ASTOR ESTATE IS LESS THAN THOUGHT

Tentative Appraisal of Real Estate Amounts to Sixty-Two Millions

New York, October 16.—The total estate of the late Col. John Jacob Astor will appraise at many millions less than has been supposed. This was indicated Saturday when a messenger from the office of Carter, Ledyard and Milburn, attorneys for the executors, went to the State Comptroller's office at Albany, with a cheque for \$3,150,000, representing the transfer taxes of the value of the estate by the executors.

This amount of tax indicates that the executors have computed the net value of the estate, after all debts, commissions of executors, and other deductions have been eliminated, at \$77,826,000.

Previous estimates of the value of the estate have ranged from \$75,000,000 to \$150,000,000, with the Astor real estate frequently appraised at \$100,000,000.

The tentative appraisal of the Astor real estate made by the experts agreed upon by Lewis C. de Deyard Jr., counsel for the estate, and John Quinn, counsel for the State Comptroller, is \$62,650,000.

This does not include the elaborate country place at Rhinebeck, which has not yet been appraised by representatives of the State Comptroller.

SEVEN LIVES WERE LOST IN DISASTER

Evidence That Yacht Bernadette Went Down—One Body Recovered

Rimouski, Que., Oct. 12.—With the discovery late yesterday afternoon of the body of F. X. Proulx, all hope was abandoned to-day for the safety of the seven who formed the crew of the missing sailing yacht, Bernadette.

Proulx's body had been washed ashore at Cape Ala Baleine, about twelve miles below Matane, and parties of anxious searchers are to-day scouring the shore on both sides of the river seeking for bodies of other victims of the disaster.

When found the body of Proulx bore a life belt, and it is thus believed that those who are supposed to have perished whilst cruising on the waters of the St. Lawrence were not overtaken by a sudden storm, but had time to equip themselves for a fight in the water before their craft went under.

The government steamer Lady Evelyn and the steamer Laurentian are heading today's search. A flotilla of small craft in charge of residents of the vicinity will also aid in the search. A close watch is being kept on the shore in case any wreckage or other indications of the missing men are washed in with the tide.

CITY CIRCULATION AGENT

Of Leading Montreal Daily Enjoins GIN PILLS

"I have long years of suffering from Kidney Trouble—two boxes of GIN PILLS—and it's all gone. That has been the experience of Mr. Eugene Quessnel, Chief City Circulation Agent of La Patrie, of Montreal. He describes it feelingly:
May 3rd, 1912
"I have been suffering from Kidney Trouble for over five long years. I had also rheumatism in all my bones and muscles, could not sleep nights and on some occasions could hardly walk. I had been treated by some of our best Physicians but without relief and I lost over fifteen pounds. One day I met one of our leading hotelkeepers, who had been cured by your famous GIN PILLS, and he advised me to try them. So I bought two boxes at my druggist's and before I had used one box I felt a big change. Before I finished the second one I was completely cured. I can assure you I can hardly believe it for if I had only known what I know now I would not have spent over One Hundred Dollars for nothing when two boxes of GIN PILLS cured me."
RUGER QUESNEL.
GIN PILLS are gaining a world-wide reputation, by the way they conquer the most obstinate cases of Rheumatism and all kinds of Kidney Trouble. 50c. a box, 6 for \$2.50. Sample free if you write National Drug and Chemical Co. of Canada, Limited, Toronto. 149

WILL LEASE NORTH SHORE LINE TO C.N.R.

Power Will Probably be Given For Running Rights Over I. C. R.

With regard to the present line of the Intercolonial, it is a well known fact that MacKenzie & Mann have for some time past wanted running rights over it as the maritime link for the new C. N. R. transcontinental. A 'adjustment by which running rights or a lease might be granted to the C. N. R. over this line would dispose of the question as to what the government would do with the two sections which the taking over of the Levis-Mocton portion of the transcontinental would place upon its hands.

The government would thus only be called upon to operate the new line, leaving the present line of the C. N. R. to operate and still maintain running rights over the latter.

The policy outlined above is, in the main, in line with what Mr. Braden argued while in opposition. It is in line with recent hints in the government press in closest touch with the premier and his minister of railways, and it is apparently to be the government's chief card to solace the west in regard to its freight rate and transportation problems.

A government-operated railway from Winnipeg east with the proposal for practically a further extension via running rights on the G.T.F. to the Pacific coast, would undoubtedly improve a popular appeal especially in western Canada and is apparently the only thing the government will have to offer as an offset for the demand for lower tariffs and wider markets.

The announcement and detailed formulation of the policy will, of course be delayed until the opportune moment, prior to the next general appeal to the electors. But in a general way that is the policy which the government now has in view.

SCOTTISH GIRL HAS VANISHED

Mysteriously Disappeared on Way to Work in City Factory.

Miss Gertrude Vallance, 138A Colonial avenue, Montreal, has vanished from sight, and in spite of the efforts of her brother George, Detective Demers and Ald. Blumenthal, not a trace of her can be found. She left her boarding place about 12.40 on Monday afternoon to go to her work in the T. Eaton Company factory on St. Catherine street, but never reached that place. Her brother searched all night for her, and made a complaint to the police office about midnight, but nothing was done. The next morning he enlisted the aid of Ald. Blumenthal, who had Detective Demers detailed to investigate the mysterious affair.

The young girl came to Canada on Oct. 6, on the SS. "Grampian," from Scotland, and went to a room where her brother was living at 138A Colonial avenue. On Monday morning she went to work at the Eaton factory, her first day's work since arriving here. She came home for dinner and left the house to return to her work. Since then not a trace of her has been found. She was about five feet in height, slender, dark hair, pointed features, weighing 105 pounds.

She wore a purple hat with a white feather in the side, a dark slate-colored suit with a fine stripe in it with pearl buttons, and her shoes were black. She spoke with a distinct Scotch accent.

She was a stranger in the city, and found difficulty in locating her boarding house after leaving her work. It is feared that she lost her way in returning to it, and fell into the hands of designing white slavers. If so, it is likely that she was sent out of the city, across the boundary, early on Tuesday.

The girl had not a cent with her, and only the street car tickets to carry her to her work.

To a 'Witness' reporter Ald. Blumenthal said he feared that she was lost as the slavers, he said, were watching for friendless, strange girls on the streets. Only a few days ago he had rescued a 14 year old girl from their clutches just as she was being sent to a United States city.
