WILL C. P. R. GET THE P. M. LINES?

Rumor Is Revived of a Proposed Change in Canadian System.

BIG THING FOR LONDON

C. P. R. Is Said To Be Anxious To Take Over the Canadian End, Including the L. and P. S. R.

The announcement that the Pere Marquette was in the hands of receivers once more has given rise to rumors to the effect that the C. P. R. vould take over the Lake Erie and Detroit River Railway, together with the London and Port Stanley line. It has been known for some time that the Canadian Pacific was angling done to help it. I think the council should prices of food and other necessaries Pere Marquette, but satisfactory ar-

buying for that centre occurred here in moderate quantities. Reading and Lehigh Valley were the features of the second hour, both adding to early gains on rumors that the Reading case, now before the United States supreme court, is likely soon to reach a conclusion, Pennsylvania, long inactive, advanced to its best price in almost a year, and New York Central also rose substantially, but other standard rallway shares were barely steady. Coppers also held back, and the movement in specialities slackened, except in American Car and Foundry, which touched 61, a gain of 2½. Trading in the first two hours approximated half a million shares. Bonds were irregular. rangements could not be made. If the C. P. R. would secure control of the L. E. and D. R. R. and the L and P. S. line, it would give the company what they have been long anxious to secure—an entrance to the southern portion of the city. In addition it would give them connection with the city's line at St. Thomas, nother privilege the C. P. R. have been eager to obtain.

A Direct Line. HIGHEST IN YEARS

The Lake Erie line would give them direct line into the Leamington fruit belt, which would prove an excellent feeder to their western lines. There are other considerations that would be of considerable value, it is asserted.

The lowest wholesale price of fresh eggs in any April since 1830 was 7 cents per dozen in 1897. Last year they were 20 to 21 cents, and this year 25 cents.

Butter sold at its lowest wholesale April figures also in 1897, the price being 19 to 21 cents for creamery prints. A BOY MARVEL

New York, N. Y., April 8. - A London cable says: Barely 8 years old, a boy named Solomon, son of a poor east end tailor, made his public debut in the Albert Hall today before an immense audience, and proved himself a wonderful pianist.

It was only a few weeks ago that the boy was discovered, and he had never played on a grand piano before. So marvellous is his talent that a few days ago he played privately before the King and Queen at Buckingham Palace.

At today's concert the boy played delightfully Mendels-sohn's "Spring Song," Chopin's Valse in . Minor, and other pieces. The audience went wild with enthusiasm.

An extremely pretty Easter house wedding toow place this afternoon, when Miss Beata Garrett, daughter of P. J. Weekes, of this city. Rev. Dr. Sage officiated, the drawing-room being prettily decorated for the ceremony with palms, carnations and spirea, The bride was beautifully gowned in white embroidered muslin, with surolice waist, and carried a huge bouquet of Easter lilies and fern. Miss Madeline Jeffries, nice of the bride, made a picturesque little flowr girl in her white embroidery dress and hat, with blue ribbons and sash. She carried a basket of pink carnations, Mrs. Herbert Easton, the groom's cousin, played the wedding march. Guests to the number of 35 witnessed the ceremony, and after congratulations, sat lown to a dainty luncheon.

The bridal couple received many peautiful presents, among them being case of silver from the firm of Howden & Co., with whom Mr. Weekes was formerly connected, a handsome clock from the employees of the same firm,

Local Talent in Clever Play

People are always glad to see their riends in a capacity in which they do not meet them every day. This is to be the privilege given to the public of London tomorrow evening by the London Conservatory Dramatic Club, when under the direction of Miss Georgia M. Newbury, "Mr. Bob" will be presented. The Stanley Mineral Springs and Brewing Company, Limited, has acquired, as a going concern, the business and assets of the Stanley Mineral Springs Company, Limited, of Winnipeg. The latter Company carried on a well-established business, extending from Port Arthur to the Pacific Coast, and so well appreciated were its products that an insistent demand rendered it impossible for the Company to supply the wants of its customers.

The Stanley Mineral Springs and Brewing Company, Limited, is extending its operations and a contract has already been given for enlargements of its plant. The estimated cost of these enlargements is Five Hundred Thousand Dollars.

The rapid development of Western Canada insures a growing market for the products of the

The Canadian Northern Railway Company, fully realizing the great superiority of the Stanley Mineral Springs products, has been an important customer, and will continue to use the company's products in its hotels and on its dining cars and boats.

Estimated earnings show a net profit of \$256,300, or more than six times the bond interest and sinking fund payments. The remainder of the bonds are to be issued only for permanent betterments, additions to and enlargement of the plant, and can then be issued only to the extent of 75 per cent of the actual cost of such betterments, additions and enlargements.
