

LARGE ENTRY LIST FOR THE O. R. A. MEET

Canadian and Australian Bisley Teams Entered in Matches.

Toronto, Aug. 12.—The fortieth annual meet of the Ontario Rifle Association will commence at Long Branch Rifle Range next Tuesday, and will continue for four days, with the largest entry on record. Captain Miller, secretary of the association, expects to have at least four hundred entries, which is about fifty more than there were last year. The increased interest in rifle shooting which is being manifested this year is attributed by the secretary largely to the success of the Canadian team at Bisley.

Entries for the matches are now nearly all in, as those which came in after last Tuesday have to pay 10 per cent extra in fees. In addition to those from Ontario there are entries from British Columbia, Alberta, Manitoba, and several of the Maritime Provincial associations. The greater part of the Canadian Bisley team will take part in the matches.

Following are some of the units which will be represented at the meet. Thirty-eight Regiment, five entries; Twenty-fourth Regiment, 5; Forty-eighth Regiment, 30; Tenth Royal Grenadiers, 35; Queen's Own Rifles, 35; East York Rifle Association, 6; Seventh Regiment, 6; Ninety-first Highland Regiment, 15; Thirty-first Grey Regiment, 5; Forty-sixth Regiment, 7; Twelfth York Rangers, 12; Eighth Royal Rifles, Quebec, 2; British Columbia Provincial Association, 15; Alberta Provincial Association, 12; Governor-General's Foot Guards, 6; Royal Military College, 1; Royal Canadian Regiment, 5.

The Harbor Street Collegiate has entered thirteen cadets in the matches for cadets, and cadet entries are expected from the other Toronto colleges and from Hamilton. The programme contains nineteen matches, of which three only are limited to the militia. The rest being open to the civilian rifle associations throughout Canada. The prize list amounts to \$5,000 in cash, in addition to numerous trophies, cups and medals, including handsome gold, silver and bronze medals donated by His Excellency the Governor-General, the National Rifle Association of England, the Dominion of Canada Rifle Association, and the Corporation of the city of Toronto.

For the revolver match a gold medal is given for the championship of Ontario. The trophy match is restricted to competitors who have never won a prize at any Dominion or Provincial meeting, and each regular match contains a number of prizes for tyros who do not obtain a place in the open class.

Arrangements have been made for single rates for transportation, and camp accommodation for competitors can be obtained at the ranges. The entries for all the matches do not exceed \$10, so that the expense of attending the matches is very moderate.

The rifles to be used are the Lee-Enfield or the Ross, those authorized by the militia department. At a meeting of the O. R. A. executive, held yesterday afternoon, it was decided that the hoods on the fore sights of the Ross rifles must not be removed while shooting.

For the safety of boaters off the shore during the matches red buoys are being placed in the water, two thousand yards from the shore. In regard to this Captain Miller said that any persons passing within these buoys while shooting is in progress will do so at their own risk.

The executive officer for the matches is Major N. S. Mercer, who was adjutant of the Canadian Bisley team, and the statistical officer will be Lieut.-Col. W. Wallace, formerly of the Thirty-sixth Regiment.

WU CALLED HOME

Minister's Acted Representative at Washington To Be Replaced.

Washington, Aug. 12.—Chinese minister Wu has been recalled by his government. The recall of Minister Wu came in a cablegram to the Chinese legation. This stated that an imperial decree had been issued recalling Dr. Wu, and naming Chang Yin as his successor.

Recall surprised Government circles. Dr. Wu has been the accredited representative of China in the American continent since March, 1908, during that time has done much to add to the reputation he has gained among the people generally, and his first term as minister in the United States, of being one of the most popular diplomats who ever came to Washington. His wit and intellect in American life made him a familiar figure. During his present ministry he became a convert to a vegetarian diet, and announced that he intended to live to be a hundred years old.

His sympathies with the United States during the Boxer troubles led to his first recall. It was supposed then that he was to be beheaded, but his government promptly intimated that such a course would be offensive to the United States.

CAUGHT AT THE CIRCUS.

