## CIVIC MATTERS.

The Graphic is pleased to see a re-  
newing of interest in civic affairs.  
During the past two weeks there has  
been much wholesome discussion and  
criticism of town affairs, and such  
cannot but be of benefit to the town.  
We only regret that more men of abili-  
ty have not offered so that the citi-  
zens in every ward, and for the town  
at large might have had an opportu-  
nity of expressing by their franchise  
their confidence in the old council  
or otherwise by voting for new men.  
Our citizens are altogether too back-  
ward in serving their town. Be-  
cause they are particular friends of  
a certain councillor should not be suf-  
ficient reason for refusing to accept  
nomination. It is every citizen's duty  
if requested by his fellow citizens to  
offer to serve his town.

We are not going to advise our  
readers to vote for any particular  
candidates. Their names are before  
you; you know them all as citizens  
and our only word is, vote for the best  
man.

We are glad to note that the cam-  
paign is being carried on with the best  
of feeling between all parties. This  
is as it should be, and then when the  
election is over there will be no re-  
grets.

## "WHY CONSCRIPTION?"

We Canadians say our first line of  
defence is in France and Flanders.  
THIS IS TRUE! The men fighting  
there are doing as much to protect  
from destruction our Canadian homes,  
as if they were holding a line running  
from St. Stephen to Newcastle. If  
that part of Canada East of the above  
line were in the hands of the enemy,  
it would be the duty of the rest of Ca-  
nada to get it back. It would be ab-  
surd for the man in Quebec or Ontar-  
io to say, "I will fight for my own  
country when war comes. Just now  
all the Allied nations are in one boat.  
We must sink or swim together. If  
one falls—we all fall. Their line of  
defence is our line also. The Belgian  
or Frenchman is protecting with his  
body the Home in Canada just as  
much as the Canadian soldier. We  
must consider that part of France and  
Belgium now in the enemy's hands as  
if it were part of Canada that were  
taken. It is our duty to get it back.  
We have been blessed by the fact that

war has not scorched us by its breath  
of destruction. We have seen its  
work. Let us confine the fire to the  
burnt district. Every physically fit  
man in France and Belgium is at war.  
The fields are farmed, the factories  
are kept going, the railways are run,  
by the noble women of these countries.  
They have suffered and starved, and  
told and died for us. What are we  
doing for them? Where is there even  
an isolated instance in Canada of one  
of our citizens missing as much as a  
meal by reason of this war? Let us  
stop and think. Is it just? Are we  
doing our full share?

### ACCEPTS CALL

Rev. F. T. Bertram of Westfield, N.  
B., has been extended and has ac-  
cepted a call to the Campbellton  
Methodist Church.

### ELECTION CARD

To the Electors of the Town of Camp-  
bellton.  
Ladies and Gentlemen:—  
At the request of a large number of  
the citizens I have consented to again  
become a candidate for the office of  
Mayor.

Since assuming the duties of that  
office I have endeavored to have the  
affairs of the town administered in  
the best interests of the whole com-  
munity, and, if re-elected, I will con-  
tinue to do so.

There has been a great deal of un-  
just criticism of the present members  
of the Council and several canvases  
are being used that are absolutely un-  
true.

For instance one canvas is that the  
Town Treasurer is being paid \$4,000  
per year when as a matter of fact the  
salary paid that gentleman last year  
was \$1576.72. Another is that the  
Town Clerk was paid the sum of  
\$1900, when in reality his salary last  
year was \$998.00. Another is that  
the Electric Light Dept. made a de-  
ficit last year of \$3,000, when the very  
opposite was the case, the Electric  
Light Dept. had a surplus on last  
year's operation of \$4,401.29.

If you will refer to the Blue Book,  
a copy of which has been mailed to all  
citizens you will be able to verify my  
statements.

The very best evidence of a Town's  
financial condition is the price at  
which its Bonds sell in the open mar-  
ket, not long ago Campbellton Five  
Per Cent Bonds sold at 98.05, while  
the Five Per Cent Bonds of the City  
of Kingston, Ont., sold for 97.13  
that is Campbellton got \$98.05 for  
every \$100.00 worth of Bonds while  
Kingston only received 97.13 for a  
like amount, so that our Bonds were  
worth more than those of the City of  
Kingston.

As the time is so short it will be  
impossible for me to call upon every-  
one, but I trust that that will not de-  
fer you from giving me your support.

I thank you most sincerely for the  
honor you have done me in the past  
and can assure you that if re-elected  
I shall continue to work in the best  
interests of our Town.

Yours sincerely,  
ALBERT A. ANDREW.

