**GRAND JURY RETURNS THREE TRUE BILLS**

John Warlow of Walkerville To Face Trial For Murder.

WINDSOR, Oct. 10.—The grand jury tonight at Sandwich returned a true bill in the case of John Warlow, Walkerville baker, who is charged with shooting to death his wife, Louise Warlow, at Walkerville, on the night of March 14. Warlow will be placed on trial Tuesday morning. J. H. Rodd, K.C., former county crown attorney, will defend him.

True bills were returned against Harold Graham of Ford for beating and robbing Miss G. Trudel, messenger of the Ford branch of the Merchants Bank; James Grant, Amherstburg, for an alleged offence against a girl, and Medea Triole of Sandwich, for shooting at Patrolman Renaud with intent to do bodily harm.

Pleased with the plan of the London Hydro Commission to install electric water heaters in homes, the city council tonight instructed Mayor Wilson and the transportation committee to request the local commission to adopt a similar plan. Alderman Warren introduced a resolution, in which he asserted that hundreds of homes in new districts required some such service as proposed by the London commission.

By a vote of seven to five the city council declined to sanction a recommendation of the industrial committee to allow manufacturers to use not more than 25,000 feet of natural gas per month.

### Backache

Backache is the outstanding symptom of kidney disease. Women often make the mistake of attributing other causes and overlook the derangement of the kidneys until serious developments have made it difficult to obtain permanent relief.

This letter points to a treatment which has been so thoroughly tried and proven so effective in the great majority of cases that you cannot afford to overlook it when cause arises for its use.

Mrs. Albert Brunet, R.R. No. 1, Ottawa, Ont., writes:

"I have used Dr. Chase's Kidney-Liver Pills for the past two months, having been afflicted with kidney trouble. I used two doctors' medicine previous to this, without any good result. A friend told me to use Dr. Chase's Kidney-Liver Pills, and the second box made me feel a good deal better. I have now used about six or eight boxes, and am completely relieved."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25c a box, all dealers, or Edmansons, Bates & Co., Limited, Toronto.

## SYNOD ASSAILS OPPOSITION TO CHURCH UNITY

Wants Public Schools To Pay More Attention To Bible Teaching.

ASKS LAW ENFORCEMENT

Favors Repetition of Ten Commandments At Least Once a Week.

HAMILTON, Oct. 10.—The presentation and consideration of the report of the general board of religious education was the big item of this morning's session of the general synod. For this business the House of Bishops were present and took part in the proceedings.

Rev. R. A. Hiltz submitted the report, and also several suggested resolutions, the first of which met strong opposition from Dr. Cody of Toronto, and Rev. W. B. Waterman of Carp.

This recommendation commended the union of font roll and the babies' branch of the ladies' auxiliary.

"Just as soon as a boy becomes conscious of himself he objects to becoming part of a woman's organization," declared Archdeacon H. J. Cody.

Strong criticism was levelled at certain Toronto papers by the synod, regarding statements of alleged opposition to church union, alleged to have cropped up on Saturday when the proposal to fix a date for the discussion of this vital matter was broached.

Synod Adopts Motion.

The synod unanimously adopted a motion urging that more attention be paid in the public schools of Canada to the teaching of the Bible, and to religious instruction generally.

The subject was introduced by Chancellor Kirwan Martin of Hamilton, who placed the onus for the bringing into use of present regulations dealing with religion in schools on the local clergy in the individual parishes and rural deaneries.

"If clergy and laity in the different school districts would see to it that existing regulations are enforced they would get a result far beyond their expectations," declared Archdeacon H. J. Cody.

The board of religious education was authorized to continue its efforts to put the needs of the case before the authorities concerned. Its program looks towards the authorization of alternate daily readings from the Bible by teachers and pupils, the repeating of the Ten Commandments at least once a week, and the memorization of passages selected by the principal of the school from the Bible.

Sing Doxology.

With the members of the synod standing and singing the Doxology, a vote of thanks to the membership of the church for their able and willing response to the Anglican Forward Movement appeal was enthusiastically adopted.

Latest reports show that while the Dominion objective was set at \$2,607, the Anglican Churches had pledged \$3,471,608. Up to August 31, 1921, total receipts were \$2,664,192.

Discussion of the mutual commission proposal for re-ordination of the ministers of the churches concerned in the union question was the theme around which the two main addresses of the debate at the afternoon sitting centered.

Chancellor Kirwan Martin referred to the offer of the bishops to accept a form of commission which would be acceptable to other communions. He was greatly disappointed, however, at the way in which the proposal had been received by other Protestant churches.

Pleads for Conference.

What they seemed to want was that the bishops should accept the ordination of their denomination. Venerable Archdeacon Smith of Montreal made his account of the negotiations, which have taken place between a joint committee appointed by the Montreal Presbytery and the Bishop of Montreal, the basis for a strong appeal for a continuation of the conference with the Presbyterian Church in Canada. The Presbyterians alone had come to the Church of England on their own accord and asked for a conference, he said. At those conferences, which had extended over a year, cultured leaders in the Presbyterian Church had indicated their willingness to accept "ordination to the sacred office of the Catholic priesthood."

