BUSINESS INSTITUTE COURSES THOROUGH

Students Trained To Meet the
Requirements of Most
Exactng Offices.

On December 1 last year, N. Stonehouse, principal of the London Business Institute, purchased the O'Brien Business College of this city, and moved into their premises in the Alma Block, 361 Richmond street. This amalgamates two well-known business schools that have been giving, for many years, thorough and practical business training courses to the young men and women of London and Western Ontario. The aim of the college is to give the best service possible in order to graduate students who are trained to meet the requirements of the most exacting business office.

The following are a few of the London firms who have, since September last, employed students of the college: Silverwoods, Limited; The Eureka Shop; J. C. Elliott, former crown attorney; Bell Telephone Company; Huron & Erie Mortgage Corporation; London Advertiser; Remington Typewriter Company; Lawson & Jones, McClary, Manufacturing Company; Wright-Teale Company; Richards-Wilco; International Harvester Company; Peel's Store; Belton Lumber Company; Western University; Recent Tailors, Windsor.

Night school classes are conducted every Monday and Thursday and will be continued until the end of June. These classes afford an excellent opportunity for those desiring to take special work in Gregg shorthand, Pitman shorthand, typewriting, bookkeeping, arithmetic, spelling and penmanship, in order to increase their earning capacity.

The spring term commences Tuesday, April 22.

CHAPMAN COMPANY GOODS SOLD THROUGHOUT CANADA

The Charles Chapman Company of 91 Dundas street was started in 1855—69 years ago—by the late Charles Chapman, one of the pioneer bookbinders of Western Ontario. At that time London was not the important city it is now; it was merely a small town with its years of progress yet to come.

At that time the company was operating on a small scale, but as services grew the staff of employees was continually increased until today 25 hands are kept busy 12 months of the year attending to the great volume of business handled.

The Charles Chapman Company manufactures all types and sizes of ruled and printed blank books for manufacturing houses and offices as well as a system of loose leaf school books which are used in educational institutions throughout Canada from Halifax to Victoria, B. C.

J. A. BARNARD SOLE AGENT FOR MASSEY SILVER RIBBON

There is just one place in London where the famous Massey Silver Ribbon bicycle can be bought, and that is at the shop of J. A. Barnard, 338 Talbot street. Mr. Barnard points to the fact that the Massey is one of the really outstanding Canadian-made wheels as the reason why his business has shown a steady yearly increase since the time the shop was first started.

Mr. Barnard has had 25 years' experience in the bicycle and general machine repairing field and because of this his patrons have come to realize that here they can find service of the most dependable order.

A full line of motorcycles is in stock at all times, and the Barnard shop makes a specialty of repairing motorcycles and side cars. Besides this, accessories of every description for bicycles and motorcycles are carried as well as a full line of automobile tires.

On Thinking Together

Many cities have grown from small beginnings to world-wide importance and to the casual on-looker their growth appears due to some outstanding material cause—an international concern has built a factory in the town or some important project has been instituted there—but as a matter of fact there has been a spirit of co-operation in that town, a feeling in each individual citizen that his neighbor was working with him, that, in itself, has done more than a great deal to advance the municipality.

A sentiment of dissension will occasion more havoc in the welfare of a community than any number of other causes combined, and if we, the people of London, are to make our city a better place in which to live as the years go on we must all do our utmost to further the idea of thinking together and in a rational manner on every question that comes up, either in a political way or in our everyday contact with fellow citizens.

Let us give the other fellow a chance by telling ourselves: "There is a possibility that he knows more about it than I do. I'll look into this before I disagree with him."

WHITE AUTO WRECKERS' STOCK OF PARTS COMPLETE

A complete line of new and used parts for all types of automobiles and trucks is on hand at all times at the White Auto Wrecking plant, 749 Simcoe street. Although used parts which have been thoroughly repaired and made good as new are the chief item in this company's business, a complete stock of new unused parts is carried also.

This concern is able to sell parts at remarkably reasonable prices, due to the fact that it is their policy to go through the country buying up stocks from bankrupt garages in job lots. Thus their patrons who need new or used parts for their machines benefit in the long run.

The White Auto Wrecking Company operates a complete vulcanizing plant for thoroughly repairing all auto tires before they are sold to the public.

TERRY GARAGE PROVIDES NIGHT AND DAY SERVICE

"Yes," said Tom Terry to The Advertiser reporter as he conducted the latter through his new garage, "they told me I was crazy to build such a big place as this, but they don't say it now. There are always twelve men down there," he continued, pointing to one end of the building, "and they are all busy all the time. At present I have in operation two service trucks, with a two-ton lifting capacity, and another with a five-ton crane is on order. It will be in operation before summer."

The new Terry garage on Fullerton street has every modern feature. The roof is built on steel girders, and eighteen skylights make the building a true "daylight structure." A full feature of the Terry garage is a full line of all types of auto accessories. This concern is the sole local agent for Gabriel snubbers and Stromberg carburetors.