Toronto, Aug. 12.—Wm. Hood, who was wanted at Parry Sound on a charge of theft, was arrested this afternoon at Barnum & Bailey's circus. Toronto Police had tired of looking for Hood, but Detective Wallace spotted his man enjoying the show, and promptly arrested him.

SPIELER ARRESTED.

Toronto, Aug. 12.—James Heard, spieler at the Gem Theatre at Hanlan's Point, was arrested tonight, charged with stealing suitcases with contents from Hanlan Hotel guests, during the excitement due to the fire at the point.

ALL THE WEST IS WATCHING WEATHER

Final Stage of the Wheat-Growing Season Is at Hand.

Winnipeg, Aug. 12.—The weather, which is a formal topic of conversation under ordinary circumstances, is a serious business in the west at present, on account of its close relation to the prosperity of the country. A few more bright days will practically guarantee the success of the year's farming operations, in bringing to maturity the biggest crop of grain ever sown on the prairies. The conditions which have prevailed so far have not been ideal, and a better state of affairs from now on will be required to cause a fulfillment of the hopes of the people. The elements have been fractious at times during the past couple of months, and many farmers have occasion to lament the severity of the atmospheric demonstrations. Heat is an essential factor in the production of grain, but it may be a detriment. An uneven distribution works havoc with tender plants, and while the damage thus caused may not be serious in the aggregate, it involves a heavy loss to particular districts. The same is true of rain. It is undoubtedly a fact that moisture cannot be too abundant at certain seasons of the year. It should come early, however, in order to confer the greatest benefits and the longer its arrival is delayed the greater is the risk of injury to the crop. From the effects of these elements it is possible that the grain may recover, and one of the satisfactory features of the growing time has been the recuperative power of the plants themselves. The damage caused by a dry spell early in the year may be diminished by a judicious sprinkling of moisture during the balance of the season. In the same way the effects of a flood or cloud-burst may be overcome by a regular and well-distributed supply of warmth. Even frost may cause little damage unless it be sharp with the accompanying conditions equally favorable. For instance, if the mercury drops below the freezing point suddenly in August after a period of hot, dry weather, the probability is that the grain is caught in its tenderest and most sensitive stage. It is often found, too, that a cold snap of that kind is followed by another series of warm days, in which case the depth and extent of the injury are immensely increased. Cool, moist days and nights preceding and following a dip of the thermometer would minimize the amount of damage always provided, of course, that the freezing process be not repeated. The recuperative power of the growing grain has been demonstrated many times within the past few years, and the frost has, in some measure, lost its terrors for the farmers when the circumstances surrounding its visit are favorable.

HIS QUID SAVED HIM

Swallowed It When Shocked and Tobacco Kept Heart Going.

Logansport, Ind., Aug. 12.—August Walters, a park policeman, was almost killed by electricity while assisting a line man who was repairing an overhead line in Riverside Park. The line man requested Walters to let down the wire, and he grasped the wire cable, which is used to lower the lamp. Instantly he flashed from Walters' body, and after spinning around in the air he fell, but was unable to release his hold on the cable, and was pitched and thrown about with great rapidity.

It was several hours before Walters regained consciousness. He received a current of 2,200 volts.

Physicians attribute Walters' escape from a tragic death to the fact that when he first grasped the cable the shock caused him to swallow a big quid of tobacco. This tobacco in the stomach acted as a stimulant and kept up heart action.

FOUND HUNTER CRYING

Lindsay, Aug. 12.—Joseph Hunter told today when the murder of his wife was mentioned to him for the first time. He apparently did not know anything about it. Dr. Jeffers, the jail surgeon, and L. V. O'Connor, lawyer for the defence, broached the murder to Hunter. The man did not know, he declares, what he was held in jail for.

"You have shot your wife," Dr. Jeffers said. Hunter seemed crushed and sat with his head in his hands for a time. Afterwards he stated that he did not recollect anything of the occurrence. The whiskey Hunter consumed during the last few years affected his brain, and this is the one basis on which the hopes of the defence are built.