Reading the written agreement, which was arrived at, he described the various terms of services by which the commissions could be exchanged. He wished to point out, however, that there was danger of being too optimistic.

The debate opened with a somewhat confused discussion as to the method to be adopted in the consideration of the message on church union sent down by the bishops. Ultimately on the motion of Chancellor J. A. Worrell, Toronto, it was agreed to consider the preamble and the remainder of the message resolution by resolution.

That difficulty was disposed of, only to have another crop up immediately. Canon F. G. Scott protested against the wording of the preamble, maintaining that it involved a principle which the Canadian Anglican Church could not countenance. He referred to the implication in the words "The Upper House of the General Synod of the Church of England in Canada, having taken part in the issuing of an appeal to all Christian people," as giving the Lambeth conference a position in the church which was not lawful for it to assume.

The inference was that the Lambeth conference had legislative authority, and the Canadian bishops were bound to take the action they had taken because they had attended it.

After several protests had been made, Chancellor Worrell moved a motion of non-concurrence in the preamble, on the ground that the upper house, as such, had not attended the Lambeth conference, and it could not agree to a resolution committing "to the national, regional and provincial authorities of the churches within the Anglican communion the task of putting the aforesaid appeal into effect."

His motion was adopted without revision.

**ADJOURN PORT STANLEY AND M. C. R. RATE CASE**

OTTAWA, Oct. 10.—Application of the London and Port Stanley Railway for a settlement of the rates under agreement made between the London Railway Commission and the Michigan Central, came up before the railway commission here this morning and was adjourned sine die.

## Demand Cut in Wages Paid Unskilled Labor in Toronto

TORONTO, Oct. 10.—Seventy-five members of the Toronto Board of Trade waited on the board of control of the city government today and asked for a reduction of wages paid to unskilled labor by the city and for other steps towards economy.

The deputation claimed that the high wage rate of 40 cents an hour for unskilled help was "a deterrent to a resumption of normal activity in all lines of industry because of the precedent which is established, the en-

couragement which it gives to demands being made for a similar rate in industry and the unrest resulting from the inability of industry to comply."

Mayor Church said the big outlay in Toronto was for education and carrying charges on debts, and that the city council was not responsible for the mounting tax rate.

He gave no assurance that the wage rate would be cut, although the deputation declared that Toronto was practically alone in paying 40 cents at present to unskilled labor.

## ALLEGED THUG SHOT BY CONSTABLE DEAD

Second Windsor Suspect Lies Wounded in Hotel Dieu.

WINDSOR, Oct. 10.—Alex Dupres, 1634 McDougall avenue, alleged to have been one of the two burglars shot by Constable J. E. Bower while he was attempting their attempt to break into Austin's drug store, corner Gleggery avenue and Wyandotte street, at 2:45 o'clock this morning, died in Hotel Dieu at 3 p.m. today. Although detectives have been at his bedside when he succumbed to his wounds, they were unable to get a statement from him on account of his weakened condition. An inquest will be held.

William Gerard, 1616 Howard avenue, also in the hospital suffering from wounds in his side, is expected to recover. Both he and Dupres were brought to the hospital in an auto driven by a stranger one hour after the robbery attempt, and stated that they had been held up by hold-up men on the Tecumseh road.

Constable Bower was patrolling his beat in the early morning, and as he walked into a alley saw two men crouching in a dark corner. His suspicions were aroused. He challenged them, and they replied by suddenly attacking him.

Both his assailants were prominently armed. One flashed a nickel-plated object resembling a revolver, and the other struck him over the head with an instrument, thought to have been a brick. The men fled to run, and he warned them to throw up their hands. They did not heed him, however, and he fired, wounding the pair.

The fier squad was summoned and Bower, accompanied by Sergeants Pero and Begg, began a thorough investigation. They were finding the men had been at work drilling holes in the door of the store, near which was found a brace and bit.

Search for the missing men followed. Word that two wounded men had been admitted to the hospital was followed up with the result that the pair were found and identified by the officer.

Bower has been in the Windsor police force a year and has figured prominently in many important cases here. His superior officers described him as one of the most capable men on the force.

## NEW OCCUPATION PROFITABLE ONE

BLOOMINGTON, Ill., Oct. 10.—Illinois' most unique market is to be found on the banks of the Illinois River in Mason County. Fifteen men earn their livelihood by digging fish worms for anglers, and signs are displayed stating that this bait can be procured at the rate of three dozen for 25 cents. This is the standard rate, but in many cases the worms, who does not care to invest so extensively, will be sold one dozen worms for a dime. The worms are usually sold in a tin can filled with damp earth.

The Illinois River in the vicinity of Havana is the mecca for thousands of anglers annually, and the bait industry thus thrived with the increase in the number of hook and line fishermen. The black bass are the favorite of the fishy tribe, and anglers are said to be the most alluring bait for this species. With the coming of cooler weather the pastime has an increased number of devotees and the bait sellers have experienced a harvest.