### CARD

To the Voters of Ward Two of the  
Town of Campbellton.

Having been solicited by a large num-  
ber of prominent citizens to offer our  
names as candidates for Councillors  
in Ward 11 we have consented.

If we have the honor of being elected  
we will do all in our power in the  
best interests and prosperity of the  
town in general and will make a special  
effort to run the town business in  
an economical and business-like

### ELECTION CARD

To the Electors of Ward Three.

Ladies and Gentlemen:—

At the solicitation of a large num-  
ber of the influential electors of Ward  
3 we have been nominated as Council-  
lors to contest the election on Tuesday  
next.

If elected we will to the best of our  
ability endeavor to conduct the affairs  
of the town in a business-like man-  
ner.

As it will be impossible for us to  
visit the electors personally we take  
this means of asking for your support.

Yours very truly

### CARD

To the Electors of Ward Three.

Ladies and Gentlemen:—

At the request of a large number  
of the ratepayers of Ward Three, I  
have placed my self in nomination as  
a candidate for

in the civic election to be held on Tu-  
esday, April 17th next.

If elected I will put forth my best  
endeavor to insure economical admini-

stration, also try and establish and  
have certain Public Works which are  
sadly needed in Ward Three.

As I cannot make a personal call  
on every ratepayer between now and  
election day, I take this means of ask-  
ing your support on Tuesday, April  
17th.

I remain, your obedient servant,  
W. J. McNEIL

### THE COST OF GROWING POTATOES

(Experimental Farms Note)

In potato growing provinces like  
New Brunswick there is always more  
or less discussion as to what it should  
cost to grow a good crop of potatoes  
and statements vary from as low as  
\$40.00 per acre to as high as \$125.00.  
Naturally there will be much varia-  
tion in cost according to local condi-  
tions and especially to the ability of  
the land to produce without expensive  
fertilizing. It should be borne in  
mind that it will usually cost the po-  
tato specialist more to grow his crop  
than it will the farmer who follows  
mixed farming and makes his potato  
crop merely one of his many activities.

With a view to getting actual fig-  
ures under average conditions in New  
Brunswick, a careful record has been  
made at the Dominion Experimental  
Station, Fredericton, for the past two  
seasons with an acre of land set apart  
for this particular purpose.

Neither rent of land nor depre-  
ciation of machinery was included in  
the calculation, for these two are  
items that are largely in the hands  
of the individual grower. As a gen-  
eral rule, however, it would be fair  
to charge as rent, 10 per cent of the  
value of the land, and special potato  
machinery will depreciate from 25 per  
cent per year if used steadily for ten  
days each season. In 1915, the depre-  
ciation of the potato digger alone, used  
at the Experimental Station, was  
\$6.00 per acre.

In 1915, the acre was planted with  
Green Mountain, Irish Cobbler and  
Empire State. Seed, cultural opera-  
tions and harvesting cost in all \$67.93.  
Eighty barrels of 165 pounds each  
of marketable potatoes were obtained  
and sold at \$1.75 per barrel making a  
cents per barrel. Seven barrels of  
culls were sold for \$3.50, so that the  
profit over cost of production of 90

total profit for the acre amounted to  
\$75.50.

This land was rather wet naturally  
and during the very rainy weather of  
June and July was several times flood-  
ed causing missed hills and inferior  
plants generally. This land was origi-  
nally cleared many years ago and after  
cutting hay for thirty years it was al-  
lowed to grow up to spruce, birch and  
alder. It was again cleared in 1913  
and grew buckwheat in 1914.

In 1916, an acre was planted with  
Green Mountain seed.

The total cost amounted to \$82.33,  
the increase over 1915 being due to  
high priced seed, higher priced fertil-  
izer ingredients and very dear copper  
sulphate.

One hundred and twenty barrels of  
marketable potatoes were harvested  
and could have been sold at \$2.25 per  
barrel, making a profit per barrel over  
cost of production of \$1.56%; plus  
six barrels of culls at 50 cents, mak-  
ing a total profit of \$190.20.

Market price when potatoes were  
they could have been sold \$3.25, but  
were held for seed.

This land grew hay for many years  
and was broken up and grew potatoes  
with 750 pounds fertilizer in 1915,  
corn with 15 tons manure in 1916.  
In 1914, oats without manure in 1915.  
This land is on a slope, fairly well  
drained and except for washing out  
slightly between the rows felt no bad  
effects from the June deluge.

"I had stomach trouble so bad I  
could eat nothing but toast, fruit and  
hot water. Everything else seemed  
and formed gas. Dieting did me good