Hunter's mother visited him today. Many others called to see him also. At present his hotel in Bobaygeon is shut up, the bartender being the only man in authority. In the jail yard Hunter was discovered crying like a child by the jailer.

ARE YOU GOING AWAY?

Have The Advertiser follow you. Change of address will be made as often as desired. Drop a card or phone 107. In requesting change of address give old as well as new address.

CHARGED WITH FRAUD.

Quebec, Aug. 12.—Detective Welch arrived from Montreal this evening, with a man named Samuel Kaufman, who is wanted here on the alleged charge of obtaining money under false pretences. According to the charge upon which Kaufman, who is a tailor by trade, has been arrested, is that of having parties buy cloth to be made into suits, he being the maker. After completing the suits it is alleged he sold the clothing to other parties and pocketed the money.

TWAS A NOTABLE DAY DOWN BY THE LAKE

Port Cottagers Play "Classy" Ball—Rifle Match—Two Bad Accidents.

[Special to The Advertiser.]

Port Stanley, Aug. 12.—On Friday afternoon while playing with the village ball team against St. Mary's the beach diamond, Arthur Bowling, of 582 Ontario street, London, was struck by a ball, and had one rib broken. Bowling was knocked completely down and out for a time. He is a lad 17 years of age and has been employed by the London Printing and Lithographing Company. Bowling was spending his holidays with Mrs. Arthur Glover on Colborne street.

Mrs. Arthur Glover, Colborne street, had a valuable cat run over and killed by a tractor car yesterday morning. The owner of the cat, the summer resident, had his finger taken off while oiling the engine yesterday. If the engine had not been going slowly he would undoubtedly have lost his entire hand.

Mrs. Ed Heyward and daughter Ethel, of Toronto, have returned home after visiting Mrs. Harry Lewis at Louisville Cottage, Willow Beach.

Mr. and Mrs. George Babbitt, of St. Thomas, are the guests of Mr. and Mrs. George Ellison, Hill Crest.

Mr. T. Haight, of Hill Crest, has returned home after visiting friends in St. Thomas.

The Misses McKenzie and Howie, who have been summering at Summerholm, Orchard Beach, have returned to London.

Mrs. J. C. Cook, of New York, is spending a few days on Hill Crest.

Mrs. Locke, of Hill Crest, has left for Hamilton, where she will visit her daughter, Mrs. McGregor.

Norman and Donald McGregor, of Hamilton, are the guests of their aunt, Mrs. W. Leonard, Hill Crest.

Mrs. W. Leonard, Mrs. Marjorie Ford, and Miss Bessie Ford, of Wellington, Va., are the guests of Miss Jessie Pratt, at Broadway Cottage, Orchard Beach.

Miss Ethel Welch, of The Knoll, New Orchard Glen, is visiting with friends in London.

Miss Mildred Mills, of London, is spending a few days with Mrs. Mary Darch, Brookside, Orchard Beach.

A Lucky Find.

The watch and chain which Miss Eva Southcott lost on the beach were found and returned to the owner by Miss Jessie Bell, of Outlook Cottage, Hill Crest.

Miss Marjorie and Master Thomas Rowe attended the circus performance in London.

Mr. and Mrs. Robert Reid, Shedd, and Mrs. Edmunds and daughter, of Fingal, spent Tuesday with Mrs. Thomas, Columbia Cottage, Erie Rest.

Miss Mildred Granger, of London, is the guest of Miss Marjorie Rowe, at Ro-Erie Cottage, Erie Rest.

The Misses Hannah, of Grantham Cottage, Erie Rest, have returned after spending a few days in London.

Miss Winifred Lancelotti, of London, moved to her new home in Hamilton yesterday.

Erie Rest cottagers have placed a tennis court on Mitchell's hill. Some exciting games are promised.

Mr. MacCorkell, and Mrs. James Lipsey, of Colborne; Miss Beryl Berg, St. Thomas, and Miss Etta Bowers, of Ingersoll, are the guests of Mr. and Mrs. A. C. Kerr, Wastena Cottage, on Fraser Heights.