The advance guard of ducks from the feeding grounds of the north, en route to the south for the winter, were reported this week along the Illinois River. The birds will work their way south by leisurely stages, and the sport will reach its height in the closing weeks of October and November.

OPEN SEASONS FOR HUNTING.

In Ontario the season for big game hunting is now on and from October 1 to November 30, moose, deer, or caribou can be taken north of the main line of the Canadian National Railways (formerly the Grand Trunk Pacific) from Quebec to the Manitoba boundary.

In that part of Ontario south of the French and Mattawa Rivers from November 5 to November 29, and that part of Ontario lying north and west of the French and Mattawa Rivers, October 25 to November 30, there is an open season for partridge November 5 to November 29. Woodcock may be killed from September 15 to October 15; wild duck from September 1 to December 15.

Some of the best hunting districts in Ontario are reached by the Canadian National-Grand Trunk Railways, and for further information, application should be made to agents of these lines, or write C. E. Horning, District Passenger Agent, Grand Trunk, New Union Station, Toronto.

## NEW BRUNSWICK DRYERS HAVE BIG MAJORITY

Can Only Obtain Liquor Legally by Doctor's Prescription.

ST. JOHN, N.B., Oct. 10.—With the returns only beginning to come in from other parts of the province, the drift of the voting shows unmistakably that New Brunswick had declared by the ballot against the legal importation of liquor for use as a beverage. Under the existing provincial act any household may import supplies for his own personal use, with few restrictions. Under the legislation, which will follow today's vote, this privilege will be abolished and the only legal purchases of liquor in this province will be those made on physicians' prescriptions for medicinal purposes.

The fact that St. John city voted in favor of the bone-dry law by a total of 5,949 to 3,665, came as a surprise even to the temperance leaders. In the last plebiscite for the confirmation of the present act, the city voted for prohibition in the proportion of six to five, and it was expected that the wet vote would be larger today.

CONTINUE FIGHT ON CITY GAS CO.

The fight against the City Gas Co. to recover "readiness-to-serve" charges has not been given up, according to Ald. George Wonnige, against whom judgment was given by Judge Judd in a similar case.

"There will be another case to come before the division court two weeks from Wednesday," said Ald. Wonnige Monday afternoon. He would not state just what new angle will be unfolded when the case comes to trial.

ROLLO MAY JOIN LABOR DELEGATION TO GENEVA

OTTAWA, Oct. 10.—(By Canadian Press.)—The delegation from Canada to the International Labor Conference to be held in Geneva commencing Oct. 25, is likely to be increased by the addition of Hon. W. R. Rollo, minister of labor for Ontario. The Ontario Government has accepted the invitation of the Dominion Government to name a technical adviser to the Government delegates, and recommended Mr. Rollo, Manitoba and Quebec are also sending technical advisers.

## KING URGES N. OXFORD LIBERALS TO ENTER FIGHT

WOODSTOCK, Oct. 10.—The secretary of the North Oxford Liberal Association today received a telegram from MacKenzie King in which he urged to the local association to go ahead and by all means put a Liberal candidate in the field. The mass meeting on Saturday will likely be held in the Educational Memorial Hall, as the city hall had been previously engaged.

The price of live hogs on the local market today was \$2.25 per cwt., the same as paid last week. There was a fairly large delivery. For calves, \$3.9c per pound was paid.

The death is reported of Jennett McAllan, wife of Wm. Newton of this city, aged 73 years. The deceased, who had been ill for some time, had been a resident of this city for many years.

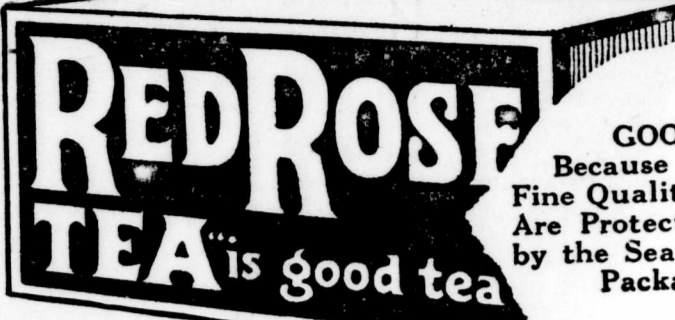

The manufacturers of the city have secured the arena for "pitting week" and it is the intention to make a display of "Made-in-Woodstock" goods.

## "FIVE" EFFICIENCY EXPERTS.

OTTAWA, Oct. 10.—Notice has been served to the firm formerly known as Griffenhagen and Associates by the cabinet committee on efficiency and economy, of the termination of their employment to reorganize Government departments.

## IDENTIFY AUTO VICTIM.

TORONTO, Oct. 10.—The woman who was struck down by an automobile on the street and Sunday night and died today in the hospital, has been identified as Mrs. Margaret McNeish, a widow, who came to Toronto from England last June.
