Catarrh—A New Treatment.

From the Weakly (Toronto) Mail, Aug. 24.

Perhaps the most extraordinary success that has been achieved in modern medicine has been attained by the Dixon treatment for Catarrh. Out of two thousand patients treated during the past six months fully ninety per cent have been cured of this stubborn malady. This is none the less starting when it is remembered that not five per cent of patients presenting themselves to the regular practitioner are benefited, while the patent medicines and other advertised cures never record a cure at all. Starting with the claim now generally believed by the most scientific men that the disease is due to the presence of living parasites in the tissue, Mr., Dixon at once adapted his cure to their extermination—this accomplished, he claims the extern the practically cured and the permanency is unquestioned, as cures effected by his two years ago are cures still. No one else has ever attempted to cure catarrh in this manner, and no other treatment has ever cured estarrh. The application of the remedy is simple and can be done at home, and the present season of the year is most favorable for a speedy and permanent cure, the majority of cases being oured at one treatment. Sufferers should correspond with Mr. A. H. Dixon, 305 and 307 King street west, Toronto, Cannada, and enclose stamp for his treatise on Catarrh.