Miss Lou Tate, who has been spending a week with the C. C. Club at Stanley Cottage, Erie Rest, returned to her home in Glencoe today.

Miss Kate Lancaster, of London, is visiting Miss Leah Thomas, Columbia Cottage, Erie Rest.

Rifle Contest.

The rifle contest on Willow Beach by teams captained by R. J. Miller and Henry B. Keene, was won by Mr. Miller's team by 8 points, the scores being 17 to 9. The teams were as follows:

R. J. Miller, H. B. Keene, Oliver Keene, Wm. Shannon, Wm. Calcott, H. Brock, Geo. Miller, Albert Trick

Mr. Albert Trick won the heavy quill putting contest played on Willow Beach. He threw 7-pound quills 75 feet.

Messrs. R. J. Miller and Albert Trick won the double quill contest, defeating all comers.

Return Baseball Match.

William and Bessie streets, of Willow Beach played the return ball match Tuesday evening. Bessie made the proposition that each team play three ladies, which was readily accepted. Rev. J. Culp appeared as catcher for the Bessies, and caught as an oldtimer, without a glove, mask or protector. Not a runner stole second on him.

Henry Brock had the Williams at his mercy (striking out the batter). Mrs. Butler, Mrs. Trick and Mrs. Jones were conspicuous on base-stealing.

Mrs. Young played well at third and made a splendid hit. Mrs. Davidson, with the bases full and two out, batted the atmosphere, and retired to the hillside.

Miss Shannon played centre field, and had a busy time chasing the many long drives to the deep garden.

Umpire John Locke lacked the nerve to bench Mrs. Butler and Mrs. Davidson for disputing his decisions. Clare Jones held down first splendidly.

Charles McCorkell played first and second in a fine way, after the ball all the time. Arthur Carruthers made a daring attempt after a high fly, but collided with one of the ladies, and fell flat to the ground disoriented.

Little Johnnie Young made a splendid catch in left field, but didn't know it, and lost the opportunity of a triple play.

Robert Miller and Oliver Keene, the star battery for the Williams, were invincible. Billy Shannon played short and couldn't find the ball, but was there with the bat.

High Dick Hill had the high batting average, 2 hits, 2 at bat. Ray Culp was afraid of the pitcher, but made a fine running catch.

A Chance to Buy School Stockings

At Little More Than Half

Heavy One-and-One Ribbed "Fast Color" Cotton Hosiery, suitable for either boys or girls, guaranteed to stand exceptionally hard wear. Sold regularly at 25c pair. Sale price Saturday morning and on sale for the one day only, at per pair (black and tan) 15c

FINAL SALE OF LONG LISLE GLOVES

Splendid half-dollar qualities. Sale price, per pair, 29c. Tan, black and white. Perrin's perfect-fitting long gloves, two-dome wrists.

Black French Taffeta, Chiffon Finish, Heavy Quality. Young's Extra Special, at, per yard 49c

Just a piece (100 yards) each of two qualities of French Taffeta, in black only. One a rich chiffon-finish silk, for waists or gowns; the other a heavy-weight, splendid wearing silk that we sell particularly for petticoats and coats. Either of these silks would be good value at 65c, and a genuine bargain at, per yard 49c

Slightly Soiled White Gowns to Clear Saturday at 98c

White Skirts, Embroidery Flounce Regular \$1.50. August sale price 98c

White Cambric Petticoats, deep flounce all-over embroidered, under flounce with lawn frill. Very special.

R.J. Young & Co. | R.J. Young & Co.

Henry Brock made a spectacular play, making a 50-yard dash for a fly, catching with one hand.

Albert Trick caught there on the coaching line, carrying the runners in, 25 to 5, in favor of William street, but taking compassion on the Bessies and not wishing to publish such a lop-sided score, gave them another inning, making the score 25 to 14. The following is the lineup:

William Street—Mrs. Young, 2b; Mr. McCorkell, 1b; Mr. Miller, p; Mr. Keene, c; Mrs. Trick, 2b; Mr. Richard Hill, r f; Mr. Jack Young, l f; Mrs. Jones, s s; Mr. Trick, c f.

