a victor. Better far that his bones bleach in a foreign land than that he should return to home defeated or with his work unaccomplished. This is the real meaning of kesshitai. It is not that the soldier is bound at any event to throw his life away, but that in any event where success may be accomplished by his effort he will win even at the cost of his life—he will succeed or die. The code of the samurai "conceived the code of the state as antedating the individual," possible. Tasman's peninsula, though and "the latter being born into the former as part and parcel thereof, he must live and die for it, or for the legitimate incumbent of its authority." -The Century.

The Awful Helplessness of Locomotor Ataxia

A Test Whereby This Dreadfully Common Form of Paralysis is Detected in Its Early Stages-Cure is Then Readily Effected by Dr. Chase's Nerve Food.

The sufferer from locomotor ataxia is known by his peculiar shuffling gait in walking and the flop with which the feet are put down. About the first indications of this disease are loss of sensation in the feet and shooting

pains in the legs. Like other forms of paralysis, however, locomotor ataxia comes on gradually as the result of exhausted nerve force, and is accompanied by such symptoms as wakefulness, irritability, headache, restlessness of movement, twitching of the nerves, momentary defects in sight and hearing and difficulty in

controlling movement of the limbs. The time to begin treatment is at the first indication of nervous exhaustion, for you can be certain then that, if not locomotor ataxia, some other dreadful form of helplessness will

Dr. Chase's Nerve Food is the most effective treatment ever devised for the cure of locomotor ataxia, paralysis and all diseases of the nerves.

First, because it is composed of the ingredients which the foremost physicians assert are the most certain nerve restoratives.

The Test

Stand with feet close together and eyes shut. If you are a victim of locomotor ataxia your body will sway from side to side and you may fall over.

You will also be unable to walk in a straight line with your eyes shut, and only with difficulty with them open.

Second, because it has established an enviable record in curing these diseases.

When you use Dr. Chase's Nerve Food you can be absolutely sure that, search where you will, there cannot be found a more certain means of forming new, rich blood, creating new nerve force and restoring and revitalizing wasted and depleted nerve cells.

Was Afraid of Falling.

Lost Control of Legs and Could Scarcely Walk -The Numbness of Paralysis Throughout the Body.

Mrs. Barbara Bush, Dixon, Stormont Co., Ont., writes :- "I suffered a great deal from dizziness in the head and numbness of the whole system, more especially the hands and arms, feet and legs. When I tried to walk my legs seemed to want to cross each other and I would be afraid of falling and grasp for a chair or table. I also had distressing nervous feelings at times, and suffered from a gnawing sensation in my stomach. Dr. Chase's Nerve Food built up my nervous system and removed the miserable feelings from which I suffered. As I am seventy-three years old my system was run down and this treatment seemed to be exactly what I needed. I hope others will benefit by my experience.

Dr. Chase's Nerve Food

50 cents a box, 6 boxes for \$2.50, at all dealers or Edmanson, Bates & Company, Toronto. To protect you against imitations the portrait and signature of Dr. A. W. Chase, the famous receipt book author, are on every box. You can cure coughs and colds and prevent pneumonia and consumption by using Dr. Chase's Syrup of Linseed and Turpentine.