Twenty-four-hour service is given by this concern, and the service trucks are ready at all times, night or day, to go to any part of the district to repair damaged machines or tow them into the city.

TURIN

Turin, April 10. — John Campbell, who has been spending a few weeks at his home here, is returning to Windsor this week.

George Strath, who spent the winter in Detroit, is spending a few days with his parents, Mr. and Mrs. George Strath.

Quite a number of the ladies of Turin Women's Missionary Society attended the Presbyterian at Cuthbert last week.

A large number from Turin attended the funeral of the late Mrs. Mrs. McKay of the fifth concession, Howard Township, on Sunday.

Miss Vanada Smith, a former teacher, has been visiting friends here and is leaving for home on Wednesday.

William Cowan, who has been confined to his room for over a week, is some better.

N. STONEHOUSE,

principal of the London Business Institute, which has taken over the premises formerly occupied by the O'Brien College, 361 Richmond street, announces that the spring term begins Tuesday April 22.

WYOMING

Special to The Advertiser.
Wyoming, April 10.—The District Ministerial Association met in Pictoria. An interesting paper was read by Rev. J. J. Monds on the problem of sin. Local ministers were in attendance.

The seventh of the series of teacher training classes was held Monday night in the Methodist Church. The subject of the lecture was "The Teaching of the Old Testament for Little Children." Needs of pictorial illustration, constant change of position, adaptation of the stories to the requirements of a child mind, were some of the points dealt with.

Rev. L. J. and Mrs. Stones have left for a visit to Toronto.

Dr. Houghton sang a solo in the Anglican Church Sunday night.

DAWN MILLS

Special to The Advertiser.
Dawn Mills, April 10.—Mr. and Mrs. Haylett, entertained a number of friends on Monday evening. Mrs. Haylett, assisted by Miss Luthy, served lunch.

The farmers in this locality have started to pick their apples. The many places the buds are appearing on the trees.

Jack McCall has returned to Detroit after visiting with his grandparents, Mr. and Mrs. W. D. Smith, on the Town Line.

The base line is again in very good shape, but the side roads are still unfit for car traffic.

Kent Gifford and Herbert Hall were guests at the home of Mr. and Mrs. A. E. Holmes on Sunday. Mr. Hall intends to return to Detroit soon.

MEADOW GOLD SALES INCREASING YEARLY

Plans Laid To Make Record-
Breaking Amount of Ice
Cream This Year.

From two hundred thousand pounds of butter manufactured in 1916 to well over three-quarters of a million pounds during the current year is the mark the Meadow Gold Creamery, 129-131 King street, has set. This company made its bow to Londoners eight years ago and since that time Meadow Gold products have attained a reputation for consistent goodness that has made the demand for them greater year by year.

In the summer of 1922 the Meadow Gold Creamery installed a complete modern ice cream manufacturing plant. Last season the call for this product became so general that sales were greater by one-third than in the previous year, and the company is making preparations to handle a far larger amount this summer.

Sanitation and absolute purity of all ingredients are the watchwords of the Meadow Gold company. The ice cream made here is itself a revelation to the uninitiated. Two huge rectangular metal mixing tanks first receive the mixture of milk and cream and solids and flavoring and after this is thoroughly mixed in the tanks it is run through a cooling machine and thence to the freezers, after it becomes ice cream it is packed in containers or done up in pound prints and stored in refrigerating rooms for shipment.

LONDON STEAM LAUNDRY USES UNIQUE SYSTEM

The time-honored expression, "there is nothing new under the sun" may well apply in other spheres, but the London Steam Laundry of 10 Front street west has introduced a novelty in the laundry field. It is their system of individual washing in which no article handled, no matter how small or how large, is marked in any way. Thus housewives are assured that in sending their clothes to the London Steam Laundry they will receive them back without a mark on them.

S. Anderson and E. Froggett, proprietors, are both men of wide experience in the laundry business. Every piece of machinery in their plant is of the most modern type and further, was made in London. Every employee of the firm is bona fide Londoner.

Although the London Steam Laundry is comparatively new to the city its standard of high-grade work at all times has won it a London-wide clientele that is growing larger month by month.

THAMESFORD

Special to The Advertiser.
Thamesford, April 10.—Mrs. Gladys Veale of the public school staff visited her home at Mount Brydges during the week-end.

The Orange Hall was packed when the Kintore Dramatic Club presented their play "Placer Gold," under the auspices of the Presbyterian Church choir.

Sterling Clark has taken a position in Staples' garage, Ingersoll.

The many friends of Mrs. Eleni McCall will be pleased to learn that, although still confined to bed, she is rapidly improving.

Harry McCallan of Ayr spent the week with his parents, Mr. and Mrs. James McCallan.