Bessie Street—Mrs. Butler, 3b; Mr. Brock, p; Rev. Mr. Culp, c; Mrs. Davidson, r f; C. Jones, 1b; Mr. A. Carruthers, 2b; Miss Shannon, c f; Mr. Ray Culp, r f; Mr. W. Shannon, s s.

Street—William street 25, Bessie street, 14. Umpire—John Locke. Time—One hour.

AN AEROPLANE FOR EACH BATTLESHIP

Uncle Sam's Government Will Shortly Advertise for Bids.

Washington, Aug. 12.—If Secretary of the Navy Meyers approves, the navy department will shortly advertise for bids for two aeroplanes which will form the nucleus of the navy's aerial squad. The department's plans have gone no further than to frame specifications for the two aeroplanes, but back of it all there is the general plan, as yet not completely formed, of making an aerial fleet with the possibility that in the future every warship shall be equipped with an aeroplane.

The navy specifications for aeroplanes will be more difficult to fulfill than those which the Wright Brothers recently performed for the war department. The navy will require an aeroplane which will rise from or land safely in the water. It will be required to remain in the air two hours, carrying two passengers and have a speed of 40 miles an hour.

While these specifications, as compared with past performances of aeroplanes in these countries seem difficult, the experts of the department feel that they will have responses to the advertisements for the bids. Some of the officials of the navy department talked the matter over with the Wrights, when the Dayton aviators were at Fort Meyers, and these wonders of the air expressed confidence that they could meet the conditions set forth. There will be no price set by the navy department.

SOLD CRIPPLE CREEK

Colorado Springs, Col., Aug. 12.—Robert Womack, famed as the discoverer of Cripple Creek, died here yesterday in poverty, muttering to the last of new fields he hoped yet to find to replace the ten-million-dollar claims he sold for \$500.

Womack was the son of a "Fortyniner." Robert Womack, sen., who in the latter eighties had left to his son the heritage of a dream—that the gold which the father had sought in vain for forty years would be revealed near Cripple Creek if the son kept up the search. The father died; young Womack took his place as a prospector, and in spite of the jeers of others, ranged close about the Creek country with shovel and divining rod—for twenty years.

Then one day in 1901 he hit the yellow ledge. His friends told him it was "fool's gold," his brother-in-law and partner took it to the nearest assay office only after days of protest. He came back with a Government certificate to show that the "find" averaged \$1.00 to the ton.

That news made Bob Womack one day and broke him two days afterward. For, after staking out every claim throughout the length and

breadth of the gold lead, he went into town, spent all his nuggets over a bar and all his claims for \$500 more in order to make a final wager on the red—and a week later was digging gold with a pick for the man who had bought his rights to one of the greatest mines the world has ever known.

For the last five years of his life Womack had been too decrepit to work. For two years he had lain bedridden in a little lodging house cared for by an elder sister.

THE WORKING AGREEMENTS

The C. N. R. Maintenance-of-Way Men Are Satisfied.

Winnipeg, Aug. 12.—The Canadian Northern yesterday signed an agreement for the ensuing twelve months with the maintenance-of-way men. In this are included all the men employed on section work who have been in the service of the company for one year or more. The company sought some months ago to reduce the rate of pay of these men from \$1.75 per day to \$1.70 per day. The men, on the other hand, asked for an increase to \$1.80 per day. An appeal was made for a board of conciliation, which decided that there should be no reduction. The agreement signed by the representatives of the men yesterday was in accordance with the finding of the board. Many other matters of minor importance were included in the agreement.

An agreement has been arrived at between the electrical contractors and the Electrical Workers' Union regarding the schedule of wages, which has been fixed at forty cents as a minimum, an increase of ten cents. The strike, however, has not been finally settled, as the contractors insist that in future the union must file its demands before Feb. 1. In order that wages may be figured on in submitting tenders. This the men are not disposed to agree to.

FIRE AT NORWICH.

Norwich, Aug. 12.—The Oxford flour mills caught fire this evening and burned to the ground. The loss will be heavy. The cause of the fire and the amount of insurance are unknown.
